Salient Smashed by Haig Army Threatens German Hold on Lille and Big Coal District

GUNS AND OVER 6000 PRISONERS CAPTURED

Teutons Massing Reserves to Counter Attack; Cavalry in Action; French Hold Drive

**BULLETIN.**  
LEASSED WIRE TO TRIBUNE.  
BERLIN (via London, 4:25 p. m.), June 8.—The German forces on the Belgian front have withdrawn from the salient protruding westward to a prepared position between the canal bend north of Hallebeke and the Douve Basin, two kilometers west of Warneton, army headquarters announced today.

**UNITED PRESS.**  
LEASSED WIRE TO TRIBUNE.  
LONDON, June 8.—Across a blunt wedge five miles broad at its apex, British troops are still forging ahead today, smashing Germany's steel grip on Belgium. Early in the morning, the day told of another night of intense fighting. The German line bent back in the initial shock of vast mine explosions, of a hell fire of artillery and of the dashing blows of the infantry. Up to today the enemy's elasticity had not been evidenced in any snapping back into line of that fracture. Apprised now of the tremendous strength of the drive, the Germans were massing reserves and fiercely opposing every step of the British advance.

"The position we captured yesterday was one of the enemy's most important strongholds on the western front," Field Marshal Haig reported today.

He did not add any new details of the fighting.

The great city of Lille and the important industrial towns of Tournai and Roubaix are directly menaced by the newest—and probably the most powerful—of the British drives. The three cities are the centers of France's industrial section of the north. The fighting is over Belgium and the objectives sought are in France.

**STRATEGIC POINT.**  
In this locality the Franco-Belgian line twists in a sharp dip, forming a triangle whose point is just above Arras. Menin, Ypres and Arras are along one side of the triangle between the Belgian border cities—the hypothenuse of a triangle, whose upright line runs from Ypres and Messines to near Arras. Lille is six miles distant from Arras. It is ten miles from Arras, further up on the triangle line.

#### HARDING SCORES ADMINISTRATION IN HIS SPEECH

**BY INTERNATIONAL NEWS SERVICE.**  
LEASSED WIRE TO TRIBUNE.  
WASHINGTON, June 8.—The most violent partisan debate heard in the Senate since the war broke out was precipitated this afternoon when Senator Lewis, the Democratic whip, called Senator Harding, Republican, of Ohio, to account for a speech he delivered at Columbus on Memorial Day in which the Ohio Senator assailed the Liberty Loan publicity campaign as "hysterical and unseemly."

Senator Harding in his reply to Senator Lewis flamed to flame the long-smouldering bitterness on the Republican side against the administration's conduct of the war and its utterances as to America's purposes in the conflict. He declared the hesitation of the people to subscribe to the Liberty Loan was due to the lack of confidence in the administration's ability and asserted the idea that the object of the war is to dethrone the Kaiser and not to fight the German people.

"I did say that the Liberty Loan was hysterical and unseemly," said Senator Harding. "I wish that I could have made such an unseemly and hysterical campaign unnecessary."

"I could make statements here on the Senate floor this afternoon which would prove a sensation to the 100,000,000 American people who are in this war."

#### PEACE OFFER MADE RUSSIA BY AUSTRIA

**By William G. Shepherd.**  
United Press Staff Correspondent.  
PETROGRAD, June 8.—Formal proposals for a separate peace have been authorized by the Austrian General Staff. The Austrian division on the front to enter the Russian lines and propose such a compact, it was reported here today.

Simultaneously news was received of a delegation of Austrians, including two generals, who were in Kishinev, urging a conference with the workmen and soldiers' council. They were accompanied by a delegation of Russian soldiers. Orders were issued for their arrest.

None but a dictator can now restore discipline and stir the Russian troops into a renewed offensive. No man has yet dared assume the power. The workmen and soldiers' council absolutely dominates the situation. President Tschedak and his colleagues are the collective masters of Russia. They openly declare the present war is "imperialistic." All attempts to convert them to the idea that Russia's fighting is for democracy have failed.

They will oppose Russia's fighting participation until what they term the "allied imperialism" aims are abandoned. They insist that publication of allied peace aims free from imperious demands would bring immediate peace. They furnish no explanation for their belief that Germany will abandon her own imperialistic aims.

Minister of War Kerensky's health is very bad. The magnitude of his task is plainly wearing down his fighting force. A recent speech before the workmen and soldiers' council on his return from the front, betrayed this fact.

**PEASANTS' TELL STAND.**  
**BY ASSOCIATED PRESS.**  
LEASSED WIRE TO TRIBUNE.  
PETROGRAD, June 8.—The Congress of Peasants in session here adopted a resolution calling on the army to submit itself to discipline and defend the country energetically and unflinchingly, and with the right of each nation to dispose of itself, international relations and treaties should be submitted to the control of the peoples interested. Dispute should be settled by the congress, and the army to submit itself to discipline and defend revolutionary Russia of peasants and workers. It grants its benediction to this war and will not forget the blood which has been shed."

#### SUPERVISORS 'NEED FIXING' SAYS JURY

Infirmary Troubles Probed—Personal Grievances of the Members of Board Are Aired

Panel Runs Into State Board on Inspection Trip; the Goat Meat Scandal Is Investigated

"It looks very much as if the supervisors needed fixing as well as the county hospital."

This statement was made by one of the grand jurors at a meeting held yesterday afternoon in the Grand Jury room at the county jail building.

The Grand Jury had hailed the Board of Supervisors before them to talk over the hospital conditions as a result of the last visit made by the county inquirers to the infirmary on June 1.

The Board of Supervisors responded to the summons. Supervisor Z. M. Kelley not being in Oakland and not having been served.

The visit of the Grand Jury to the county infirmary and the summoning of the supervisors had to do with the goat meat scandal solely. The Grand Jury had made one, not complete, visit to the infirmary, and wished to finish their work before working up their final report. They had set Wednesday for the trip and without giving notice of their intention to anyone save District Attorney Hynes.

The fact that the State Board of Charities and Corrections had chosen Wednesday for its annual survey of the hospitals of Alameda county was unknown to the Grand Jury, as was the selection of the date by the Grand Jury for their trip unknown to the state organization. Each organization was keeping its move as quiet as possible, and so quiet was it kept that neither knew that the other was on the road until that morning.

**MEET AT HOSPITAL.**  
When the two organizations met at the county infirmary in the afternoon they merely exchanged the courtesies of the day, and each gave the other as wide a berth as possible so that they would not be accused of interference.

After completing their final inspection of the infirmary the Grand Jury called the supervisors to meet with them yesterday afternoon.

The four members were admitted to the room together and were kept before the inquirers for almost two hours.

It is evident that the supervisors thrashed out all of their personal grievances before the jurors, and it is a fact that Supervisor Foss indulged himself in the expression of his opinion of Dr. C. A. Willis, the superintendent of the infirmary, and finally wound up by charging that District Attorney Hynes was preparing a coat of whitewash for Dr. Willis.

Clashes were frequent, until one of the members of the Grand Jury pressed the opinion that the Board of Supervisors needed attention as well as the county infirmary.

The Grand Jury paid special attention to the exact conditions that existed at the infirmary at the time that the goat meat substitution was discovered and the condition of the various employees on the night before the exposure. It has been reported to the Grand Jury that some of the employees were under the influence of liquor at that time.

It is not expected that the Grand Jury will bring in any criminal charges, but that they will devote a considerable portion of their final report to the conditions existing at the institution.

**WOULD AID PROBE.**  
The Grand Jury is inclined to give the State Board of Charities and Corrections every help in the survey that they are making of the county conditions of Alameda county. Many of the grand jurors feel that the State Board of Charities and Corrections can go into matters that the Grand Jury is not in a position to properly investigate.

In the meantime, aside from the various moves that will be made in connection with the purchase of the new site, all matters surrounding the government of the infirmary will be held in statu quo at the request of the State Board of Charities and Corrections.

**GIVEN PASSPORTS.**  
AMSTERDAM (via London), June 8.—The Italian Charge d'Affaires at Berlin has been handed his passport, according to a despatch from the German capital. The Italian diplomat had previously presented a note protesting against unrestricted submarine warfare and demanding compensation for losses caused to Italian commerce and life.

#### GOETHALS, IN ROW, "FIRES" ENGINEERS

Eustis and Clark, Originators of Wooden Ship Idea, Ousted as the Result of Controversy

**BY ASSOCIATED PRESS.**  
LEASSED WIRE TO TRIBUNE.  
WASHINGTON, June 8.—Major-General Goethals, general manager of the emergency fleet corporation, today dismissed F. A. Eustis of Boston, assistant general manager, and F. H. Clark of New York, the two engineers who originated the wooden fleet idea.

The dismissal of Eustis and Clark today followed their action of last night in issuing statements virtually charging general Goethals with holding up the shipbuilding program in the nation's emergency.

Statements issued last night by Eustis and Clark virtually charging Goethals with blocking the building of wooden ships, by demanding an impossible form of contract, opened anew a controversy as to the value of wooden vessels as cargo vessels.

The statements reveal that the fleet corporation has just received offers from ten firms to build 196 wooden ships within twelve months or 750 within eighteen months. General Goethals has turned the proposals down because the builders wish to construct the ships on a cost plus 10 basis, instead of the flat fee of \$100,000 per ship.

**ORIGINATORS OF PLAN.**  
Eustis and Clark are the mining engineers who originated the wooden ship building plan adopted by the shipping board and regarded by General Goethals as impracticable. When the board formed the fleet corporation and put General Goethals at its head with full powers to build ships the two engineers were assigned to the corporation as the general's aides.

After taking charge of the building program General Goethals turned to steel construction and limited the wooden program to not more than 250 ships, in eighteen months. Eustis and Clark contend the corporations can build 2000 wooden ships within the time without interfering with steel building.

**ISSUES ANSWER.**  
Just before General Goethals dismissed Clark and Eustis both engineers declared they had nothing to retract from their statements that the corporation was despondent in favor of steel and that the result would be a great delay in getting ships into the service.

The action of General Goethals is taken as the final proof of the collapse of the wooden ship building program.

In dismissing Clark and Eustis General Goethals sent the following memorandum to Chairman Denham of the shipping board:

"On returning to the office I took action along these lines. In wooden ship construction we are paying for the ways and necessary equipment when requested and protecting the contractor on account of advances in the cost of labor and in the price of materials. The only contingency unprotected is inexperience, which is not a contingency if the prospective contractor possesses the necessary and proper organization for carrying on the work."

"On April 25 I made certain recommendations to you concerning the necessary authority. There were \$50,000,000 available and contracts were limited to this amount until the hearings were held. In order that I might truthfully tell the committee that I had not obligated the government beyond the amount available."

"Subsequent to the hearing I received the limit and I have obligated the government for \$20,000,000 or \$25,000,000. This shows the falseness of the statement that ship construction is being delayed unnecessarily."

#### CAPITAL CITY AND SEVEN TOWNS IN REPUBLIC ARE RAZED

San Salvador and Suburbs Shattered By Earthquake and Swept by Fire After Violent Eruption of Volcano DEVASTATION IN WIDE AREA

**By Associated Press.**  
SAN JUAN DEL SUR, Nicaragua, June 8.—San Salvador, the capital of the republic of Salvador, with a population of about 70,000, has been totally destroyed, according to a despatch from San Miguel, Salvador.

No details as to the manner in which the city was destroyed have been received but it undoubtedly was the result of an earthquake or volcanic eruption.

At 7 o'clock last night the telegraph operator at Tegucigalpa, Honduras, reported that the operator at San Salvador had informed him that earthquakes had been felt there. The shocks were also felt at Tegucigalpa, where the operator at 7:45 p. m. lost communication with San Salvador on all wires.

**FLAMES RISE FROM VOLCANO.**  
From Sensuntepeque, north central Salvador, flames were seen arising apparently from a volcano in the neighborhood of San Salvador.

A despatch from Tegucigalpa says that in addition to the wiping out of San Salvador, the towns of Quezaltepeque, Nejapa, Suchichoto, Paisnal, Armerio and Mejicanos were also destroyed. Mejicanos was a suburb of San Salvador.

At 10:09 this morning there still was no communication between San Salvador and Tegucigalpa.

An operator who reached the edge of the destroyed zone reported at 9:20 o'clock this morning that San Salvador was in ruins and that everything within a radius of thirty miles had been destroyed by an earthquake.

The town of Santa Tecla also has been destroyed, according to this report. Residents of San Salvador are camping in the streets and parks. At the time the report was sent it had been raining heavily five hours. The disaster is supposed to have been caused by an eruption of the volcano of San Salvador, at the foot of which the city is situated.

**AMERICAN BUILDING DAMAGED.**  
WASHINGTON, June 8.—An important section of the central business part of San Salvador was destroyed, the American legation building was rendered uninhabitable and all other city property apparently made untenable by an earthquake, fire and volcano eruption last night, according to advices from Minister Long, to the State Department this afternoon.

Long's message undated, apparently was sent last night. It reported severe earthquakes from 6:35 p. m. to 8:45 when the volcano of San Salvador began to belch forth fire and smoke toward Quezaltepeque. One final severe shock was followed by decreasing tremors.

Dry ashes fell in a steady streak over the city. Long said the fire in the business section seemed to be under control at the time his message was sent. No deaths had been reported at that time and the legation records are reported safe.

The seismograph at Georgetown University early today recorded "severe" earthquake shocks, presumably at a distance of two thousand miles from here. The disturbance began at 7:57 last night and lasted until 9:25. The maximum tremors were reported about 8:07.

San Salvador, the capital of Salvador, is a thriving Central American city, containing about 70,000 inhabitants. It was founded by Spaniards in 1525, and is today the seat of many pretentious buildings, among them a university, a national palace, cathedral, national library, astronomical observatory, botanical garden, besides many palatial residences.

It has suffered considerably from earthquakes in the past, especially in the years 1854, 1872 and 1879, these being accompanied with great loss of life and property.

#### 1917 VICTORY HOPES GIVEN UP BY ALLIES

**By J. P. Yoder.**  
United Press Staff Correspondent.  
WASHINGTON, June 8.—Hope of an allied victory in 1917 has gone, according to best-informed government officials. The frank admission was made today that American plans are being predicated upon the probability of at least three years of war. Conceit has given way to conception of the size of the job that has been put up to the United States—the landing of the knockout blow to German militarism.

The frank admission of the former British military critics, made within the past few days, that the entire plans of the allies' offensive have been completely upset by the Russian upheaval has given Washington a jolt. In some quarters it has developed pessimism. In others, especially among some members of the Council of National Defense, there is a feeling of relief that deception has given way to frankness and that the American nation has at last been permitted to face the cold fact that the success or failure of the allied cause is squarely up to the United States.

Among a number of the strongest men in Washington—some members of the government and other business men giving their time and services to winning the war—the feeling is strong that public opinion in the United States has been chloroformed and facts withheld, knowledge of which

#### LEADER OF AMERICAN EXPEDITION IS HONORED

198 in Staff of Commander Are Guests of British; Big U-Boat Blockade Escaped by Vessel

NEWS OF DEPARTURE FROM U. S. WAS SECRET

Ambassador Page, Lord Derby and Viscount French Join in Welcome; Work Is Begun

**By Frank Getty.**  
United Press Staff Correspondent.  
A BRITISH PORT, June 8.—Major-General John J. Pershing, commander of the first American expeditionary force to France, arrived in England today, accompanied by his staff.

He reported a pleasant trip and expressed the utmost astonishment that the news of his departure had been so successfully suppressed. "I thought the whole world knew about my leaving the United States," he declared.

The American army chief and his staff were given a tremendous ovation on their arrival. A special train was in waiting for the party. It was due to arrive in London at 3 o'clock this afternoon.

"We are very glad to be the standard bearers of our country in this great war for civilization," General Pershing asserted. "To land on British soil and receive such a welcome is very significant—and very deeply appreciated."

"We expect soon to be playing our part—and I hope it will be a very large part—on the western front," Pershing and his staff worked hard all the way across preparing plans for their work in France.

**ESCAPE SUBMARINES.**  
There were 198 men in Pershing's party—53 army officers and the remainder civilians or enlisted men of the headquarters troop.

The voyage over from America was an uneventful one. No submarines were encountered and no mines seen. The weather was good and the sea smooth. American destroyers conveyed the ship all the way. They were joined by a flotilla of British destroyers at a point a hundred miles off the Irish coast.

The ship on which the Americans arrived at 8:30 a. m. was given a noisy welcome in the harbor.

When it docked a guard of honor lined up on the landing stage, including high British army and navy officers. They were welcomed as the "Star Spangled Banner" was played, and as Pershing descended the gangplank. He formally inspected a group of British soldiers who were in the receiving party—stopping to chat a moment with one guardsman on whose sleeve he noticed stripes showing he had been twice wounded.

When the American general and his staff returned aboard ship, lining up on the deck in salute as the band played "God Save the King." After these ceremonies, General Pershing received a large party of British and American newsmen.

**PAID HIGH HONOR.**  
**BY ASSOCIATED PRESS.**  
LEASSED WIRE TO TRIBUNE.  
LONDON, June 8.—The American general and his party were received by the officers of the port, the general commanding the district and the mayor. They were escorted from the dock by a band and a guard of honor.

General Pershing arrived in London this afternoon. He was welcomed by Walter Hines Page, the American ambassador; Lord Derby, secretary of state for war; Viscount French, commanding the British home forces, and other officers, including Lord Brooke, who will be attached to General Pershing's staff during his stay in England.

The expected arrival of General Pershing and his party had been kept a fairly close secret from the London public. Several floors of rooms in a hotel had been reserved for the American party, and the hotel this morning was completely transformed by the placing of numerous signs

# PERSHING'S CHIEF AIDS ARE NAMED

BY INTERNATIONAL NEWS SERVICE  
LEADS WIRE TO TUBES

WASHINGTON, June 8.—The names of the officers who will command the three grand divisions of General Pershing's expeditionary force on the western battle line in France were made known by President Wilson when he sent the nominations of the following brigadier-generals of the army to be major-generals to the Senate:

John E. Morrison, William L. Sibert, Charles G. Mortimer.

These nominations were accompanied by the nomination of Captain Hugh Rodman of the navy to be a rear admiral.

Those who will hold other commands in the expeditionary force were nominated to be brigadier-generals of the army by the President. They are:

Colonel Edward P. Glenn, Colonel John Biddle, Colonel Henry H. Hodges Jr., Colonel Albert Cronkhite, Colonel William Sage, Colonel Omar Bundy, Colonel Richard M. Blumford, Colonel David G. Shanks, Colonel Robert G. Bullard, Colonel Augustus C. Blockson, Colonel George T. Bartlett, Colonel Joseph T. Dickenson, Colonel Henry T. Allen, Colonel Charles W. Kennedy, Colonel Harry Hale, Colonel Samuel D. Stungis, Colonel William M. Wright, Colonel P. C. Marsh.

The following commanders of the navy were nominated to be captains: Harley C. Christy, Waldo Evans, Charles F. Preston, Noble E. Irwin, Thomas J. Senn, Richard H. Leigh. Immediate confirmation of the nominations by the Senate is expected by President Wilson. Upon being confirmed the officers will be ordered to new posts in command of the naval and military forces going abroad to carry the war to Germany.

**SIBERT'S ACTIVE CAREER.**  
SAN FRANCISCO, June 8.—Brigadier-General William L. Sibert, who was nominated today to be a major-general, was one of Major-General Goethals' chief assistants in the building of the Panama canal. During his service on the isthmus he was a colonel of the engineer corps, but on completion of the work he was promoted to the rank of brigadier-general and transferred to Fort Mifflin, San Francisco. For several years he was in command of the Coast Artillery Corps on the Pacific Coast.

# 1917 VICTORY HOPES GIVEN UP BY ALLIES

(Continued From Page 1)

must become general before successful mobilization of the entire resources can be achieved.

The feeling is developing that the importance of the American military participation alone has been over-emphasized. The big lesson taught by Europe, it is said, that war is no longer made by armies; it is made by the coordinated forces of capital and labor, agriculture and industry, each sacrificing private gain, individual and personal advantage, with the same willingness that the military sacrifices its blood and its lives.

It is no longer a secret that as an offensive factor Russia has collapsed and is out of the military plans for a year at least. Nothing but the rise of a Russian Napoleon or the establishment of a dictatorship can save the Slavic situation. Neither is a likely contingency.

France has passed the high point of her efficiency and can be counted on to do nothing more than hold her own. England, while still on the up-grade from a military viewpoint, has almost reached her high point, and economically, is on the down-grade.

Granting, as seems probable, that Germany is in equally serious straits, neither side has the reserve strength to deliver a knockout. In the opinion of French and British military experts, the final, victory-achieving punch must come from America—if it comes at all.

America has not awakened yet to the gravity of the situation. Interviews by the United Press with representatives and senators on the subject of their mail from constituents clearly discloses this.

According to these legislators, been visualized by either big or little capital, or by organized or unorganized labor. Patriotism without profit and patriotism at the expense of long hours and many sacrifices, conditions finally accepted by England, have not yet been sensed as the contributions to be exacted from those who must be drafted for work here in America far from the fighting lines.

**SMALL WAR COUNCIL.**  
Administration leaders, members of the Council of National Defense and members of Congress, irrespective of partisanship, recognize the existence of a dangerous situation here in the capital. They say that neither capital nor labor will respond to the radical

# LIFEBOATS ARE ATTACKED BY U-BOAT'S GUNS

PARIS, June 8.—An unknown American boat has been sunk by a German submarine in the English channel. Boats containing survivors were shelled and sunk.

News of the destruction of the ship and the attack on the survivors was received at a French port today from survivors of the French sailing ship Jeanne Cordonnier.

demands that must inevitably be made until legislation has been enacted making certain the proper distribution of the burden.

Industrial leaders and big employers of labor say that unless the food bill or other legislation designed to check the soaring cost of living is enacted quickly serious and widespread labor troubles are inevitable.

At the capital the statement is freely made by both representatives and senators that delay in passing legislation necessary before direct action can be obtained is attributed to lack of confidence in either the cabinet or the Council of National Defense.

In both of these bodies the need for a "war council" is being discussed.

Such a council, it is argued, should consist of about three men, free from executive duties or routine, but with authority to render final decisions, as is the case in the British war council.

The prediction is freely made that such a council with real authority must come within thirty days.

# VICTORY IN 1917 FOR ALLIES, LOST

(Continued From Page 1)

from Messines to Wytschaete, however, makes the Messines victory important, even if it is farther distant from Lille and Arras. This promontory dominates the flat Belgian-French fields in this sector. It offers an ideal observation base. Moreover, it gives an advantageous strategic position from which to turn the flank of the enemy army just above Arras.

**CAVALRY IN ACTION.**  
By William Philip Simms  
United Press Staff Correspondent.  
WITH THE BRITISH ARMIES IN THE FIELD, June 8.—Six thousand prisoners so far counted is the score to date in the great Flanders offensive.

So complete is the success with which the drive was still progressing today that British cavalry in action. Nothing could be cited as indicating in a more remarkable degree the complete breaking of tremendously strong German trench lines than this calling into the offensive of these quick-moving forces only available in open fighting.

Great torn fields, huge furrows, plowed as by some brooding giant, tons of loam turned and churned into blackened dust—this was the mark across Belgium's fields today where yesterday the British turned loose every man-contrived engine of destruction to sweep forward in victory.

Dante would have found new hell pictures in the cataclysm which rent the earth along this twelve-mile front from Ypres to Arras yesterday morning. A vast upheaval of 600 tons of explosives was the beginning. Scattered over miles of front and touched off simultaneously, this vast force tore up the earth like a volcano. The country trembled as though in an earthquake shock.

**BARRAGE LEADS TROOPS.**  
I was standing on the massive top of a dugout when this shock came. For several seconds it felt as though the whole earth had caved in. A minute before the explosion the air was stagnant. The concussion produced a breeze that twisted the branches of trees for miles away. Great jagged forks of flame shot toward the sky like tongues of lightning. Then began the artillery roar, a roar such as never before heard on this or any other front. The barrage pattered ahead of the British troops like a hail of great steel stones. A storm of red rockets arose from the darkness ahead as the Germans madly signaled for help. A moment later white rockets told that the British had swept over the trench—and were going on.

Successes of yesterday and today make the Germans' position to the east of the Messines-Wytschaete ridge critical. The river Lys and the Commines canal converge there, meeting at Commines. If the Germans succeed in crossing these waterways they will have to undertake the operation under shell fire and must necessarily lose heavily.

**COUNTER OFFENSIVE.**  
PARIS, June 8.—Germany has apparently started a counter-offensive along a great section of the French front.

Today's official report detailed a violent enemy bombardment around St. Quentin and Laferre, preliminary to an attack which the French killed at its inception; more violent artillery fire centered on French positions north of Mont Laffaux and south of Flandre as well as in the Cerny sector and "enemy attacks at various points." All attacks failed.

**UDINE, Italy, June 8.**—A semi-official announcement says that Austria has made a formidable concentration of forces on the Italian front by the withdrawal of troops from the Russian front. The statement says that the Italians are now confronted by an estimated two-thirds of the entire Austrian army.

# SOUTHLAND LOST?

LONDON, June 8, 5 p. m.—There are five American survivors from the steamer Southland. Among the American survivors is A. McCoy of Los Angeles, Cal.

The foregoing despatch, indicating a disaster to the Southland, was filed in London after a despatch, which was delayed in transmission and had not been received late this afternoon. The steamer referred to doubtless is the Red Star liner of that name.

**NEW YORK, June 8.**—The International Mercantile Company, owners of the Southland, said today they had no advice that the vessel had met with disaster.

# GRAIN DWINDLES

COPENHAGEN, June 8 (via London).—The rapid dwindling of German grain stocks under the drain imposed by the supplementary bread allowances and compensations for missing potatoes, was the cause of the recent hastily summoned conference of representatives of the central powers in Berlin. Officials of the German food department, supported by energetic representatives from the military and diplomatic authorities, won the grant of an additional proportion for Germany of the grain stocks captured in Rumania.

# BUILDING FALLS

RIO DE JANEIRO, June 8.—Collapse of a building in the Rua Criciaca, a downtown street, today killed seven persons.

# CHINA IS HANDED NOTE FROM U. S.

PEKING, June 8.—Dr. Paul S. Reinsch, the American minister, has handed to the foreign office the following communication from Washington:

"The United States government learns with the most profound regret of the dissensions in China and expresses a sincere desire that tranquility and political co-ordination be forthwith established.

"The entry of China into the war or the continuance of the status quo in her relations with the German government are matters of secondary importance. China's principal necessity is to resume and continue her political entity and proceed along the road to national development. In China's form of government or the personnel which administers the government America has only the friendliest interest and desires to be of service to China.

"America expresses the sincere hope that factional and political disputes will be set aside and that all parties and persons will work to re-establish and co-ordinate the government and secure China's position among nations, which is impossible while there is internal discord."

# GENERAL PERSHING IN ENGLAND WITH STAFF

(Continued From Page 1)

boards, the installation of bureaus of information, designed to make the most efficient possible use of the place as temporary American army headquarters.

General Pershing and the twelve officers of his senior staff are to be guests of the British government at the Savoy.

# NEWS KEPT SECRET.

WASHINGTON, June 8.—Major-General Pershing, whose safe arrival in England is recorded in the foregoing despatch, has with him 193 officers, enlisted men and other attaches. The party sailed more than a week ago without any publicity being given to their departure, despite the fact that it was known to some American newspapers.

Reports from Paris yesterday said that the camps of American troops had been selected. Presumably General Pershing will inspect these, and make complete arrangements for the reception of his troops.

No information as to the composition of the American forces or when it may be expected to reach France has been given out, beyond the original statement that a division of regular troops supplemented by a regi-

ment of marines would be sent at the earliest practicable date.

The first regular American fighting force was today on French soil. It comprised 100 expert and prospective naval aviators who are to co-operate with the French navy in meeting the submarine peril off the French coast, and also to aid the badly pressed American aviation section on the western battlefield.

These experts are all officers of the United States Navy. They landed at a French port today, and will proceed to get into active service immediately. The expert aviators include among others Lieutenant Gordon D. Ditchman and Lieutenant Kenneth Waring and Lieutenants Junior Grade Godfrey de C. Chevalier and Virgil C. Griffin, as well as others who already have made their mark in the United States Navy's aviation service.

# TASK DIFFICULT.

PARIS, June 8.—General Pershing's task in France was described as a most arduous one by Colonel Fabry in an interview with a representative of the Petit Parisien.

# PERSHING'S CHIEF AIDS ARE NAMED

BY INTERNATIONAL NEWS SERVICE  
LEADS WIRE TO TUBES

WASHINGTON, June 8.—The names of the officers who will command the three grand divisions of General Pershing's expeditionary force on the western battle line in France were made known by President Wilson when he sent the nominations of the following brigadier-generals of the army to be major-generals to the Senate:

John E. Morrison, William L. Sibert, Charles G. Mortimer.

These nominations were accompanied by the nomination of Captain Hugh Rodman of the navy to be a rear admiral.

Those who will hold other commands in the expeditionary force were nominated to be brigadier-generals of the army by the President. They are:

Colonel Edward P. Glenn, Colonel John Biddle, Colonel Henry H. Hodges Jr., Colonel Albert Cronkhite, Colonel William Sage, Colonel Omar Bundy, Colonel Richard M. Blumford, Colonel David G. Shanks, Colonel Robert G. Bullard, Colonel Augustus C. Blockson, Colonel George T. Bartlett, Colonel Joseph T. Dickenson, Colonel Henry T. Allen, Colonel Charles W. Kennedy, Colonel Harry Hale, Colonel Samuel D. Stungis, Colonel William M. Wright, Colonel P. C. Marsh.

The following commanders of the navy were nominated to be captains: Harley C. Christy, Waldo Evans, Charles F. Preston, Noble E. Irwin, Thomas J. Senn, Richard H. Leigh. Immediate confirmation of the nominations by the Senate is expected by President Wilson. Upon being confirmed the officers will be ordered to new posts in command of the naval and military forces going abroad to carry the war to Germany.

**SIBERT'S ACTIVE CAREER.**  
SAN FRANCISCO, June 8.—Brigadier-General William L. Sibert, who was nominated today to be a major-general, was one of Major-General Goethals' chief assistants in the building of the Panama canal. During his service on the isthmus he was a colonel of the engineer corps, but on completion of the work he was promoted to the rank of brigadier-general and transferred to Fort Mifflin, San Francisco. For several years he was in command of the Coast Artillery Corps on the Pacific Coast.

# 1917 VICTORY HOPES GIVEN UP BY ALLIES

(Continued From Page 1)

must become general before successful mobilization of the entire resources can be achieved.

The feeling is developing that the importance of the American military participation alone has been over-emphasized. The big lesson taught by Europe, it is said, that war is no longer made by armies; it is made by the coordinated forces of capital and labor, agriculture and industry, each sacrificing private gain, individual and personal advantage, with the same willingness that the military sacrifices its blood and its lives.

It is no longer a secret that as an offensive factor Russia has collapsed and is out of the military plans for a year at least. Nothing but the rise of a Russian Napoleon or the establishment of a dictatorship can save the Slavic situation. Neither is a likely contingency.

France has passed the high point of her efficiency and can be counted on to do nothing more than hold her own. England, while still on the up-grade from a military viewpoint, has almost reached her high point, and economically, is on the down-grade.

Granting, as seems probable, that Germany is in equally serious straits, neither side has the reserve strength to deliver a knockout. In the opinion of French and British military experts, the final, victory-achieving punch must come from America—if it comes at all.

America has not awakened yet to the gravity of the situation. Interviews by the United Press with representatives and senators on the subject of their mail from constituents clearly discloses this.

According to these legislators, been visualized by either big or little capital, or by organized or unorganized labor. Patriotism without profit and patriotism at the expense of long hours and many sacrifices, conditions finally accepted by England, have not yet been sensed as the contributions to be exacted from those who must be drafted for work here in America far from the fighting lines.

**SMALL WAR COUNCIL.**  
Administration leaders, members of the Council of National Defense and members of Congress, irrespective of partisanship, recognize the existence of a dangerous situation here in the capital. They say that neither capital nor labor will respond to the radical

# LIFEBOATS ARE ATTACKED BY U-BOAT'S GUNS

PARIS, June 8.—An unknown American boat has been sunk by a German submarine in the English channel. Boats containing survivors were shelled and sunk.

News of the destruction of the ship and the attack on the survivors was received at a French port today from survivors of the French sailing ship Jeanne Cordonnier.

demands that must inevitably be made until legislation has been enacted making certain the proper distribution of the burden.

Industrial leaders and big employers of labor say that unless the food bill or other legislation designed to check the soaring cost of living is enacted quickly serious and widespread labor troubles are inevitable.

At the capital the statement is freely made by both representatives and senators that delay in passing legislation necessary before direct action can be obtained is attributed to lack of confidence in either the cabinet or the Council of National Defense.

In both of these bodies the need for a "war council" is being discussed.

Such a council, it is argued, should consist of about three men, free from executive duties or routine, but with authority to render final decisions, as is the case in the British war council.

The prediction is freely made that such a council with real authority must come within thirty days.

# VICTORY IN 1917 FOR ALLIES, LOST

(Continued From Page 1)

from Messines to Wytschaete, however, makes the Messines victory important, even if it is farther distant from Lille and Arras. This promontory dominates the flat Belgian-French fields in this sector. It offers an ideal observation base. Moreover, it gives an advantageous strategic position from which to turn the flank of the enemy army just above Arras.

**CAVALRY IN ACTION.**  
By William Philip Simms  
United Press Staff Correspondent.  
WITH THE BRITISH ARMIES IN THE FIELD, June 8.—Six thousand prisoners so far counted is the score to date in the great Flanders offensive.

So complete is the success with which the drive was still progressing today that British cavalry in action. Nothing could be cited as indicating in a more remarkable degree the complete breaking of tremendously strong German trench lines than this calling into the offensive of these quick-moving forces only available in open fighting.

Great torn fields, huge furrows, plowed as by some brooding giant, tons of loam turned and churned into blackened dust—this was the mark across Belgium's fields today where yesterday the British turned loose every man-contrived engine of destruction to sweep forward in victory.

Dante would have found new hell pictures in the cataclysm which rent the earth along this twelve-mile front from Ypres to Arras yesterday morning. A vast upheaval of 600 tons of explosives was the beginning. Scattered over miles of front and touched off simultaneously, this vast force tore up the earth like a volcano. The country trembled as though in an earthquake shock.

**BARRAGE LEADS TROOPS.**

I was standing on the massive top of a dugout when this shock came. For several seconds it felt as though the whole earth had caved in. A minute before the explosion the air was stagnant. The concussion produced a breeze that twisted the branches of trees for miles away. Great jagged forks of flame shot toward the sky like tongues of lightning. Then began the artillery roar, a roar such as never before heard on this or any other front. The barrage pattered ahead of the British troops like a hail of great steel stones. A storm of red rockets arose from the darkness ahead as the Germans madly signaled for help. A moment later white rockets told that the British had swept over the trench—and were going on.

Successes of yesterday and today make the Germans' position to the east of the Messines-Wytschaete ridge critical. The river Lys and the Commines canal converge there, meeting at Commines. If the Germans succeed in crossing these waterways they will have to undertake the operation under shell fire and must necessarily lose heavily.

**COUNTER OFFENSIVE.**  
PARIS, June 8.—Germany has apparently started a counter-offensive along a great section of the French front.

Today's official report detailed a violent enemy bombardment around St. Quentin and Laferre, preliminary to an attack which the French killed at its inception; more violent artillery fire centered on French positions north of Mont Laffaux and south of Flailan as well as in the Cerny sector and "enemy attacks at various points." All attacks failed.

**SOUTHLAND LOST?**  
LONDON, June 8, 5 p. m.—There are five American survivors from the steamer Southland. Among the American survivors is A. McCoy of Los Angeles, Cal.

The foregoing despatch, indicating a disaster to the Southland, was filed in London after a despatch, which was delayed in transmission and had not been received late this afternoon. The steamer referred to doubtless is the Red Star liner of that name.

**NEW YORK, June 8.**—The International Mercantile Company, owners of the Southland, said today they had no advice that the vessel had met with disaster.

**GRAIN DWINDLES.**  
COPENHAGEN, June 8 (via London).—The rapid dwindling of German grain stocks under the drain imposed by the supplementary bread allowances and compensations for mining potatoes, was the cause of the recent hastily summoned conference of representatives of the central powers in Berlin. Officials of the German food department, supported by energetic representations from the military and diplomatic authorities, won the grant of an additional proportion for Germany of the grain stocks captured in Rumania.

**BUILDING FALLS.**  
RIO DE JANEIRO, June 8.—Collapse of a building in the Rua Criciaca, a downtown street, today killed seven persons.

# CHINA IS HANDED NOTE FROM U. S.

PEKING, June 8.—Dr. Paul S. Reinsch, the American minister, has handed to the foreign office the following communication from Washington:

"The United States government learns with the most profound regret of the dissensions in China and expresses a sincere desire that tranquility and political co-ordination be forthwith established.

"The entry of China into the war or the continuance of the status quo in her relations with the German government are matters of secondary importance. China's principal necessity is to resume and continue her political entity and proceed along the road to national development. In China's form of government or the personnel which administers the government America has only the friendliest interest and desires to be of service to China.

"America expresses the sincere hope that factional and political disputes will be set aside and that all parties and persons will work to re-establish and co-ordinate the government and secure China's position among nations, which is impossible while there is internal discord."

# GENERAL PERSHING IN ENGLAND WITH STAFF

(Continued From Page 1)

boards, the installation of bureaus of information, designed to make the most efficient possible use of the place as temporary American army headquarters.

General Pershing and the twelve officers of his senior staff are to be guests of the British government at the Savoy.

**NEWS KEPT SECRET.**

WASHINGTON, June 8.—Major-General Pershing, whose safe arrival in England is recorded in the foregoing despatch, has with him 193 officers, enlisted men and other attaches. The party sailed more than a week ago without any publicity being given to their departure, despite the fact that it was known to some American newspapers.

Reports from Paris yesterday said that the camps of American troops had been selected. Presumably General Pershing will inspect these, and make complete arrangements for the reception of his troops.

No information as to the composition of the American forces or when it may be expected to reach France has been given out, beyond the original statement that a division of regular troops supplemented by a regi-

ment of marines would be sent at the earliest practicable date.

The first regular American fighting force was today on French soil. It comprised 100 expert and prospective naval aviators who are to co-operate with the French navy in meeting the submarine peril off the French coast, and also to aid the badly pressed American aviation section on the western battlefield.

These experts are all officers of the United States Navy. They landed at a French port today, and will proceed to get into active service immediately. The expert aviators include among others Lieutenant Gordon D. Ditchman and Lieutenant Kenneth Waring and Lieutenants Junior Grade Godfrey de C. Chevalier and Virgil C. Griffin, as well as others who already have made their mark in the United States Navy's aviation service.

**TASK DIFFICULT.**

PARIS, June 8.—General Pershing's task in France was described as a most arduous one by Colonel Fabry in an interview with a representative of the Petit Parisien.

# A Good Stomach Means Good Health

Make your stomach healthy and invariably, your body will be healthy. A good stomach makes good digestion, good blood, good nerves.

# Duffy's Pure Malt Whiskey

taken in tablespoonful doses before meals and on retiring, prompts the stomach to healthy action by stimulating the flow of digestive juices. Thousands have testified that it is one of the most reliable remedies for the greatest of human ills—indigestion. 517-519 Fourteenth St.15 TEACHERS  
TO BE 'FIRED'  
WITH MABREYHAYWARD, June 8.—Fifteen women  
teachers, two janitors and the trust officer  
of the Hayward grammar school  
were summarily dismissed by the school  
board today. The teachers say their loy-  
alty to Principal E. N. Mabrey, who was  
also recently dismissed and who received  
a second dismissal notice this week, is  
responsible.Although the teachers say they have  
been unjustly treated and although the  
entire community is aroused over the  
board's action, no step will be taken by  
the teachers as a body toward reinstatement,  
according to Miss Clara E. Ketelsen,  
senior, the vice-principal, and one of those  
dismissed. The fact that the board acted  
when one of its members, Trustee F. I.  
Lemos, who was known to be opposed  
to the recent reduction of the salaries of  
the faculty, was not present, is also being  
commented upon, as are the dis-  
missals of five of the teachers who had  
already sent in their resignations.Teachers and other school officials who  
received notices of dismissal in their pay  
envelopes are:E. N. Mabrey, supervising principal;  
Clara E. Ketelsen, vice-principal; Mar-  
guerite Vineyard, Gertrude Freitag, Mary  
D. Wheeler, Mrs. Julia R. Stevens, Mar-  
garet E. Devan, Eleanor Brown, Bertha  
Jessen, Florence Early, Cecelia Shearer,  
Helva Brassel, Margaret Elliott, Muriel  
Ogden, Mary E. Palmer, Miss Anne Ober-  
miller, musical director, C. O. Dahl,  
janitor; N. Fry, assistant janitor; L. M.  
Turner, trust officer.HAVE POSITIONS.  
Of these three had already accepted po-  
sitions with the Oakland school board  
and two had resigned to be married."The dismissal of these teachers is for  
the good of the service; they would never  
have gotten along with the new school  
administration and were showing polit-  
ical partisanship," said Trustee Hugh F.  
Aldrich. "With the teachers in sym-  
pathy with Mabrey, whom we recently dis-  
missed, there would have been no har-  
mony in school administration under the  
new regime. We decided on that account  
to hire a new corps of teachers who will  
be in accord with the school adminis-  
tration. As for the dismissal of five teach-  
ers after they had resigned, we took that  
step because under the new law unless  
they are given notice of dismissal they  
may be automatically reappointed at the  
beginning of the new term. Besides one  
of the teachers who is, I believe, going  
to be married, merely resigned from  
grade No. 4, which did not make it clear  
that she had completely severed her con-  
nection with the school. The new teach-  
ers are a splendid lot and include uni-  
versity graduates. I don't know whether or  
not it has been said that they have had  
no previous teaching experience, but their  
credentials were entirely satisfactory."CHARGE POLITICS.  
"We were dismissed because we were  
loyal to Principal Mabrey," said Miss  
Ketelsen, the vice-principal. "We asked  
one of the school trustees if he would  
not expect the new teachers to be loyal  
to their principal and he said he would  
as far as the accusation of politics is  
concerned. We teachers have the right  
to vote and as we knew that if a cer-  
tain number of us voted we would  
lose our positions, we asked our friends  
to vote for the other man. As a body, I  
don't believe the dismissed teachers will  
take any action over their dismissal. Be-  
sides, the candidates for school trustee  
promised before the election that the po-  
sitions of the teachers were assured."  
"Contemptible personal spleen" is how  
Principal E. N. Mabrey described the  
wholesale dismissal. "It is certainly not  
because of their want of merit that these  
teachers are being dismissed," said  
Mabrey. "I would highly recommendGermans Suffer From Food  
Shortage; Crops Are PoorSuffering Increases Daily, Says Traveler; All  
Limited to Barest Necessities

BY ASSOCIATED PRESS

PARIS, June 8.—The actual food con-  
ditions of the present day in Germany, a  
scarcity that increases monthly, as the  
livestock decreases; the prospective poor  
crops for 1917, because of the shortage  
of labor, the German viewpoint concern-  
ing peace, and the attitude toward revo-  
lution, coupled with a prediction that the  
German public may lose confidence in the  
infidelity of its leaders are presented by  
Dr. Aristide Aguerro, Cuban resident  
minister in Berlin since the beginning of  
the war, but who now is returning home,  
in the Journal des Debats.Dr. Aguerro, who has spent much time  
in Germany, begins his account with a  
resume of the actual food allowance in  
Berlin today."Here," says Dr. Aguerro, "are the most  
recent figures. Sixty-five grammes of  
meat, 50 of bread and two or three po-  
tatoes, if one can get them. Even the  
dearest restaurants are forbidden to offer  
more than one meat, and there is no  
hope of their evading this rule."Dr. Aguerro then cites the international-  
ly known restaurant, Kempinski, as hav-  
ing been an offender and says the pro-  
prietor of it now is serving three months  
in prison, after having paid a fine of  
2000 marks for serving extra bread. He  
also mentions the aristocratic hotel, Es-  
planade, the director of which now is  
serving a sentence of a year in jail after  
having paid a similar fine, having been  
convicted of serving items of food not on  
the menu.EGGS NON-EXISTENT.  
"Eggs," says Dr. Aguerro, "are non-  
existent, as also is milk. Vegetables are  
excessively scarce and rare foods are not  
to be had by persons of tiny purses. A  
small meal costs from 12 to 14 marks  
in the restaurants. Sixty-five grammes  
of meat cost 4 1/2 marks, an order of vege-  
tables 2 1/2 marks, and soup 1/2 mark."Dr. Aguerro then passes to chocolate,  
coffee and tea, which he says are ex-  
cessively scarce. He declares that  
fruits are as rare as vegetables because  
the supplies have been requisitioned by  
the government for the army."For every element of the civil popula-  
tion, regardless of the social class, to  
which it belongs," Dr. Aguerro continues,  
"the daily ration at the time of my de-  
parture consisted of 250 grammes of  
bread, 25 grammes of meat, 250 grammes  
of potatoes, 10 grammes of fat and 8  
grammes of sugar. One egg monthly was  
allowed and one portion of war mar-  
mala monthly. Of this quantity one  
received less rather than more. Little  
children and invalids, the latter on pre-  
sentation of medical certificates, can get  
milk when there is any."Regarding livestock in Germany, Dr.  
Aguero says the 11,000,000 milch cows  
on hand before the war have decreased  
to 6,000,000. These are suffering from  
lack of food, while the average milk  
given by each cow has dropped from  
seven and eight litres to four and five  
litres."Germany before the war," says Dr.  
Aguero, "had 27,000,000 head of cattle, 10  
per cent of which were sacrificed in No-  
vember, 1916, and the number has since  
fallen to 18,000,000. Thirty per cent of  
the 25,000,000 swine have been sacrific-  
ed since the war, but the number of  
swine has risen to 20,000,000 on account  
of the prolific qualities of the animal.  
The 5,000,000 sheep have disappeared en-  
tirely, while the 4,500,000 goats have fall-  
en off to 3,000,000."The coming crop, says Dr. Aguerro, will  
be very mediocre, because the labor has  
to be performed by women and French  
and Russian prisoners. The soil is suf-  
fering from lack of real nitrates, the  
nitrate, a naturally produced being in-  
ferior to the previously imported prod-  
uct. He estimates that production has  
retrograded at least 25 per cent per  
hectare.

That is the prestige of the Prussian

every one of them. Teachers who have  
been as long as twenty years in the  
service of the Hayward School Board are  
included in the dismissals. I wouldn't  
say that the school board took this ac-  
tion. It was the act of one man, Trustee  
Russell, who is attempting to run the  
school and the school board all by him-  
self, as far as the few teachers who  
remain have had any previous experience  
in school work. Fancy experienced teach-  
ers accepting the reduction of salaries  
adopted by the board of trustees, who  
fired \$5.50 a month as the minimum, a  
rate which existed eleven years ago. As  
for myself," concluded Mabrey, "I have  
received two dismissals already and  
shouldn't wonder if they send me one  
or two more notices of dismissal."LEMONS IS HEARD.  
"I don't know anything about the dis-  
missal of the teachers," said Trustee  
F. I. Lemos, who is the "minority" in the  
school board and who was not present at  
the meeting when action was taken. "I  
asked my colleagues on the board if they  
would not postpone the meeting until I  
could attend, but apparently they did not  
do so. I understood that no teacher was  
to be dismissed unless on the question of  
merit. I myself think we could not get  
better teachers than we have had. I  
also believe that to get good teachers  
we must pay good salaries, and conse-  
quently I opposed the recent action of  
the board in cutting down the salaries."While the teachers themselves are to  
let matters stand, their friends are in-  
dignantly discussing what retaliatory ac-  
tion can be taken in view of the dis-  
missals.

## ASKS FOR DIVORCE

John Philip Agee, a painting contrac-  
tor residing at 1639 Francisco street,  
Berkeley, was named as defendant this  
morning in a divorce action brought by  
May Agee, who alleges that his nagging  
and fault-finding disposition made it im-  
possible for her to live with him longer  
than six weeks after their marriage on  
February 19 of this year. The plaintiff  
declares that she was obliged to obtain  
employment in order to support herself  
and her adopted daughter.  
Howard R. Gerberding filed suit  
against Hazel Gerberding whom he mar-  
ried in Santa Rosa on July 8, 1916. His  
alleges that his wife neglected her child  
and that she frequently remained out at  
night until late hours. On one occasion,  
he avers, she did not return home until  
the following morning.

## DANCE PLANNED

A dance and entertainment will be  
given at the roseroom of the Hotel  
Oakland on the evening of Monday,  
June 11, by the Far Western Caterers  
Inc., at which cafe proprietors, hotel  
men, stewards, clerks and all others  
interested in the catering business  
will be present. The affair is being  
staged under direction of the fol-  
lowing directors: W. C. Jurgens, W. L.  
McCallum, A. G. Howard, C. G. Ed-  
wards and J. F. Lins.

## RETRIAL IS DENIED

The motion of William F. Boardman,  
president of the Oregon Gas and Electric  
Company, for a new trial in a case in-  
volving Boardman and William T. Crit-  
tenden in a stock sale dispute, was de-  
clined by Superior Judge Brown this mor-  
ning. Defendant announced that an appeal  
would be taken to the supreme court.  
The suit was to recover money alleged to  
be due by reason of depreciation of  
stock in the company of which Boardman  
is president.AERIAL FIRE-  
FIGHTING PLANT  
IS INVENTIONSAN DIEGO, June 8.—Fire  
Chief Louis Almgren of this city  
announced that he was planning  
to have what he believes will be  
the first aerial fire-fighting unit  
in the world. He has arranged  
for the use by the fire-fighters of  
a 100-horsepower flying boat to be  
stationed at a local aviation  
school. When a waterfront fire  
starts, the chief or an assistant  
will be carried by air to the blaze.  
Chemical extinguishers will be  
taken along. The speed by which  
fires may be reached in this way  
was given as the reason for the  
step.

## TALK ON PRISONS

The Epworth League of the First  
Methodist church of Oakland will  
have a special service next Sunday  
evening, when the problems of prison-  
ers and discharged prisoners will be  
discussed.  
Captain William I. Day, who has  
worked among prisoners for the past  
twenty-seven years, will deliver an  
address on the subject: "Sunshine  
and Shadows." Having come in con-  
tact with the problems of these un-  
fortunates, Captain Day will have  
many stories to tell that will illu-  
strate the difficulties men meet with  
on leaving the prisons.GOING AWAY?

"Government to  
Fix Prices"IF the present cost of shoes was not exorbitant  
—if the American people were not forced  
to pay unduly high prices—the Government  
at Washington would not recommend Congress to fix minimum prices on food, clothing,  
shoes and other necessities. Our large organization of sixty-four stores in 49 American  
cities will not be affected by price legislation. We have been selling, and will continue  
to sell at a probable lower price standard than would be fixed by the Government.  
In other words, we've crossed the bridge way ahead of legislation.

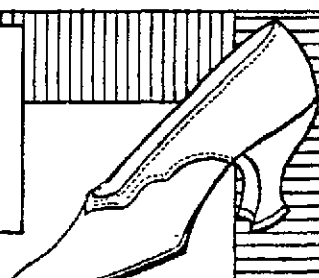

## Such Prices as

517-519 Fourteenth St.15 TEACHERS  
TO BE 'FIRED'  
WITH MABREYHAYWARD, June 8.—Fifteen women  
teachers, two janitors and the trust officer  
of the Hayward grammar school  
were summarily dismissed by the school  
board today. The teachers say their loy-  
alty to Principal E. N. Mabrey, who was  
also recently dismissed and who received  
a second dismissal notice this week, is  
responsible.Although the teachers say they have  
been unjustly treated and although the  
entire community is aroused over the  
board's action, no step will be taken by  
the teachers as a body toward reinstatement,  
according to Miss Clara E. Ketelsen,  
senior, the vice-principal, and one of those  
dismissed. The fact that the board acted  
when one of its members, Trustee F. I.  
Lemos, who was known to be opposed  
to the recent reduction of the salaries of  
the faculty, was not present, is also being  
commented upon, as are the dis-  
missals of five of the teachers who had  
already sent in their resignations.Teachers and other school officials who  
received notices of dismissal in their pay  
envelopes are:E. N. Mabrey, supervising principal;  
Clara E. Ketelsen, vice-principal; Mar-  
guerite Vineyard, Gertrude Freitag, Mary  
D. Wheeler, Mrs. Julia R. Stevens, Mar-  
garet E. Devan, Eleanor Brown, Bertha  
Jessen, Florence Early, Cecelia Shearer,  
Helva Brassel, Margaret Elliott, Muriel  
Ogden, Mary E. Palmer, Miss Anne Ober-  
miller, musical director, C. O. Dahl,  
janitor; N. Fry, assistant janitor; L. M.  
Turner, trust officer.Of these three had already accepted po-  
sitions with the Oakland school board  
and two had resigned to be married."The dismissal of these teachers is for  
the good of the service; they would never  
have gotten along with the new school  
administration and were showing polit-  
ical partisanship," said Trustee Hugh F.  
Aldrich."With the teachers in sympathy  
with Mabrey, whom we recently dis-  
missed, there would have been no har-  
mony in school administration under the  
new regime. We decided on that account  
to hire a new corps of teachers who will  
be in accord with the school administra-  
tion. As for the dismissal of five teach-  
ers after they had resigned, we took that  
step because under the new law unless  
they are given notice of dismissal they  
may be automatically reappointed at the  
beginning of the new term. Besides one  
of the teachers who is, I believe, going  
to be married, merely resigned from  
grade No. 4, which did not make it clear  
that she had completely severed her con-  
nection with the school. The new teach-  
ers are a splendid lot and include uni-  
versity graduates. I don't know whether or  
not it has been said that they have had  
no previous teaching experience, but their  
credentials were entirely satisfactory."

CHARGE POLITICS.

"We were dismissed because we were  
loyal to Principal Mabrey," said Miss  
Ketelsen, the vice-principal. "We asked  
one of the school trustees if he would  
not expect the new teachers to be loyal  
to their principal and he said he would  
as far as the accusation of politics is  
concerned. We teachers have the right  
to vote and as we knew that if a cer-  
tain number of us voted we would  
lose our positions, we asked our friends  
to vote for the other man. As a body, I  
don't believe the dismissed teachers will  
take any action over their dismissal. Be-  
sides, the candidates for school trustee  
promised before the election that the po-  
sitions of the teachers were assured.""Contemptible personal spleen" is how  
Principal E. N. Mabrey described the  
wholesale dismissal. "It is certainly not  
because of their want of merit that these  
teachers are being dismissed," said  
Mabrey. "I would highly recommendevery one of them. Teachers who have  
been as long as twenty years in the  
service of the Hayward School Board are  
included in the dismissals. I wouldn't  
say that the school board took this ac-  
tion. It was the act of one man, Trustee  
Russell, who is attempting to run the  
school and the school board all by him-  
self. As for the teachers, the few of  
them have had any previous experience  
in school work. Fancy experienced teach-  
ers accepting the reduction of salaries  
adopted by the board of trustees, who  
fired \$5.50 a month as the minimum, a  
rate which existed eleven years ago. As  
for myself," concluded Mabrey, "I have  
received two dismissals already and  
shouldn't wonder if they send me one  
or two more notices of dismissal."

LEMONS IS HEARD.

"I don't know anything about the dis-  
missal of the teachers," said Trustee  
F. I. Lemos, who is the "minority" in the  
school board and who was not present at  
the meeting when action was taken. "I  
asked my colleagues on the board if they  
would not postpone the meeting until I  
could attend, but apparently they did not  
do so. I understood that no teacher was  
to be dismissed unless on the question of  
merit. I myself think we could not get  
better teachers than we have had. I  
also believe that to get good teachers  
we must pay good salaries, and conse-  
quently I opposed the recent action of  
the board in cutting down the salaries."While the teachers themselves are to  
let matters stand, their friends are in-  
dignantly discussing what retaliatory ac-  
tion can be taken in view of the dis-  
missals.Germans Suffer From Food  
Shortage; Crops Are PoorSuffering Increases Daily, Says Traveler; All  
Limited to Barest Necessities

BY ASSOCIATED PRESS

PARIS, June 8.—The actual food con-  
ditions of the present day in Germany, a  
scarcity that increases monthly, as the  
livestock decreases; the prospective poor  
crops for 1917, because of the shortage  
of labor, the German viewpoint concern-  
ing peace, and the attitude toward revo-  
lution, coupled with a prediction that the  
German public may lose confidence in the  
infidelity of its leaders are presented by  
Dr. Aristide Aguerro, Cuban resident  
minister in Berlin since the beginning of  
the war, but who now is returning home,  
in the Journal des Debats.Dr. Aguerro, who has spent much time  
in Germany, begins his account with a  
resume of the actual food allowance in  
Berlin today."Here," says Dr. Aguerro, "are the most  
recent figures. Sixty-five grammes of  
meat, 50 of bread and two or three po-  
tatoes, if one can get them. Even the  
dearest restaurants are forbidden to offer  
more than one meat, and there is no  
hope of their evading this rule."Dr. Aguerro then cites the international-  
ly known restaurant, Kempinski, as hav-  
ing been an offender and says the prop-  
rietor of it now is serving three months  
in prison, after having paid a fine of  
2000 marks for serving extra bread. He  
also mentions the aristocratic hotel, Es-  
planade, the director of which now is  
serving a sentence of a year in jail after  
having paid a similar fine, having been  
convicted of serving items of food not on  
the menu.

EGGS NON-EXISTENT.

"Eggs," says Dr. Aguerro, "are non-  
existent, as also is milk. Vegetables are  
excessively scarce and rare foods are not  
to be had by persons of tiny purses. A  
small meal costs from 12 to 14 marks  
in the restaurants. Sixty-five grammes  
of meat cost 4 1/2 marks, an order of vege-  
tables 2 1/2 marks, and soup 1/2 mark."Dr. Aguerro then passes to chocolate,  
coffee and tea, which he says are ex-  
cesses as rare as vegetables because  
the supplies have been requisitioned by  
the government for the army."For every element of the civil popula-  
tion, regardless of the social class, to  
which it belongs," Dr. Aguerro continues,  
"the daily ration at the time of my de-  
parture consisted of 250 grammes of  
bread, 25 grammes of meat, 250 grammes  
of potatoes, 10 grammes of fat and 8  
grammes of sugar. One egg monthly was  
allowed and one portion of war mar-  
mala monthly. Of this quantity one  
received less rather than more. Little  
children and invalids, the latter on pre-  
sentation of medical certificates, can get  
milk when there is any."Regarding livestock in Germany, Dr.  
Aguero says that the 11,000,000 milch cows  
on hand before the war have decreased to  
6,000,000. These are suffering from lack  
of food, while the average milk given  
by each cow has dropped from seven  
and eight litres to four and five litres."Germany before the war," says Dr.  
Aguero, "had 27,000,000 head of cattle, 10  
per cent of which were sacrificed in No-  
vember, 1916, and the number has since  
fallen to 18,000,000. Thirty per cent of  
the 25,000,000 swine have been sacrific-  
ed since the war, but the number of  
swine has risen to 20,000,000 on account  
of the prolific qualities of the animal.The 5,000,000 sheep have disappeared en-  
tirely, while the 4,500,000 goats have fall-  
en on one-third, to 1,500,000.The coming crop, says Dr. Aguerro, will  
be very mediocre, because the labor has  
to be performed by women and French  
and Russian prisoners. The soil is suf-  
fering from lack of real nitrates, the  
nitrate, a naturally produced being in-  
ferior to the previously imported prod-  
uct. He estimates that production has  
retrograded at least 25 per cent per  
hectare.

That is the prestige of the Prussian

every one of them. Teachers who have  
been as long as twenty years in the  
service of the Hayward School Board are  
included in the dismissals. I wouldn't  
say that the school board took this ac-  
tion. It was the act of one man, Trustee

missals.

That is the prestige of the Prussian

every one of them. Teachers who have  
been as long as twenty years in the  
service of the Hayward School Board are  
included in the dismissals. I wouldn't  
say that the school board took this ac-  
tion. It was the act of one man, Trustee  
Russell, who is attempting to run the  
school and the school board all by him-  
self. As for the teachers, the few of  
them have had any previous experience  
in school work. Fancy experienced teach-  
ers accepting the reduction of salaries  
adopted by the board of trustees, who  
fired \$5.50 a month as the minimum, a  
rate which existed eleven years ago. As  
for myself," concluded Mabrey, "I have  
received two dismissals already and  
shouldn't wonder if they send me one  
or two more notices of dismissal."

LEMONS IS HEARD.

"I don't know anything about the dis-  
missal of the teachers," said Trustee  
F. I. Lemos, who is the "minority" in the  
school board and who was not present at  
the meeting when action was taken. "I  
asked my colleagues on the board if they  
would not postpone the meeting until I  
could attend, but apparently they did not  
do so. I understood that no teacher was  
to be dismissed unless on the question of  
merit. I myself think we could not get  
better teachers than we have had. I  
also believe that to get good teachers  
we must pay good salaries, and conse-  
quently I opposed the recent action of  
the board in cutting down the salaries."While the teachers themselves are to  
let matters stand, their friends are in-  
dignantly discussing what retaliatory ac-  
tion can be taken in view of the dis-  
missals.

# AMERICANS GIVE GOLD FOR BONDS

BY INTERNATIONAL NEWS SERVICE  
WASHINGTON, June 8.—One week from today America's second subscription to Germany's aggression will be made. On that date the subscription list to the Liberty bond issue will close. During the coming seven days a drive the like of which seldom has been witnessed in the United States will be made to empty the "concealed socks," tomato cans and old chests and utensils of their stored surplus of gold.

Officials make no secret of the fact that they are working, and are working, to secure a record over-subscription for the initial loan. The more it is over-subscribed, they point out, the greater will be the moral effect on Germany.

Reports from cities of the United States show the following:

**CITIES SUBSCRIBE.**

San Francisco—San Francisco has subscribed approximately \$20,000,000 of its \$40,000,000 allotment for the Liberty loan.

New York—One million in subscriptions from one million subscribers is New York's goal. More than \$400,000,000 subscribed has been announced, while the big banks are holding back reports on many millions more.

Indianapolis—Beginning the final drive the bankers' committee today announced that \$3,555,337 of Indianapolis' quota of \$11,483,750 has been subscribed.

Kansas City—This city's subscriptions to the nation's war chest has reached close to \$1,000,000. The subscribed quota is \$5,000,000.

Detroit—With \$3,000,000 assigned as its share, Detroit today has subscribed to \$4,754,900.

**CANYASS CITY.**

Atlanta—Two hundred picked salesmen today canvassed the city for Uncle Sam. They will have gathered their full quota of \$10,000,000 by June 15.

Los Angeles—Approximately \$14,000,000 of Southern California's allotment of \$20,000,000 has been subscribed.

Portland, Ore.—Liberty loan subscribers in Oregon have taken \$3,797,750 worth of the \$5,500,000 allotted to the entire state. Portland has subscribed \$2,339,050 of its \$6,000,000 quota.

Seattle—This city is close to the \$5,000,000 mark here today toward her allotment of \$5,200,000 for the Liberty loan.

## BIG PROFIT MADE

SALT LAKE CITY, Utah, June 8.—R. Wood, auditor of the Oregon Short Line, told the Utah Public Utilities Commission that the total operating income of the road for the year 1916 was \$3,555,974, while the operating expenses were \$3,000,000. He said the company was able to pay \$8,000,000 in dividends, put away a large sum for appropriations and have a substantial balance in hand. The Oregon Short Line, Wood said, used 941,548 tons of coal and 15,690 barrels of oil for fuel. He submitted several exhibits showing the increased cost of material and operation expenses in 1916. Then, to the public utilities commission for permission to raise the company's freight rates 15 per cent. Wood said that employees affected by the Adamson law were receiving more than sixteen per cent increase in wages, while those not so affected were getting an advance of nearly six per cent and that the fifteen per cent freight rate advance asked for was not enough to meet this and other increased cost of operation.

## CARS IN CRASH

Passengers on two Grove street cars were in danger of injury from shattered glass when the cars, one pointed toward Oakland and the other toward the Berkeley terminus, collided in rounding the curve at University and Grove streets in Berkeley this morning. As one of the cars swung round the curve, one end of the street car struck the other. Windows were broken by the impact, but none of the passengers was injured. Grove street and University avenue cars were held up for five minutes by the accident.

## ROOSTER TOO BIG

JOSE CENTER, N. Y., June 8.—Hosea Ashmore, who raised a flock of hens, purchased a ten-pound rooster and placed it in the henyard. In the evening Mr. Ashmore went to the henhouse, but the fowls were not there. He believed they had been stolen. Mr. Ashmore was about to leave the building when he heard a noise. He made an investigation and found his new rooster wedged in the opening which is used by the fowls in reaching the henhouse. The rooster was held so firmly that it could not stir, and that he had to enlarge the opening in order to release it.

He also declared it was raining at the time that the hens could not enter the henhouse, that they were wet, caught cold and have quit laying.

## ELK NUISANCES

HELENA, Mont., June 8.—The county attorney of Sanders county has appealed to state authorities to "shoot off" elk, which are trampling crops about Thompson Falls. The state protects the elk, the attorney demands that it also protect them. The state will act.

## ISLAM BEST WAY TO STOP SKIN'S ITCHING

Cover the spot that itches with Poslam; relief is immediate.

When the skin aggravates, burns, presents an unsightly, broken-out surface, there is one remedy pre-eminently fitted to soothe and heal, on which you can always depend—Poslam.

Poslam is Quality—Poslam is Concentrated Healing Energy so little does so much. Let Poslam show you its efficiency.

Sold everywhere. For free sample write to Emergency Laboratories, 213 West 4th St., New York City.

Poslam Soap is the tonic soap for the skin and will freshen and beautify your complexion.—Advertisement.

# Bonds or Taxes to Be Choice Put Before Public

Reserve Bank Governor Urges the West to Take  
More Interest in Big Loan

A. C. Kains, governor of the Federal Reserve Bank of this district and in charge of the Liberty Loan campaign in the seven Western States of California, Oregon, Washington, Arizona, Nevada, Utah and Idaho, has issued the following official statement to the people of the Pacific Coast:

The time has come to talk plainly on the subject of the Liberty loan. The loan has not been over-subscribed; it has not even been wholly subscribed. In the twelfth federal reserve district, embracing the Pacific coast states, it has been only half subscribed.

This can be due only to either a woeful misunderstanding or complete failure to understand the full import, purpose and imperative necessity of the Liberty loan.

I want to talk to the people of these Pacific coast states in the most solemn fashion of which I am capable. In the light of the information that has come to me, I say, weighing my words as I utter them, that this nation today faces its most serious crisis since the days of the civil war. I would, if I had the power, make every citizen understand that he can either help or hinder the nation in this emergency. He can help by enlisting himself or his money. He can hinder by doing neither. And he who hinders helps the enemy. He helps the Kaiser. Every dollar that rightfully should be offered the war fund of the United States and is by its owner withheld, either through ignorance, apathy or wilfulness, is a weapon of sharpened steel, placed in the hands of the German Emperor; a spike in the soul of the American people.

## RESPONSE INADEQUATE.

It will not do hereafter to excuse and to say, "We did not understand." The people of the United States, and particularly the people of our Western states, must here and now stand forth in their manhood and their manhood and take unto themselves the call of the nation and give unanimous response. "We will."

Subscriptions to the Liberty bonds to date have been deplorably inadequate. Response has not been sufficiently broad nor sufficiently great.

Fifty thousand young men of San Francisco have registered their lives for their country. We have a right to expect to demand that 50,000 citizens register their money. To date less than 10 per cent of 5,000,000 signed their willingness to furnish the funds necessary to support and to keep alive these men who have offered their lives that this nation may live.

The largest subscriptions have often been inadequate in amount. The measure of the subscription must be the ability to pay. Our great institutions must think not in hundreds of thousands, but in millions and many millions.

To the small investor let me say that in purchasing a Liberty bond he but puts his money in the bank. He spends not a bit of his money to go forthwith to his bank and there arrange at once to enter a subscription to the Liberty loan.

## SALES OR INCREASED TAXES.

Upon every great corporation I urge that it take counsel of its managers and to subscription and that with patriotic heart it raise the one to the measure of the other.

There are two ways of raising money for war purposes. One is by taxation and the other is through the sale of bonds. The United States government has adopted both. It is good policy to use both methods. It is good business to do so. But if it becomes necessary the United States government, of course, will resort to further taxation instead of the sale of bonds.

We have seven business days left, until June 15, in which to place our allotment of the Liberty loan. This amounts to \$166,000,000 for the six Western states. It amounts to \$109,000,000 for the state of California. It amounts to \$42,000,000 for the city of San Francisco.

The West has been called the "Hope of the Nation." Our own California, the largest of these states, must point the way, and San Francisco, the city cherished and loved, must justify that love and affection which are hers.

Shall we of the West, in the hour of the nation's peril, send

back the word: "We have heard your call, but we are weak in the faith; we are false in heart and cannot help," or shall we flash back the message:

"We have heard the call. We pledge our faith. We pledge our all!"

A whirlwind finish is to be made in the Liberty bond campaign in Alameda and Contra Costa counties.

"A million dollars a day!" That is the slogan adopted by the Liberty loan committee for Alameda and Contra Costa counties, headquarters 308-309, Syndicate building, directing the Liberty loan bond subscriptions.

This means that \$7,000,000 must be invested in the Liberty bonds from the two east bay counties within the next seven days.

The Liberty loan campaign throughout the nation closes on June 15. W. W. Garthwaite, chairman of the Liberty loan committee for Alameda and Contra Costa counties, has sent out an appeal to the citizens of the east bay district.

## ROTARIANS INVEST \$112,000.

The members of the Rotary Club set a splendid example to the east bay district yesterday when 100 out of its members present at luncheon at the Hotel Oakland invested in Liberty bonds to the total amount of \$112,000.

"We'll make it \$200,000 within the next few days," declared President George S. Meredith.

The largest individual subscription was made by Charles H. Butters in the amount of \$15,000.

The Commission Men's Association has voted \$750 of the \$1000 in the treasury to the purchase of Liberty bonds.

# NAVAL OFFICER'S DEATH IS MYSTERY

SEATTLE, Wash., June 8.—Lieutenant Kenneth Heron, U. S. N., superintendent of new work at the Puget Sound navy yard at Bremerton, was found dead in bed from a gunshot wound in his room in a Bremerton hotel. A naval board today is probing the death to determine whether or not the wound was self-inflicted.

Lieutenant Heron had been at the navy yard since February, having been transferred from Seattle, where he was inspector of machinery in the government work at the Seattle Construction and Drydock Company's plant. He was 34 years of age and single. Prior to coming to Seattle he was assigned to the Fall River Shipbuilding Works in connection with the building of the submarine L-1 and to inspection duty under the navy bureau of steam engineering. He was a native of California, from which state he was appointed to the naval academy in 1903.

## SHIP OFF ROCKS

THE DALLES, Ore., June 8.—The stern wheel steamer Ellen, which had been hard aground on a rock in Three Mile Rapids in the Columbia river, with a crew of four on board, was hauled off by the steamer, Dalles City, after the crew had been taken off. The Ellen at once turned turtle, her house being torn off and going adrift in the process. The hull was towed here and will be salvaged.

—Second Floor.

## A Reliable Treatment for Rheumatism

A sudden twinge of pain is generally the first warning of an attack of rheumatism. It feels as if the disease was in the bones or muscles, but the real cause of rheumatism is the uric acid in the blood. The uric acid accumulates and rubbing undoubtedly gives temporary relief, but effective results only come from the use of a dependable internal medicine such as Warner's Safe Rheumatic Remedy. This medicine acts on the blood and helps drive the uric acid from the system. It has a history of 40 years of well-doing beyond all question fully substantiated by people who go well and come back in a hurry through repeated attacks. Treatment has been fairly won. Warner's Safe Rheumatic Remedy rarely fails to assist the patient back to health and vigor with a feeling of freedom having been reached and gained. If you have any symptoms of rheumatism, you're safe in trying Warner's Safe Rheumatic Remedy.

Sold by druggists everywhere. Sample bottles free. Write for them to Warner's Safe Remedies Co., Dept. 343, Rochester, N. Y.—Advertisement.

## FISCHER TO HEAD ENGINE MAKERS

Following several years of service as an officer, O. H. Fischer, president of the Union Gas Engine Company, has been elected president of the National Gas Engine Association, which is holding its annual session in Chicago. Last year he was selected as the association's vice-president, and because of his service in the interests of the gas engine industry was yesterday chosen to lead the organization during the coming year.

Fischer, together with members of his family, left his residence, 3000 Santa Clara avenue, Alameda, during the last day of May for Chicago. He has been a member of the National Association for many years. The services of the association's membership were offered to the National Council of Defense in resolutions adopted at the annual session of the organization.

## 3948 Alien Enemies Are Registered in California

Governor Stephens Telegraphs Results in the State to Washington; Can Still Enroll Here

SACRAMENTO, June 8. — Following completion of the registration count in California late last night, Governor W. D. Stephens telegraphed the following results today to Provost Marshal General Crowder at Washington: "Total registration for California 39,522; white registration 22,572; colored registration 21,485; indicated possible exemptions, 126,578. The men eligible in the state for registration under the selective draft law had previously been estimated at 365,479, based on census bureau figures."

Registration of aliens in the state showed a total of 67,464, and 3948 alien enemies were registered.

**PREPARE HONOR ROLLS.**  
Honor rolls of Oakland men who have registered under the provisions of the draft act are being prepared today by City Clerk L. W. Cummings for posting in the city.

In the 211 precincts of the city. Copies of the lists will be placed in the hands of the police department in order that the population of the different precincts may be properly checked for slacks.

Finding further instructions from the federal authorities, the rolls are still open and any men who failed for one reason or another to register on June 5 may now do so by applying at the office of the city clerk in the city hall. By doing so as soon as possible a great deal of trouble will be eliminated for those who so far have failed to comply with the regulations. The precinct lists will be posted today and it is thought probable by the local authorities that voluntary registrations may not be taken after that time.

**ESTIMATED PRO RATA.**  
Oakland's pro rata as estimated according to a population of 200,000 given in the government census reports, should be slightly more than 22,000. At the present time the registrations taken in the city and those sent in by mail approximate 17,000, according to Clerk Cummings.

As yet no definite instructions have been received by the local bureau regarding the exemption boards, but it is believed that the various district boards of registration supervisors will constitute the exemption boards.

Lost identification cards will not be replaced as duplicates cannot be issued. Persons who have lost their blue cards can obtain from the city clerk a letter certifying that they have registered.

The registration by counties with exemptions claimed follows:

## 20,000 EXTRA WORKERS NEEDED TO SAVE CROPS

SACRAMENTO, June 8. — First hand information in regard to the farm labor situation in Central California counties, which this year will show increases in crop production, is being sought by A. H. Saxegaard, vice-chairman of the State Council of Defense. In a tour of San Joaquin, Stanislaus, Merced, Madera and Fresno counties.

In each county visited conferences are being held with county councils of defense regarding the safeguarding of growing crops from fires and on other matters pertaining to defense organization.

According to reports reaching the State Council of Defense, the committee on resources and food supply of that body, which is handling the statewide farm labor problem, the live central California counties asked will present the most difficult task in supplying an adequate supply of farm labor to harvest for the coming crops. It is believed that not less than 20,000 extra laborers will be needed to help save the immensely increased peach, raising, grape, grain and other crops.

## LUMBER SURVEY

SAN FRANCISCO, June 8. — Pacific Coast lumbermen will meet here June 23 to discuss with four United States lumber commissioners—John P. Walker, R. E. Simmons, A. A. Oxholm and Nelson C. Brown—the problem of the rebuilding of war's devastated lumber industry. The lumbermen in connection with the export trade, methods of shipping, complaints and reasons therefor, prices of o. b. grades, etc., will be among the topics taken up.

The four lumber commissioners are making a thorough survey of the whole lumber situation. Following the meeting here, they will go to the Orient.

## WILL BUY BONDS

More than 200 employees of the Hotel Oakland this morning pledged themselves to buy Liberty Bonds, at a meeting which was addressed by Postmaster Joseph J. Rosborough. Arrangements are being made with the hotel management to have the hotel buy the bonds and permit the employees to take them over on a small payment basis. Many of the employees agreed to purchase more than one bond each.

## JEREMIAH LYNCH, NOTED FIGURE, DIES

Jeremiah Lynch, picturesque politician of the old school, noted figure in the history of California, globe-trotter, author, miner, broker, raconteur and cosmopolitan citizen, is no more. Stricken with a heart ailment with an acute attack of heart trouble, he passed away a few moments after he had smilingly assured his friends, General W. S. Schuyler and Enrique Grau, that he was set going to die. In the old boyhood town he loved, he closed a career of sixty-eight years.

Lynch was born in Fall River, Mass. March 18, 1849. He was educated in the public schools of that city, Fond du Lac, Wis., Shasta, California, and San Francisco. He was nine years old when his parents came to this State. At the age of 21 he engaged with an uncle in the baking powder business.

In 1874 he became a member of the San Francisco Stock and Mining Exchange, with which he was actively affiliated for more than twenty years. He was prominent during the boom years, when fortunes were won and lost over night. He was elected president of the exchange in 1888 and was later chosen for a second term.

**FOE OF "BUCKLEYISM."**  
His connection with State and national politics began in 1882, when he was elected for the first of three terms to the State Legislature. He was always a champion of clear politics, and his pamphlet, "Buckleyism," written in 1889, is credited with having driven Chris Buckley, the blind boss of San Francisco, out of the Senate against waste and extravagance and against the railroad.

Lynch was a consistent fighter in the Senate against waste and extravagance and against the railroad. He was a member of the historically famous Wallace grand jury. He was once a candidate for the United States Senate and was defeated by Stephen J. White.

**"WANDERLUST" IS STRONG.**  
The "wanderlust" was always glowing in the veins of Lynch, and during the past twenty-five years he made a dozen trips to Europe and Egypt, circled the globe. From his first visit to Europe he returned with three mummies, one of which he presented to the Bohemian club. This was destroyed in the fire of 1906, and Lynch replaced it seven years later with the mummy of a royal princess, which he was permitted by Lord Kitchener to bring to this country.

In 1898, Lynch answered the call of the Klondike and spent three years in mining. His experiences there were set forth in a book, "Three Years in the Klondike." Other volumes by him are "Egyptian Sketches" and "A Senator of the Klondike." All his time was a frequent contributor of verse and prose to magazines and newspapers.

Lynch was a member of the Royal Geographical Society of London, the Authors' Club of London and the Bohemian and Burlingame Clubs here. He is survived by four sisters and two brothers—Miss Clara Lynch, Mrs. John B. Scott, Mrs. Mary Clunin, Mrs. J. Leary, Timothy Lynch and George Lynch. He was never married.

## SHOT BY GUARD

LOS ANGELES, June 8. — A man who gave his name as "Bill Smith" was shot twice late today by a soldier guarding a bridge near here after he ignored an order to move away from the structure, and is alleged to have threatened the guard with a knife. It was not learned the man was wounded until he had been strapped to a hospital cot and examined after he had battled with police officers who took him into custody. He will recover. Smith had established himself in a dugout near the bridge when the guard ordered him away.

## GOVERNOR TO BE GUEST OF HONOR

A patriotic luncheon is to be given by the Alameda County Woman's Committee of the Councils of National Defense in the Hotel Oakland next Wednesday at 12 o'clock.

Governor William D. Stephens is to be the guest of honor and the principal speaker. Reservations for the luncheon may be made by telephoning to Mrs. Frank G. Law, Elmhurst 823.

On Wednesday evening a public meeting will be held in the municipal auditorium with Governor Stephens as the speaker of the occasion. Addresses will also be made by Arthur H. Freed, Judge T. W. Harris, Joseph R. Knowland and Miss Bessie J. Wood, who will introduce the governor.

## FOR FACEOL PLANT

Oakland officials will welcome one of its infant industries tomorrow noon, when ground is to be broken for the new plant of the Faceol Motors Company at One Hundred and Sixth avenue and the Foothill boulevard.

The ground breaking ceremonies will be started with a parade from the Hotel Oakland through the downtown streets of the city, in which antique automobiles of every description will be seen in line. The parade will end at the Faceol site at 2:45 o'clock, when Mayor John L. Davis will deliver the address of welcome on the new factory site.

## WORK FOR WOMEN

Female stenographers, for the first time in several years, will find a welcome awaiting them in government service, providing they pass examinations. The first test is scheduled for June 23. War needs have eliminated the antipathy in women typists and shorthand experts were formerly held by Uncle Sam and his assistants.

With the business of war mounting up as time goes forward, the government is in need of 5000 persons to do stenography and shorthand work. Salaries will range from \$900 to \$1000 a year. A limited number of women will be selected. San Francisco will be the scene of the tests.

## NEEDS NO PERMIT

The State Railroad Commission has decided that its permission is not necessary to the sale of certain properties of the East Bay Water Company, which the corporation is desirous of selling to Abe P. Leach, H. B. Mehrman, James P. Taylor and Jeremiah T. Burke, of this city. The water company has declared this property not necessary or useful to its water supply system as a public utility. The commission has dismissed the company's application for permission to make this sale on the ground that it has no jurisdiction over properties not classified as public utility holdings.

## NO ONE SHOULD HAVE GRAY HAIR

Don't Use Dyes—Restore Natural Color With Healthful Remedy—Money Back Guarantee.

Nobody likes to use dangerous, dirty, sticky, dyes, but no one wants to have gray hair nowadays. No one needs to. If your hair is gray all over, or just getting gray or streaked with gray—oe if it is faded out and lifeless—simply get a bottle of Q-Ban Hair Color Restorer. This is a harmless liquid, all ready to use. It is guaranteed to the limit by the makers to give satisfaction or your money back.

In a very simple, healthful way it brings back the natural color to gray or faded hair, evenly and gradually (so no one can tell). Simply apply Q-Ban Hair Color Restorer like shampoo and have beautiful, soft, lustrous hair in abundance and with never again a streak of gray. You will be simply delighted with your look of youth and vigor. Remember, Q-Ban is not a patent medicine, not a dye. Its work is certain, safe and permanent. Only 50c at the Owl Drug Stores or Normal Pharmacy, 8th and Washington sts., and all good drug stores, or write Heston-Elis Drug Co., Memphis, Tenn., mentioning drugist's name. Illustrated, interesting book on "Hair Culture" sent free. Get Q-Ban Hair Tonic, Q-Ban Liquid Shampoo, Q-Ban Soap, also Q-Ban Depilatory (odorless) for removing superfluous hair. Advertisement.

WASHINGTON MARKET LESSER BROS.

## Edison, First and Latest

The magic name of "Edison" stands at both the beginning of phonographic development and at the end of it, so far as the end is now known.

The first phonograph was an Edison. The latest phonograph is also an Edison. Unless you have actually listened to the new model Diamond Disc phonograph you can have no realization to what perfection it has attained.

Among some of the minor improvements, Edison has done away with the needle. The Diamond Disc uses no needle at all. The latest self-stopping and self-regulating devices are also shown in it, and,

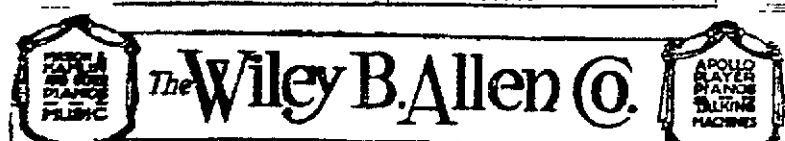

## Greatest of All Is Its TONE QUALITY

This is something that you must hear for yourself to appreciate fully.

Come in and hear it, here. We have all models of the Edison Diamond Disc Phonograph in stock all the time.

OR Send Us This Coupon:

THE WILEY B. ALLEN CO., OAKLAND.  
Please send me descriptive literature, price list and explanation of the "Easy Way to Pay" for Edison and other Phonographs.

1209 Washington St., Oakland

# AMERICANS GIVE GOLD FOR BONDS

BY INTERNATIONAL NEWS SERVICE  
WASHINGTON, June 8.—One week from today America's second subscription to Germany's aggression will be made. On that date the subscription list to the Liberty bond issue will close. During the coming seven days a drive the like of which seldom has been witnessed in the United States will be made to empty the "concealed socks," tomato cans and old chests and utensils of their stored surplus of gold.

Officials make no secret of the fact that they are working, and are working, to secure a record over-subscription for the initial loan. The more it is over-subscribed, they point out, the greater will be the moral effect on Germany.

Reports from cities of the United States show the following:

**CITIES SUBSCRIBE.**

San Francisco—San Francisco has subscribed approximately \$20,000,000 of its \$40,000,000 allotment for the Liberty loan.

New York—One billion in subscriptions from one million subscribers is New York's goal. More than \$400,000,000 subscribed has been announced, while the big banks are holding back reports on many millions more.

Indianapolis—Beginning the final drive the bankers' committee today announced that \$3,555,357 of Indianapolis' quota of \$11,483,750 has been subscribed.

Kansas City—This city's subscriptions to the nation's war chest has reached close to \$1,000,000. The subscribed quota is \$5,000,000.

Detroit—With \$3,000,000 assigned as its share, Detroit today has subscribed to \$4,754,900.

**CANYASS CITY.**

Atlanta—Two hundred picked salesmen today canvassed the city for Uncle Sam. They will have gathered their full quota of \$10,000,000 by June 15.

Los Angeles—Approximately \$14,000,000 of Southern California's allotment of \$20,000,000 has been subscribed.

Portland, Ore.—Liberty loan subscribers in Oregon have taken \$3,797,750 worth of the \$5,500,000 allotted to the entire state. Portland has subscribed \$2,379,050 of its \$3,000,000 quota.

Seattle—This city is close to the \$5,000,000 mark here today toward her allotment of \$5,200,000 for the Liberty loan.

## BIG PROFIT MADE

SALT LAKE CITY, Utah, June 8.—R. Wood, auditor of the Oregon Short Line, told the Utah Public Utilities Commission that the total operating income of the road for the year 1916 was \$3,565,974, while the operating expenses were \$3,000,000. He said the company was able to pay \$8,000,000 in dividends, put away a large sum for appropriations and have a substantial balance in hand. The Oregon Short Line, Wood said, used 941,548 tons of coal and 15,690 barrels of oil for fuel. He submitted several exhibits showing the increased cost of material and operation expenses in 1916. Then, to the public utilities commission for permission to raise the company's freight rates 15 per cent. Wood said that employees affected by the Adamson law were receiving more than sixteen per cent increase in wages, while those not so affected were getting an advance of nearly six per cent and that the fifteen per cent freight rate advance asked for was not enough to meet this and other increased cost of operation.

## CARS IN CRASH

Passengers on two Grove street cars were in danger of injury from shattered glass when the cars, one bound toward Oakland and the other toward the Berkeley terminus, collided in rounding the curve at University and Grove streets in Berkeley this morning. As one of the cars swung round the curve, one end of the street car struck the other. Windows were broken by the impact, but none of the passengers was injured. Grove street and University avenue cars were held up for five minutes by the accident.

## ROOSTER TOO BIG

JOSE CENTER, N. Y., June 8.—Hosea Ashmore, who raised a flock of hens, purchased a ten-pound rooster and placed it in the henyard. In the evening Mr. Ashmore went to the henhouse, but the fowls were not there. He believed they had been stolen. Mr. Ashmore was about to leave the building when he heard a noise. He made an investigation and found his new rooster wedged in the opening which is used by the fowls in reaching the henhouse. The rooster was held so firmly that it could not stir, and that he had to enlarge the opening in order to release it.

He also declared it was raining at the time that the hens could not enter the henhouse, that they were wet, caught cold and have quit laying.

## ELK NUISANCES

HELENA, Mont., June 8.—The county attorney of Sanders county has appealed to state authorities to "shoot off" elk, which are trampling crops about Thompson Falls. The state protects the elk, the attorney demands that it also protect them. The state will act.

## ISLAM BEST WAY TO STOP SKIN'S ITCHING

Cover the spot that itches with Poslam; relief is immediate.

When the skin aggravates, burns, presents an unsightly, broken-out surface, there is one remedy pre-eminently fitted to soothe and heal, on which you can always depend—Poslam.

Sold everywhere. For free sample write to Emergency Laboratories, 213 West 4th St., New York City.

Poslam Soap is the tonic soap for the skin and will freshen and beautify your complexion.—Advertisement.

# Bonds or Taxes to Be Choice Put Before Public

Reserve Bank Governor Urges the West to Take  
More Interest in Big Loan

A. C. Kains, governor of the Federal Reserve Bank of this district and in charge of the Liberty Loan campaign in the seven Western States of California, Oregon, Washington, Arizona, Nevada, Utah and Idaho, has issued the following official statement to the people of the Pacific Coast:

The time has come to talk plainly on the subject of the Liberty loan. The loan has not been over-subscribed; it has not even been wholly subscribed. In the twelfth federal reserve district, embracing the Pacific coast states, it has been only half subscribed.

This can be due only to either a woeful misunderstanding or complete failure to understand the full import, purpose and imperative necessity of the Liberty loan.

I want to talk to the people of these Pacific coast states in the most solemn fashion of which I am capable. In the light of the information that has come to me, I say, weighing my words as I utter them, that this nation today faces its most serious crisis since the days of the civil war. I would, if I had the power, make every citizen understand that he can either help or hinder the nation in this emergency. He can help by enlisting himself or his money. He can hinder by doing neither. And he who hinders helps the enemy. He helps the Kaiser. Every dollar that rightfully should be offered the war fund of the United States and is by its owner withheld, either through ignorance, apathy or wilfulness, is a weapon of sharpened steel, placed in the hands of the German Emperor; a spike in the soul of the American people.

## RESPONSE INADEQUATE.

It will not do hereafter to excuse and to say, "We did not understand." The people of the United States, and particularly the people of our Western states, must here and now stand forth in their manhood and their manhood and take unto themselves the call of the nation and give unanimous response. "We will."

Subscriptions to the Liberty bonds to date have been deplorably inadequate. Response has not been sufficiently broad nor sufficiently great.

Fifty thousand young men of San Francisco have registered their lives for their country. We have a right to expect to demand that 50,000 citizens register their money. To date less than 10 per cent of 5,000,000 signed their willingness to furnish the funds necessary to support and to keep alive these men who have offered their lives that this nation may live.

The largest subscriptions have often been inadequate in amount. The measure of the subscription must be the ability to pay. Our great institutions must think not in hundreds of thousands, but in millions and many millions.

To the small investor let me say that in purchasing a Liberty bond he but puts his money in the bank. He spends not a bit of his money to go forthwith to his bank and there arrange at once to enter a subscription to the Liberty loan.

## SALES OR INCREASED TAXES.

Upon every great corporation I urge that it take counsel of its managers as to subscription and that with patriotic heart it raise the one to the measure of the other.

There are two ways of raising money for war purposes. One is by taxation and the other is through the sale of bonds. The United States government has adopted both. It is good policy to use both methods. It is good business to do so. But if it becomes necessary the United States government, of course, will resort to further taxation instead of the sale of bonds.

We have seven business days left, until June 15, in which to place our allotment of the Liberty loan. This amounts to \$166,000,000 for the six Western states. It amounts to \$109,000,000 for the state of California. It amounts to \$32,000,000 for the city of San Francisco.

The West has been called the "Hope of the Nation." Our own California, the largest of these states, must point the way, and San Francisco, the city cherished and loved, must justify that love and affection which are hers.

Shall we of the West, in the hour of the nation's peril, send

back the word: "We have heard your call, but we are weak in the faith; we are false in heart and cannot help," or shall we flash back the message:

"We have heard the call. We pledge our faith. We pledge our all!"

A whirlwind finish is to be made in the Liberty bond campaign in Alameda and Contra Costa counties.

"A million dollars a day!" That is the slogan adopted by the Liberty loan committee for Alameda and Contra Costa counties, headquarters 308-309, Syndicate building, directing the Liberty loan bond subscriptions.

This means that \$7,000,000 must be invested in the Liberty bonds from the two east bay counties within the next seven days.

The Liberty loan campaign throughout the nation closes on June 15. W. W. Garthwaite, chairman of the Liberty loan committee for Alameda and Contra Costa counties, has sent out an appeal to the citizens of the east bay district.

## ROTARIANS INVEST \$112,000.

The members of the Rotary Club set a splendid example to the east bay district yesterday when 100 out of its members present at luncheon at the Hotel Oakland invested in Liberty bonds to the total amount of \$112,000.

"We'll make it \$200,000 within the next few days," declared President George S. Meredith.

The largest individual subscription was made by Charles H. Butters in the amount of \$15,000.

The Commission Men's Association has voted \$750 of the \$1000 in the treasury to the purchase of Liberty bonds.

# NAVAL OFFICER'S DEATH IS MYSTERY

SEATTLE, Wash., June 8.—Lieutenant Kenneth Heron, U. S. N., superintendent of new work at the Puget Sound navy yard at Bremerton, was found dead in bed from a gunshot wound in his room in a Bremerton hotel. A naval board today is probing the death to determine whether or not the wound was self-inflicted.

Lieutenant Heron had been at the navy yard since February, having been transferred from Seattle, where he was inspector of machinery in the government work at the Seattle Construction and Drydock Company's plant. He was 34 years of age and single. Prior to coming to Seattle he was assigned to the Fall River Shipbuilding Works in connection with the building of the submarine L-1 and to inspection duty under the navy bureau of steam engineering. He was a native of California, from which state he was appointed to the naval academy in 1902.

## SHIP OFF ROCKS

THE DALLES, Ore., June 8.—The stern wheel steamer Ellen, which had been hard aground on a rock in Three Mile Rapids in the Columbia river, with a crew of four on board, was hauled off by the steamer, Dalles City, after the crew had been taken off. The Ellen at once turned turtle, her house being torn off and going adrift in the process. The hull was towed here and will be salvaged.

## What Paul Steindorf says about Color Music

PAUL STEINDORFF  
3032 BROADWAY  
OAKLAND, CALIFORNIA.  
Gentlemen:—

In response to your inquiry of recent date, with regard to the merits of Trewe's Color Music System, would say that I have thoroughly investigated the same, and find it most wonderful in the scientific simplicity.

A simpler method of reading music is certainly an innovation to the many thousands of people who have neglected, or had not the opportunity of studying music when younger. And the fact that one can not only play, but can transpose readily into any key, must of itself be of great value to both beginners and advanced students.

Visualizing, as this system does, all fundaments in music, should eliminate many years of study and simplify to a great degree, the reading of the staff notation.

I take great pleasure in being able to recommend this system, especially to those who for various reasons neglected the opportunity of studying their younger.

Yours very truly,  
Paul Steindorf

Come in and get a free demonstration of the wonderful simplified system for playing the piano. Anyone can actually play in a few days. Daily demonstrations in Edison Studio, third floor. Purchasers of Trewe's Color Music are given 20 free lessons prepared by Mrs. Eva Trewe, concert artist and originator of color music. Easy terms if desired.

Fourteenth, Fifteenth and Clay Streets

# CHINESE GIRL, IN LOVE NET, TRIES SUICIDE

Rather than accept the dictum of her mother that she must marry a man much older than herself when her regard was turned toward a youth of her own age, Elsie Chan, 15-year-old Chinese girl residing at 312 Sixth street, attempted suicide early this morning by strangling herself. Hearing sounds from the girl's bedroom, the mother rushed in and rescued her from death.

The commotion following the discovery attracted police attention and the police ambulance was called. At the Emergency hospital the little girl was found to have recovered from her experience. She denied any attempt at suicide by strangling or poison and hospital attaches were unable to find any traces of self-inflicted violence. A police investigation is now progressing.

Romance which refused to accept the mother's pseudo-wisdom brought on the suicidal attempt, according to a hastily-scribbled note found by police inspectors. According to the badly-written lines, which the child intended to be her last on earth, tender regard for the schoolboy to whom it was written prevented her accepting the order of her mother that she marry a staid Chinese shopkeeper and begin the life of housekeeping and housewifery.

Signing her name to the paper by the flickering flame of a candle, the little girl rose and reached for the cord which she had picked out earlier in the day as the instrument to eliminate the undesirable angle in her life-triangle. As they do it in the motion pictures, she tied the slip-knot, drew in the loop and began to strangle in a more romantic way than successful one. She was determined to die, though, and continued her efforts until stopped by the iron hand of her mother.

The following note was written by the girl to "William," a Chinese youth who has not yet been identified by the police.

"Sorry to say that I could get no chance to see you before I died, as my mother forces me to marry, but I didn't obey her about it. I really intended to marry you, and I will follow you any time if I am just worrying about my mother forcing me to marry, and that makes me die."

## BULL-DOGGING STOPS RUNAWAY; SAVES FAMILY

TRIBUNE BUREAU,  
SAN FRANCISCO.

SAN JOSE, June 8.—Mrs. Mary Lopicola and her two babies were saved from serious disaster yesterday when her horse and buggy ran away on Market street. The horse was owned by Joseph Stinger, a liverman, on South Market street. Stinger grasped the speeding horse around the neck and was carried on his back. He then twisted the horse's nose until its breathing was stopped.

The animal came to a sudden stop, throwing the 6-months-old baby into the air. At this moment, however, Jack Greggs caught the baby in mid-air. Mrs. Lopicola was slightly bruised by being thrown from the buggy. She was taken to the Columbia hospital.

MODES AND COLDS.  
CHICAGO, June 8.—Due to short skirts and unusually high winds of the last three days an epidemic of colds is prevalent among Chicago women, according to the Chicago health department.

## CREDIT HELPS MANY MEN GET AHEAD

As a man dresses so he is judged in business. Promotions always come to the man who is wide awake and keeps up his personal appearance. It is only human nature to respect the man who is well dressed. Even though genius sometimes crops from vagabonds, it is appearance that makes the business world go round.

Now, the question is just this—how many are you thinking about your personal appearance? Are you wearing shabby, out-of-date clothes because you figure that you have a thin purse and cannot afford up-to-date apparel, or are you one of the wide-awake men of the community who are using their credit at CHERY'S Clothing Store?

It is so easy for any man to be well dressed if he will only trade at CHERY'S—a small payment down and easy installments each week keep up one's personal appearance. Prices are lower and the quality and style of the clothing above reproach.

It is high time that you grasp your opportunity to use credit which is the only stepping stone to success.

Tomorrow being Saturday, Chery's stores all stay open until 10 p. m. Chery's have two stores in Oakland—the ladies' store at 515 13th st. and the men's store at 528 13th st. In San Francisco they also have two stores—one at 48 and 52 Geary st. and 2400 Mission, corner 20th. Also in Sacramento.—Advertisement.

## FISCHER TO HEAD ENGINE MAKERS

Following several years of service as an officer, O. H. Fischer, president of the Union Gas Engine Company, has been elected president of the National Gas Engine Association, which is holding its annual session in Chicago. Last year he was selected as the association's vice-president, and because of his service in the interests of the gas engine industry was yesterday chosen to lead the organization during the coming year.

Fischer, together with members of his family, left his residence, 3000 Santa Clara avenue, Alameda, during the last day of May for Chicago. He has been a member of the National Association for many years. The services of the association's membership were offered to the National Council of Defense in resolutions adopted at the annual session of the organization.

## 3948 Alien Enemies Are Registered in California

Governor Stephens Telegraphs Results in the State to Washington; Can Still Enroll Here

SACRAMENTO, June 8.—Following completion of the registration count in California late last night, Governor W. D. Stephens telegraphed the following results today to Provost Marshal General Crowder at Washington: "Total registration for California 39,522; white registration 22,572; colored registration, 21,485; indicated possible exemptions, 126,578. The men eligible in the state for registration under the selective draft law had previously been estimated at 365,479, based on census bureau figures."

Registration of aliens in the state showed a total of 67,464, and 3948 alien enemies were registered.

**PREPARE HONOR ROLLS.**  
Honor rolls of Oakland men who have registered under the provisions of the draft act are being prepared today by City Clerk L. W. Cummings for posting in the city.

In the 211 precincts of the city. Copies of the lists will be placed in the hands of the police department in order that the population of the different precincts may be properly checked for slacks.

Finding further instructions from the federal authorities, the rolls are still open and any men who failed for one reason or another to register on June 5 may now do so by applying at the office of the city clerk in the city hall. By doing so as soon as possible a great deal of trouble will be eliminated for those who so far have failed to comply with the regulations. The precinct lists will be posted today and it is thought probable by the local authorities that voluntary registrations may not be taken after that time.

**ESTIMATED PRO RATA.**  
Oakland's pro rata as estimated according to a population of 200,000 given in the government census reports, should be slightly more than 22,000. At the present time the registrations taken in the city and those sent in by mail approximate 17,000, according to Clerk Cummings.

As yet no definite instructions have been received by the local bureau regarding the exemption boards, but it is believed that the various district boards of registration supervisors will constitute the exemption boards.

Lost identification cards will not be replaced as duplicates cannot be issued. Persons who have lost their blue cards can obtain from the city clerk a letter certifying that they have registered.

The registration by counties with exemptions claimed follows:

County	Registration	Exemptions
Alameda	5,426	3,729

## 20,000 EXTRA WORKERS NEEDED TO SAVE CROPS

SACRAMENTO, June 8.—First hand information in regard to the farm labor situation in Central California counties, which this year will show increases in crop production, is being sought by A. H. Saxegaard, vice-chairman of the State Council of Defense. In a tour of San Joaquin, Stanislaus, Merced, Madera and Fresno counties.

In each county visited conferences are being held with county councils of defense regarding the safeguarding of growing crops from fires and on other matters pertaining to defense organization.

According to reports reaching the State Council of Defense the committee on resources and food supply of that body, which is handling the statewide farm labor problem, the live central California counties asked will present the most difficult task in supplying an adequate supply of farm labor to harvest for the coming crops. It is believed that not less than 20,000 extra laborers will be needed to help save the immensely increased peach, raising, grape, grain and other crops.

## LUMBER SURVEY

SAN FRANCISCO, June 8.—Pacific Coast lumbermen will meet here June 23 to discuss with four United States lumber commissioners—John P. Walker, R. E. Simmons, A. A. Oxholm and Nelson C. Brown—the problem of the rebuilding of war's devastated areas in connection with the lumber business.

Export trade, methods of shipping, complaints and reasons therefor, prices of o. b. grades, etc., will be among the topics taken up.

The four lumber commissioners are making a thorough survey of the whole lumber situation. Following the meeting here, they will go to the Orient.

## WILL BUY BONDS

More than 200 employees of the Hotel Oakland this morning pledged themselves to buy Liberty Bonds, at a meeting which was addressed by Postmaster Joseph J. Rosborough. Arrangements are being made with the hotel management to have the hotel buy the bonds and permit the employees to take them over on a small payment basis. Many of the employees agreed to purchase more than one bond each.

## GOING AWAY?

No extra fare take The TRIBUNE with you. Phone Lake-side 6000, Circulation Dept.

## JEREMIAH LYNCH, NOTED FIGURE, DIES

Jeremiah Lynch, picturesque politician of the old school, noted figure in the history of California, globe-trotter, author, miner, broker, raconteur and cosmopolitan citizen, is no more. Stricken with a heart ailment with an acute attack of heart trouble, he passed away a few moments after he had smilingly assured his friends, General W. S. Schuyler and Enrique Grau, that he was set going to die. In the old boyhood town he loved, he closed a career of sixty-eight years.

Lynch was born in Fall River, Mass. March 18, 1849. He was educated in the public schools of that city, Fond du Lac, Wis., Shasta, California, and San Francisco. He was nine years old when his parents came to this State. At the age of 21 he engaged with an uncle in the baking powder business.

In 1874 he became a member of the San Francisco Stock and Mining Exchange, with which he was actively affiliated for more than twenty years. He was prominent during the boom years, when fortunes were won and lost over night. He was elected president of the exchange in 1888 and was later chosen for a second term.

## FOE OF "BUCKLEYISM"

His connection with State and national politics began in 1882, when he was elected for the first of three terms to the State Legislature. He was always a champion of clear politics, and his pamphlet, "Buckleyism," written in 1889, is credited with having driven Chris Buckley, the blind boss of San Francisco, out of the Senate against waste and extravagance and against the railroad. He was a member of the historically famous Wallace grand jury. He was once a candidate for the United States Senate and was defeated by Stephen J. White.

## "WANDERLUST" IS STRONG

The "wanderlust" was always glowing in the veins of Lynch, and during the past twenty-five years he made a dozen trips to Europe and Egypt, circled the globe. From his first visit to Europe he returned with three mummies, one of which he presented to the Bohemian club. This was destroyed in the fire of 1906, and Lynch replaced it seven years later with the mummy of a royal princess, which he was permitted by Lord Kitchener to bring to this country.

In 1898, Lynch answered the call of the Klondike and spent three years in mining. His experiences there were set forth in a book, "Three Years in the Klondike." Other volumes by him are "Egyptian Sketches" and "A Senator of the Klondike." All his time was a frequent contributor of verse and prose to magazines and newspapers.

Lynch was a member of the Royal Geographical Society of London, the Authors' Club of London and the Bohemian and Burlingame Clubs here. He is survived by four sisters and two brothers—Miss Clara Lynch, Mrs. John B. Scott, Mrs. Mary Clunin, Mrs. J. Leary, Timothy Lynch and George Lynch. He was never married.

## SHOT BY GUARD

LOS ANGELES, June 8.—A man who gave his name as "Bill Smith" was shot twice late today by a soldier guarding a bridge near here after he ignored an order to move away from the structure, and is alleged to have threatened the guard with a knife. It was not learned the man was wounded until he had been strapped to a hospital cot and examined after he had battled with police officers who took him into custody. He will recover. Smith had established himself in a dugout near the bridge when the guard ordered him away.

## GOVERNOR TO BE GUEST OF HONOR

A patriotic luncheon is to be given by the Alameda County Woman's Committee of the Councils of National Defense in the Hotel Oakland next Wednesday at 12 o'clock.

Governor William D. Stephens is to be the guest of honor and the principal speaker. Reservations for the luncheon may be made by telephoning to Mrs. Frank G. Law, Elmhurst 823.

On Wednesday evening a public meeting will be held in the municipal auditorium with Governor Stephens as the speaker of the occasion. Addresses will also be made by Arthur H. Freed, Judge T. W. Harris, Joseph R. Knowland and Miss Bessie J. Wood, who will introduce the governor.

## FOR FACEOL PLANT

Oakland officially will welcome one of its infant industries tomorrow noon, when ground is to be broken for the new plant of the Faceol Motors Company at One Hundred and Sixth avenue and the Foothill boulevard.

The ground breaking ceremonies will be started with a parade from the Hotel Oakland through the downtown streets of the city, in which antique automobiles of every description will be seen in line. The parade will end at the Faceol site at 2:45 o'clock, when Mayor John L. Davis will deliver the address of welcome on the new factory site.

## WORK FOR WOMEN

Female stenographers, for the first time in several years, will find a welcome awaiting them in government service, providing they pass examinations. The first test is scheduled for June 23. War needs have eliminated the antipathy in women typists and shorthand experts were formerly held by Uncle Sam and his assistants.

With the business of war mounting up as time goes forward, the government is in need of 5000 persons to do stenography and shorthand work. Salaries will range from \$900 to \$1000 a year. A limited number of women will be selected. San Francisco will be the scene of the tests.

## NEEDS NO PERMIT

The State Railroad Commission has decided that its permission is not necessary to the sale of certain properties of the East Bay Water Company, which the corporation is desirous of selling to Abe P. Leach, H. B. Mehrman, James P. Taylor and Jeremiah T. Burke, of this city. The water company has declared this property not necessary or useful to its water supply system as a public utility. The commission has dismissed the company's application for permission to make this sale on the ground that it has no jurisdiction over properties not classified as public utility holdings.

## NO ONE SHOULD HAVE GRAY HAIR

Don't Use Dyes—Restore Natural Color With Healthful Remedy—Money Back Guarantee.

Nobody likes to use dangerous, dirty, sticky, dyes, but no one wants to have gray hair nowadays. No one needs to. If your hair is gray all over, or just getting gray or streaked with gray—oe if it is faded out and lifeless—simply get a bottle of Q-Ban Hair Color Restorer. This is a harmless liquid, all ready to use. It is guaranteed to the limit by the makers to give satisfaction or your money back.

In a very simple, healthful way it brings back the natural color to gray or faded hair, evenly and gradually (so no one can tell). Simply apply Q-Ban Hair Color Restorer like shampoo and have beautiful, soft, lustrous hair in abundance and with never again a streak of gray. You will be simply delighted with your look of youth and vigor. Remember, Q-Ban is not a patent medicine, not a dye. Its work is certain, safe and permanent. Only 50c at the Owl Drug Stores or Normal Pharmacy, 8th and Washington sts., and all good drug stores, or write Heston-Elis Drug Co., Memphis, Tenn., mentioning drugist's name. Illustrated, interesting book on "Hair Culture" sent free. Get Q-Ban Hair Color, Q-Ban Liquid Shampoo, Q-Ban Tonic, also Q-Ban Depilatory (odorless) for removing superfluous hair. Advertisement.

## Edison, First and Latest

The magic name of "Edison" stands at both the beginning of phonographic development and at the end of it, so far as the end is now known.

The first phonograph was an Edison. The latest phonograph is also an Edison. Unless you have actually listened to the new model Diamond Disc phonograph you can have no realization to what perfection it has attained.

Among some of the minor improvements, Edison has done away with the needle. The Diamond Disc uses no needle at all. The latest self-stopping and self-regulating devices are also shown in it, and,

## Greatest of All Is Its TONE QUALITY

This is something that you must hear for yourself to appreciate fully.

Come in and hear it, here. We have all models of the Edison Diamond Disc Phonograph in stock all the time.

## KEY SYSTEM APPLIES TO RAISE FARE

Application for permission to raise  
its ferry and suburban passenger fare  
has been filed with the State Railroad  
Commission by the San Francisco-Oakland  
Terminal Railway, commonly known as the Key Route system, on account of an alleged deficit  
approximating half a million dollars.

In its petition, which asks for a  
hearing at which to present evidence  
to substantiation of its contention  
the company sets forth the value of  
the operative property affected as  
\$5,304,104, from which the total earn-  
ings for the past sixteen months have  
been \$1,595,043. Operating expenses  
and taxes are placed at \$1,336,893,  
the net earnings being \$258,151. Bond  
interest and fixed charges are said  
to be \$485,598, leaving the direct  
deficit at \$227,447.

To this amount the company adds  
a special charge of \$237,442 for the  
abandonment of an old pier trolley,  
putting down the total deficit as  
\$489,071 for sixteen months' opera-  
tions of the system. A portion, at  
least, of this deficit, is blamed on ad-  
ditional labor expense resulting from  
the employment of thirty additional  
deck and engine-room officers at a  
cost of \$30,000 additional operating  
expenses. According to the com-  
pany's contentions this burden should  
be borne by the public.

COMPANY'S STATEMENT.  
Vice-President and General Man-  
ager W. K. Alberger of the traction  
company, today issued the following  
statement in regard to the corpora-  
tion's position in the matter:

"As a result of the arbitration  
recently held in the case of the con-  
troversy between the company and  
its captains and mates and its engi-  
neers on the ferryboats, an opinion  
was rendered by Hon. Maurice T.  
Dooley, Judge of the United States  
District Court, to the effect that, in  
the Key division was already opera-  
ted at a loss, as claimed, it would  
not be fair to require the company  
to make a concession to its ferryboat  
men which would entail an additional  
expenditure or loss of \$30,000 per  
annum without giving the Railroad  
Commission an opportunity to con-  
sider and pass upon the reasonableness  
and adequacy of the present one-  
way and commutation rates between  
San Francisco and Oakland, Berke-  
ley and other east bay cities served  
by the company.

ASKS FOR HIGHER RATE.  
"The company placed its ferryboat  
men temporarily upon the hours or  
service demanded by them, which  
hours of service were before the ar-  
bitration board, pending an applica-  
tion to the Railroad Commission for  
an investigation and a readjustment  
of its rates.

"This added expense, which, as  
stated, would approximate \$30,000  
per year, together with other in-  
creased expenses, particularly in the  
high cost of materials and supplies,  
has resulted in the company finding  
itself in a position where it could no  
longer make application to the  
Railroad Commission.

"The Key division has been an un-  
profitable business for several years.  
The rates of fare charged for service  
between San Francisco and the east  
bay cities can be proven to be lower  
than rates charged for similar ser-  
vice out of many other larger cities  
in the United States, where in most  
cases the service performed is all rail  
as compared with the combined rail  
and boat service of the Key division  
which naturally is more costly to  
operate."

## SHRINERS TO AID RED CROSS WORK

Aahmes Temple is going to do its part  
to equip the Red Cross Hospital Unit  
that will be furnished by Oakland. Every  
dollar that is paid by the public toward  
the "Patriotic Revue and Ball" of  
Aahmes Temple of the Mystic Shrine  
next Friday evening at the Oakland Mu-  
nicipal Auditorium, will go to that pur-  
pose.

Oakland is to furnish a completely  
equipped Red Cross Hospital Unit. The  
University of California has agreed to  
supply the 31 men that go to make up a  
full ambulance company. The people of  
Oakland must furnish the equipment.  
The members of Aahmes Temple of  
the Mystic Shrine have determined to  
follow the advice of president and "do  
their bit" toward this end. "Their bit"  
will consist of donating every dollar of  
the gross proceeds.

The Shriners have not done things by  
 halves. Every dollar that is taken in—  
and these Shriners will contribute many  
of these dollars themselves—will go toward  
furnishing the equipment that 31  
sturdy young men from the University  
of California will take wherever duty calls  
them.

The members of the Shrine will pay the  
expenses of the entire entertainment.  
The members of the Shrine will pay  
their own admissions to the entertain-  
ment.

The members of the Shrine will give  
their time in the arrangement of the  
entertainment.  
The public of Oakland is invited to do  
the rest with the knowledge that every-  
thing goes to the cause.

The evening's entertainment will be  
divided into two parts. The first, of  
something over an hour's duration, will  
be a patriotic spectacle that will appeal  
to everyone. This will be concluded  
about 9:30 o'clock and the rest of the  
evening will be given over to dancing.

The particular features will be an-  
nounced from time to time, but the safe  
thing to do is to set Friday, June 15, for  
the occasion.

## FOR RESERVE BASE

LOS ANGELES, June 5.—Official  
notice has been received from the  
Navy Department by Mayor Wood-  
man of the acceptance of Pier No. 1  
in the outer harbor as location for  
the Naval Coast Defense Reserve. It  
was learned today that 100,000  
men have been ordered to report  
there. The government has ap-  
propriated \$15,000 for equipment.

## FLEE IN NIGHTIES

LOS ANGELES, June 8.—One  
hundred guests, men and women,  
took to the fire-escapes in their  
night clothes early today when fire  
in the Yale hotel at Ninth and Hill  
streets brought about a panic among  
the roomers. Dozens of women fled  
from the building in their night-  
gowns and stood by, shivering in the  
cold fog of dawn, while firemen  
brought the blaze under control.

OAKLAND'S STORE THAT UNDERSELLS

## WHY WE CAN AND DO

sell good, clean, staple merchandise cheaper than any other store in Oakland. Because of our connection with  
one of the most powerful buying syndicates on the Pacific Coast, we get the lowest prices. In many instances we  
retail goods at a price that most merchants have to pay for their goods. Because of our location, our cheaper  
rents enabling us to reduce the profit rate in marking our goods.

Because the members of this firm personally conduct this business, thereby eliminating heavy operating cost.  
That is why we CAN and DO sell good, clean, staple merchandise cheaper than any other store in Oakland. Read  
this interesting list for Saturday:

## A Great Sale of Hand-Worked Art Models At About Two-thirds Off the Usual Price

A wonderful assortment of crocheted and embroidered art models from the Royal Society and other com-  
panies. Bought at a tremendous price concession and we offer them at about the price you would have to pay  
for the materials. Each of these articles was executed by an expert needleworker. The line includes practically  
everything that is new and up-to-date in art work.

There are Gowns, Combinations, Corset Covers, Scarfs, Pillows, Infants' Dresses, Kimonos and hundreds  
of other things. The prices are ridiculous considering quality of materials and expert labor.

# CHINESE GIRL, IN LOVE NET, TRIES SUICIDE

Rather than accept the dictum of her mother that she must marry a man much older than herself when her regard was turned toward a youth of her own age, Elsie Chan, 15-year-old Chinese girl residing at 312 Sixth street, attempted suicide early this morning by strangling herself. Hearing sounds from the girl's bedroom, the mother rushed in and rescued her from death.

The commotion following the discovery attracted police attention and the police ambulance was called. At the Emergency hospital the little girl was found to have recovered from her experience. She denied any attempt at suicide by strangling or poison and hospital attaches were unable to find any traces of self-inflicted violence. A police investigation is now progressing.

Romance which refused to accept the mother's pseudo-wisdom brought on the suicidal attempt, according to a hastily-scribbled note found by police inspectors. According to the badly-written lines, which the child intended to be her last on earth, tender regard for the schoolboy to whom it was written prevented her accepting the order of her mother that she marry a staid Chinese shopkeeper and begin the life of housekeeping and housewifery.

Signing her name to the paper by the flickering flame of a candle, the little girl rose and reached for the cord which she had picked out earlier in the day as the instrument to eliminate the undesirable angle in her life-triangle. As they do it in the motion pictures, she tied the slip-knot, drew in the loop and began to strangle in a more romantic way than successful one. She was determined to die, though, and continued her efforts until stopped by the iron hand of her mother.

The following note was written by the girl to "William," a Chinese youth who has not yet been identified by the police.

"Sorry to say that I could get no chance to see you before I died, as my mother forces me to marry, but I didn't obey her about it. I really intended to marry you, and I will follow you any time if I am just worrying about my mother forcing me to marry, and that makes me die."

## BULL-DOGGING STOPS RUNAWAY; SAVES FAMILY

TRIBUNE BUREAU,  
SAN FRANCISCO, June 8.—Mrs. Mary Lopicola and her two babies were saved from serious disaster yesterday when her horse and buggy ran away on Market street. The horse was owned by Joseph Stinger, a liverman, on South Market street. Stinger grasped the speeding horse around the neck and was carried on his back. He then twisted the horse's nose until its breathing was stopped.

The animal came to a sudden stop, throwing the 6-months-old baby into the air.

At this moment, however, Jack Greggs caught the baby in mid-air. Mrs. Lopicola was slightly bruised by being thrown from the buggy. She was taken to the Columbia hospital.

MODES AND COLDS.  
CHICAGO, June 8.—Due to short skirts and unusually high winds of the last three days an epidemic of colds is prevalent among Chicago women, according to the Chicago health department.

## CREDIT HELPS MANY MEN GET AHEAD

As a man dresses so he is judged in business. Promotions always come to the man who is wide awake and keeps up his personal appearance. It is only human nature to respect the man who is well dressed. Even though genius sometimes crops from vagabonds, it is appearance that makes the business world go round.

Now, the question is just this—how many are you thinking about your personal appearance? Are you wearing shabby, out-of-date clothes because you figure that you have a thin purse and cannot afford up-to-date apparel, or are you one of the wide-awake men of the community who are using their credit at CHERY'S Clothing Store?

It is so easy for any man to be well dressed if he will only trade at CHERY'S—a small payment down and easy installments each week keep up one's personal appearance. Prices are lower and the quality and style of the clothing above reproach.

It is high time that you grasp your opportunity to use credit, which is the only stepping stone to success. Tomorrow being Saturday, Chery's stores all stay open until 10 p. m.

Chery's have two stores in Oakland—the ladies' store at 515 13th st. and the men's store at 528 13th st. In San Francisco they also have two stores—one at 48 and 52 Geary st. and 2400 Mission, corner 20th. Also in Sacramento.—Advertisement.

## CONDEMNED TO DIE

Our Herb Remedies cured him. He had suffered with ulcer of the stomach for 8 years. Operation ordered, but refused because of great risk. This patient will give full facts to anyone coming to us.

DR. DUNNE FAY WOO, his help many sufferers since coming to Oakland. Let him prescribe for you.

A Consultation and Diagnosis Costs You Nothing.

Office Hours—9 to 6; Sundays, 10 to 12.

## Trust Me! Try Dodson's Liver Tone! Calomel Harms Liver and Bowels

Read my guarantee! Liven your liver and bowels and get straightened up without taking sickening calomel. Don't lose a day's work!

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Your children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless. Calomel is a dangerous drug. It is

mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you—Advertisement.

## Listen Ladies!

WE offer you something that has solved all baking problems in millions of homes—that is economical to buy and economical to use and we do not believe the shrewd housewife of OAKLAND will refuse to test the truth of these statements.

Manufacturers of other brands of baking powder know better than anyone else how good Calumet Baking Powder really is.

They know it is pure and wholesome and that in a great majority of cases when a housewife has tried Calumet she will use nothing else. Consequently they attempt to prevent a trial wherever possible.

They are actuated by purely selfish motives—they fear you will quit buying what they have to offer and use something that may prove to be a great deal better.

Watch for the Calumet demonstrator. Learn the facts about baking powder and then decide for yourself. You can try Calumet—at our risk. If it isn't the best baking powder you ever had in your kitchen it won't cost you a penny.

The exceptional merit of Calumet is proved by the efforts of competitors to prevent a trial.

Calumet contains only such ingredients as have been approved officially by the U. S. Food A. authorities.

You save when you buy it.  
You save when you use it.

## EAT LESS, URGED BY FOOD CHIEF

WASHINGTON, June 8.—Herbert C. Hoover's report to the government on what the United States must do to sustain its allies with food, shows that the allies and a few neutrals which must be considered, require during the next year a billion bushels of cereals alone and that their needs of meat, fats and sugar also will be enormous.

Production in the allied countries and imports from other countries can meet only a portion of these needs. America's surplus on the present scale of consumption will not meet the deficiency, Hoover says, so he points out that the enormity of the task requires reduction of home consumption in many ways.

The report closes with an appeal to the American people to assist the food administration in its efforts to increase production and to conserve supplies.

"We are at war," it says. "We must do what success in war demands. He also fights who helps a fighter fight. That is the way we can all help in the war, and if we don't help the war will not be won."

The situation abroad was outlined by Hoover as follows:

**BRITAIN'S CASE.**

"Great Britain normally raises about one-fourth of the grain she needs for her bread, France about one-half. The additions necessary to make up the total quantities needed are brought in from various other countries. But in these abnormal times the native production of the fighting allies is greatly reduced by the withdrawal of man power from the farms to the armies and munition factories, also by reason of late frosts this year's crop in the United Kingdom, France and Italy is a partial failure. Opportunity to import from certain grain raising countries, as Russia and Rumania, is entirely lacking and from certain others, as Australia, South America and India, is greatly lessened on account of the long haul.

In addition, the actual cereal and meat consumption of the allied countries is increased by the transfer of millions of men from sedentary occupations to those of great physical activity and by the wastage incidental to the feeding of the great armies in the field.

America's duty is set forth by Mr. Hoover thus:

"All those conditions throw on North America the burden of supplying our co-belligerents with the human and animal food necessary to maintain their great armies in fighting condition, as well as to keep alive and efficient the families of the fighters.

**MUST MEET NEEDS.**

"The exports from America necessary to meet these needs, which absolutely must be met if the war is to be won, or even to be carried on at all during the next year, must be immediately greater than they have been in normal times.

"Our wheat prospects for this year are not encouraging. A reasonable forecast would indicate a crop of between 550,000,000 and 700,000,000 bushels. We have never exported more than 500,000,000 bushels of cereals in a year, yet the needs abroad are for twice that amount.

"The moral is clear. Our consumption must be reduced. This can be done, first, by elimination of waste; second, by the substitution for the kinds of food needed by the allies of food not needed, but which we can just as well use as corn for wheat, poultry and eggs for red meat, and so on; third by voluntarily restricting ourselves to a sufficient and sensible ration, which, rather than being hurtful will be of advantage to us physically and morally."

## NO IMPAIRMENT OF RAIL SERVICE

Southern Pacific headquarters in this city has received word that at the meeting of traffic officials in Chicago which began last Tuesday the following resolution was adopted:

"The public is suffering apparently from a good deal of misapprehension as to what the various railroads are likely to do in the matter of train reductions. It is our belief that no railway official has at the moment any serious idea of attempting to go further than to secure the discontinuance of trains and service features which are unnecessary, and we are sure there is no thought of so restricting the service as to abridge the possibilities of free movement of passengers."

The further statement was made that it was desired to assure the public that only unnecessary, and superfluous facilities will be withdrawn and adequate and comfortable train service will be maintained.

## PEACE PARLEY OF TONGS'S FAILURE

Efforts to hold a peace conference by members of the various warring tongs on the coast have been set at naught by the fact that even with the peace banner waving its welcome the tongs leaders are afraid to venture from their hiding places in the various Chinese settlements about the bay.

None of the Oakland tong leaders ventured to go to San Francisco to attend the peace meeting called for last night and neither did the leaders from other centers of tong war activity.

The first real effort to bring about permanent peace was started in Portland, where a meeting was held yesterday at which there was signed an armistice to hold until June 18. In California, however, the sentiment is not greatly in favor of any armistice, and the peace envoys have met with little encouragement.

## TEACHERS TO AID

Arrangements will be made by the members of the City Board of Education so that every employee in the department may acquire a Liberty Bond. The board at its meeting last evening named Treasurer Annie Florence Brown and Secretary Dan W. Pratt as a committee to investigate the proposition.

The board also went on record to the effect that any employee who enlists in the military service may have his position open to him upon return from the colors.

## War Costumes for Women in Local Factories

HERE'S WAR COSTUME.

That women employed in Oakland factories will soon be wearing war costumes was word issued today by the Chamber of Commerce. It's a pair of overalls, rather of the "bloomer" type—serviceable, neat, and very safe from belts and gogweeds. A skirt can be worn to the factory and the "change" made there, according to the factorymen.

And what's more—they're every bit as attractive as the conventional modes, according to the designers of the costume. They're practical, comfortable—and crowning joy—they have pockets—great big ones that you can put a powder puff or a monkey wrench or a package of lunch into.

## NEW LOANS WILL BE MADE ALLIES

WASHINGTON, June 8.—New loans to the allies totaling several hundred million dollars probably will be announced within a few days. The June program is understood to have reached a stage where allotments have been tentatively agreed on. An advance of \$100,000,000 already has been made this month to France.

Representatives of five entente nations—Great Britain, France, Italy, Belgium and Serbia—paid visits upon treasury officials to discuss their financial needs.

Indications are that June loans to the allies will total at least \$400,000,000, which would bring the total advanced them up to \$1,145,000,000 July 1. Expenditures by this government for military and naval needs, it is thought, will swell total expenditures of funds raised under the \$7,000,000,000 war finance law up to \$1,500,000,000 or three-fourths of the Liberty loan, by July 1.

**Whole Wheat and Milk**—the two most perfect foods given to man. Dietetic experts may quarrel about everything else, but they are agreed on this. The proper combination is **Shredded Wheat Biscuit** with milk—the greatest amount of protein (the element that builds muscular tissue) for the least money. Two or three of these Biscuits with milk make a nourishing breakfast on which to start the day's work and they cost only a few cents. A boon to the housewife because they are ready-cooked and ready-to-eat. Delicious with berries or other fruits. Made at Oakland, California.

You are invited to visit our new sunlit, sanitary factory at Oakland.

## S.N. WOOD & CO. 14TH & WASHINGTON - OAKLAND 4TH & MARKET - SAN FRANCISCO

Here are the very Mid-season Garments Oakland women are looking for Right Now!

### Silk Sports Suits

Silk poplin and Italian silk—decidedly smart styles and good colors. **\$7.95**

## Your Floor Problems Solved

If your floors are worn and shabby and you are at a loss how to re-finish them, an easy way to do it is by means of floor paint and a stencil border. By use of this stencil border over a painted surface you can finish your floor artistically so that it will resemble a parquet effect and at the same time harmonize perfectly with the general color scheme of the room. For work of this kind two coats of

## SHERWIN-WILLIAMS INSIDE FLOOR PAINT

will produce the proper finish, the stencil being applied after the second coat is thoroughly dry by means of S-W Stencil Colors. S-W Inside Floor Paint comes in a number of shades and combines durability with quick drying qualities. It can be scrubbed and cleaned without injury to the surface.

We will be glad to talk over this method of floor finishing with you if you will come to our store.

## KEY SYSTEM APPLIES TO RAISE FARE

Application for permission to raise  
its ferry and suburban passenger fare  
has been filed with the State Railroad  
Commission by the San Francisco-Oakland  
Terminal Railway, commonly known as the Key Route system, on account of an alleged deficit  
approximating half a million dollars.

In its petition, which asks for a  
hearing at which to present evidence  
to substantiation of its contention  
the company sets forth the value of  
the operative property affected as  
\$3,304,104, from which the total earn-  
ings for the past sixteen months have  
been \$1,595,043. Operating expenses  
and taxes are placed at \$1,328,893,  
the net earnings being \$266,150. Bond  
interest and fixed charges are said  
to be \$485,398, leaving the direct  
deficit at \$227,447.

To this amount the company adds  
a special charge of \$237,442 for the  
abandonment of an old pier, thereby  
putting down the total deficit as  
\$464,889 for sixteen months' opera-  
tions of the system. A portion, at  
least, of this deficit, is blamed on ad-  
ditional labor expense resorted to for  
the employment of thirty additional  
deck and engine-room officers at a  
cost of \$20,000 additional operating  
expenses. According to the com-  
pany's contents this burden should  
be borne by the public.

COMPANY'S STATEMENT.  
Vice-President and General Man-  
ager W. R. Alberger of the traction  
company, today issued the following  
statement in regard to the corpora-  
tion's position in the matter:

"As a result of the arbitration re-  
cently held in the case of the con-  
troversy between the company and  
its capitalists and mates and its en-  
gineers on the ferries, an opinion  
was rendered by Hon. Maurice T.  
Dooley, Judge of the United States  
District Court, to the effect that, if  
the Key division was already opera-  
ted at a loss, as claimed, it would  
not be fair to require the company  
to make a concession to its ferryboat  
mates which would entail an additional  
expenditure or loss of \$30,000 per  
annum without giving the Railroad  
Commission an opportunity to con-  
sider and pass upon the reasonableness  
and adequacy of the present one-  
way and commutation rates between  
San Francisco and Oakland, Berke-  
ley and other east bay cities served  
by the company."

ASKS FOR HIGHER RATE.  
"The company placed its ferryboat  
men temporarily upon the hours or  
service demanded by them, which  
hours of service were before the arbi-  
tration board, pending an applica-  
tion to the Railroad Commission for  
an investigation and a readjustment  
of its rates."

"This added expense, which, as  
stated, would approximate \$30,000  
per year, together with other in-  
creased expenses, particularly in the  
high cost of materials and supplies,  
has resulted in the company finding  
itself in a position where it could no  
longer continue its application to the  
Railroad Commission."

"The Key division has been an un-  
profitable business for several years.  
The rates of fare charged for service  
between San Francisco and the east  
bay cities can be proven to be lower  
than rates charged for similar ser-  
vice out of many other larger cities  
in the United States, where in most  
cases the service performed is all rail  
as compared with the combined rail  
and boat service of the Key division,  
which naturally is more costly to  
operate."

## SHRINERS TO AID RED CROSS WORK

Aahmes Temple is going to do its part  
to equip the Red Cross Hospital Unit  
that will be furnished by Oakland. Every  
dollar that is paid by the public toward  
the "Patriotic Revue and Ball" of  
Aahmes Temple of the Mystic Shrine  
next Friday evening at the Oakland Mu-  
nicipal Auditorium, will go to that pur-  
pose.

Oakland is to furnish a completely  
equipped Red Cross Hospital Unit. The  
University of California has agreed to  
supply the 31 men that go to make up a  
full ambulance company. The people of  
Oakland must furnish the equipment.

The members of Aahmes Temple of  
the Mystic Shrine have determined to  
follow the advice of president and "do  
their bit" toward this end. "Their bit"  
will consist of donating every dollar of  
the gross proceeds.

The Shriners have not done things by  
halves. Every dollar that is taken in  
and these Shriners will contribute many  
of those dollars themselves--will go to-  
ward furnishing the equipment that 31  
sturdy young men from the University  
of California will take wherever duty calls  
them.

The members of the Shrine will give  
their time in the arrangement of the  
entertainment.  
The members of the Shrine will pay  
their own admissions to the entertain-  
ment.

The public of Oakland is invited to do  
the rest with the knowledge that every-  
thing goes to the cause.  
The evening's entertainment will be  
divided into two parts. The first, of  
something over an hour's duration, will  
be a patriotic spectacle that will appeal  
to everyone. This will be concluded  
at 9:30 o'clock and the rest of the  
evening will be given over to dancing.

The particular features will be an-  
nounced from time to time, but the safe  
thing to do is to set Friday, June 15, for  
the occasion.

## FOR RESERVE BASE

LOS ANGELES, June 5.—Official  
notice has been received from the  
Navy Department by Mayor Wood-  
man of the acceptance of Pier No. 1  
in the outer harbor as location for  
the Naval Coast Defense Reserve, it  
was learned today. One thousand  
men have been ordered to report  
there. The government has ap-  
propriated \$15,000 for equipment.

## FLEE IN NIGHTIES

LOS ANGELES, June 8.—One  
hundred guests, men and women,  
took to the fire-escapes in their  
night clothes today when fire  
in the Yale hotel at Ninth and Hill  
streets brought about a panic among  
the roomers. Dozens of women fled  
from the building in their night-  
gowns and stood by, shivering in the  
cold fog of dawn, while firemen  
brought the blaze under control.

OAKLAND'S STORE THAT UNDERSELLS

## WHY WE CAN AND DO

sell good, clean, staple merchandise cheaper than any other store in Oakland. Because of our connection with  
one of the most powerful buying syndicates on the Pacific Coast, we get the lowest prices. In many instances we  
retail goods at a price that most merchants have to pay for their goods. Because of our location, our cheaper  
rents enabling us to reduce the profit rate in marking our goods.

Because the members of this firm personally conduct this business, thereby eliminating heavy operating cost.  
That is why we CAN and DO sell good, clean, staple merchandise cheaper than any other store in Oakland. Read  
this interesting list for Saturday:

## A Great Sale of Hand-Worked Art Models At About Two-thirds Off the Usual Price

A wonderful assortment of crocheted and embroidered art models from the Royal Society and other com-  
panies. Bought at a tremendous price concession and we offer them at about the price you would have to pay  
for the materials. Each of these articles was executed by an expert needleworker. The line includes practically  
everything that is new and up-to-date in art work.

There are Gowns, Combinations, Corset Covers, Scarfs, Pillows, Infants' Dresses, Kimonos and hundreds  
of other things. The prices are ridiculous considering quality of materials and expert labor.

## CLUBWOMEN IN DISPUTE OVER BOOKS

The atmosphere of the Oakland Club has been disturbed, and several resignations have been threatened, since a formal request from Mrs. Lucien T. Langworthy, a member, that the books of the organization be thoroughly audited, resulted in the president appointing an auditing committee of three to go over the records. Mrs. Frederick R. Hamilton, an auditor for the past two years, has announced that she would resign, and Mrs. Alice Blythe, who shared the office with Mrs. Hamilton, has expressed a similar intention.

It is stated by the club president, Mrs. Edgar L. Ormsby, that the committee was appointed merely to look over the books in order to discover where the club might retrench in making up its budget for next season. The budget system is an innovation introduced very recently and has not yet been tried out by the organization.

**REQUEST IN LETTER.**  
The request for a "thorough auditing of the books" was presented in a letter which was read at a meeting of the board of directors this week. Mrs. H. C. Petray, Mrs. Charles S. Chamberlain and Mrs. Langworthy were then appointed on the new auditing committee and the matter was dropped. When Mrs. Hamilton and Mrs. Smythe heard of the action taken, however, they were unexpectedly indignant.

Mrs. Langworthy explained that her letter was "in no way a reflection on the auditors" but that the annual reports had not been made this season. Mrs. Hamilton, however, declared that she felt it a "slur" on her honesty, and an "insult," that she would never again enter the club.

Mrs. Frank M. Jones, the treasurer, refused to make any statement as to whether the books might be inspected or not. She, too, is said to be offended by the appointment of the committee.

**DENIES TROUBLE.**  
Mrs. Charles S. Chamberlain, for many years a former treasurer of the club, stated that there was "nothing in the disturbance at all," and no reason for either the auditors or Mrs. Jones to resent the action taken. "It was always our policy to keep the books ready for examination at any time and requests to look them over often came," she said. "Our funds are low," she asserted, "and the idea was simply to find out where we could save in making out our new budget."

### Honest Advertising

**THIS** is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be. That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public, and from which he honestly expects to receive his reward.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

**Oakland Plumbing Supply Co.**  
S. E. COR. 7TH AND BROADWAY

## Golfers to Aid Red Cross Sequoyah County Club Plan

An open invitational golf tournament is to be played over the course of the Sequoyah Country Club Sunday for the benefit of the Red Cross, and is attracting considerable attention. The affair is being staged under the direction of President W. F. Rheem of the club and the directors.

More than twenty-five professional players and numbers of amateurs will participate in the tournament. It is estimated that more than 200 persons in all will be represented in the different events. The funds derived from the affair will go as the club's contribution to the work of the local branch of the Red Cross.

Patriotic women who desire to take up a thorough course in first aid, elementary

hygiene, dietetics and bandaging will be given an opportunity through the reorganization of the committee on Red Cross instruction. This information is contained in an announcement issued from the headquarters of the Oakland Chapter of the American Red Cross today. Recruits for enrollment have been asked to report at the committee headquarters so that arrangements for the various classes may be made.

The committee in charge of the work and under whose direction the war preparedness work will be undertaken, comprises the following: Dr. John S. Engle, Grace Alexander Gray, Margaret Wythe, Miss Mary Hall, Miss Jane Wintermute, Miss Emma Shortridge, Miss Lillian L. White and Miss Paul Strasburg.

## REALTORS PLAN BIG CONFERENCE

Real estate dealers from all of the cities and towns of the central part of California will attend a district conference of the California State Realty Federation at Hotel Oakland tomorrow morning, and will participate with the members of the Oakland Real Estate Board, and others of this community, in the festivities at Neptune Beach, Saturday afternoon, which mark the close of Oakland's "Buy-a-Home-First" campaign.

The chief feature of discussion at the federation conference in the morning will be the new Real Estate Brokers' License bill, recently signed by Governor Stephens and which becomes a law of California on July 17. The Oakland Real Estate Board has issued a thousand invitations to realtors of Central California to attend this affair, and the following committee has been appointed:

Invitations and attendance—S. H. Masters (chairman), B. L. Spence, Harry P. Fisher, Games and entertainment—Lewis S. Gear (chairman), Arthur R. Mitchell, R. W. Kittrell, Reception committee—P. W. Morehouse (chairman), George W. Austin, F. F. Porter, Charles M. Wood and J. A. Pizzotti.

## HEN CAUSES FIGHT

When a hen belonging to Mrs. Regina Litton, 1037 Fifth street, wandered into the yard of Mrs. Elsie Meyers, 1041 the same street, there was started trouble that resulted in Mrs. Litton pleading guilty to battery when arraigned today in Judge Samuel's court.

Mrs. Litton agreed to pay for glasses she broke when she caused Mrs. Meyers' eye to color, and was given probation for ninety days.

## POLICEMAN FINED BY COMMISSIONER

Patrolman Milton Emigh was today fined \$250 and placed on probation for the period of one year by Commissioner F. F. Jackson, who sustained charges preferred by Chief of Police Petersen that Patrolman Emigh had "conducted himself in a manner unbecoming an officer" in a public place. Emigh has been under suspension for eleven days, which is in addition to the heavy fine. The order of Commissioner Jackson further provides that the officer shall not partake of liquor in any saloon during his year of probation, with the penalty that his case will be reopened and dismissal from the department follow.

Patrolman Emigh was accused of firing a shot from his revolver in a saloon at 420 Fifteenth street, the bullet striking a picture on a wall and going through the partition. At the hearing before Commissioner Jackson last Wednesday, the testimony was to the effect that the firing of the shot was accidental. Emigh has been in the department for nearly twelve years.

## SHIELDS FREED OF ASSAULT CHARGE

James Shields, a former soldier in the regular army and now a sergeant in the National Guard, accused of assault with a deadly weapon upon George Sherman while he was acting as special police officer in Berkeley, was acquitted shortly after midnight this morning by a jury which had deliberated for seven hours after being charged by Judge F. B. Ogden. The first ballot of the jury stood seven to five for conviction and the deliberations which followed, it is understood, that Shields' position as a potential defender of his country in war was the determining factor in changing the opinion of the jurors who voted to acquit him.

Chief August Vollmer in February of this year. On March 20 he was told to subpoena jurors for the justice court. In the performance of his duty he approached Sherman on University avenue, near Shattuck, and asked for his name and address. Sherman refused to comply and started to run away.

According to the prosecution the shot which followed and which wounded Sherman in the leg was deliberately fired. Shields testified on the witness stand that his revolver was discharged accidentally when he grasped it to prevent it from falling from the holster while he was running after Sherman.

## PRISONERS ARRIVE

Twenty commissioned officers, twelve warrant officers and 250 members of the crew of the German cruiser Cormoran, blown up in the harbor at Guam by its crew on April 7 last, left Oakland today for the Western Pacific, en route to the Federal internment camp at Fort McDowell, Utah. The interned Germans are under guard of a company of United States regulars.

The men arrived yesterday in a Pacific Coast port from Guam, where they have been held since the blowing up of the Cormoran.

## 'TIZ' FOR ACHING, SORE, TIRED FEET

Use "Tiz" for Tender, Puffed-Up, Burning, Calloused Feet and Corns.

People who are forced to stand on their feet all day know what sore, tender, aching, burning feet mean. They use "Tiz," and "Tiz" cures their feet right up. It keeps feet in perfect condition. "Tiz" is the only remedy in the world that draws out all the poisonous excretions, which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "Tiz." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet. Get a 25-cent box of "Tiz" now from any druggist. Just think! A whole year's foot comfort for only 25 cents.—Advertisement.

## PROMISES TO CURB VICE NEAR ARMY

BERKELEY, June 8.—Assurances that the United States will do all in its power to bar vice from the military camps have been received by Mrs. Frederick T. Robinson as president of the Berkeley Mobilized Women's Organization and were reported by her at a largely attended meeting of that body at the Hotel Shattuck yesterday afternoon. Mrs. Robinson presented a letter from Raymond B. Fosdick, who has been appointed chairman of the committee on training camp activities under the department of war.

Chairman Fosdick wrote, "that the training camps shall be free from vice in so far as it is humanly possible to make them so."

One of the departments of the local organization was formed to deal with the problem of vice in the military camps. The letter which evoked Chairman Fosdick's reply was a request to know how this department might assist the government.

More than 500 members of the organization attended the meeting. Mrs. Robinson reported that 5000 men and women of this city had enrolled in the Red Cross, and that the local chapter has \$1000 in its treasury. Herbert Jones, local Red Cross chairman, made the report. He announced that a campaign to raise \$500 for the Red Cross fund of the national organization will be launched in this city June 15. He urged that each member have contributed toward the fund and collect as much more from each of five friends to secure the desired total.

Mrs. Robinson discussed the activities of the Red Cross in Berkeley and especially urged co-operation in the effort to increase the national membership to 1,000,000 by the end of the year. Mrs. Robinson reported the receipt of requests from other cities for details of the formation of the Red Cross. Mrs. Ralph Palmer presented a letter from the department of war thanking the organization for its interest in the welfare of the soldiers. Other speakers were Mrs. R. O. Moody, Mrs. F. B. Lipman, Dr. Harold B. Robinson, president of Mills College, and Mrs. A. S. Cooley.

## DIVIDEND TO BE DECLARED FOR RED CROSS AID

NEW YORK, June 8.—Large American industrial corporations and banking institutions have agreed to declare a special dividend, to be known as the "Red Cross dividend." It was announced here last night by Henry P. Davison, chairman of the Red Cross. The dividend will be paid to holders receiving this extra disbursement will be asked in a blank form to turn the money over to the Red Cross.

The amount of the dividend will be approximately 1 per cent of the capital stock of each corporation, Davison said. He pointed out that in the case of the United States Steel Corporation, for example, the sum which would accrue to the Red Cross would be about \$5,500,000.

## SECRETARIES OF COAST ORGANIZE

Formal organization of the Coast Counties Branch of the Commercial Secretaries' Association of California, was effected at a Hotel Oakland today. The membership includes secretaries of commercial and industrial organizations of counties ranging from Humboldt to San Benito, representatives of many of which were present.

The meeting was presided over by Managing Director Joseph E. Caine of the Oakland Chamber of Commerce. Proceedings opened with a noon luncheon at the hotel followed by an organization meeting, under direction of James T. Brooks of the San Jose Chamber of Commerce. Walter Nagle of the Santa Rosa Chamber of Commerce.

The outlined purpose of the organization was to provide ways and means of assisting the government and the State Council of Defense in carrying out the national protective program. The new organization will work for a co-operation of activities among the various counties affected in accordance with plans already formulated by the state organization.

## WOMAN RECOVERS MEMORY; MYSTERY

Mystery continues to surround the case of Mrs. Louise Lorenzen, 25-year-old housewife of 1145 Kirkham street, who was taken under the protection of Patrolman T. F. O'Neil in the early morning hours Thursday after strange demeanor on a Twelfth street car and who appeared to suffer from partial loss of memory due to ill-treatment.

Although placed upon the street car by two strange men at Twelfth and Poplar streets, seemingly after a struggle, Mrs. Lorenzen acted in such a manner that J. Mattos, conductor, called Patrolman O'Neil on rescuing Broadway and had her placed in the Central Emergency Hospital.

According to Steward C. Emlay, on duty at the time she entered the hospital, she was able to answer some questions normally while others elicited no response. Her appearance was partially that of a drugged woman. Emlay says that she was not intoxicated. Yesterday morning when she left the hospital her manner was normal and she gave her name and address in clear tones to Dr. H. E. Frank.

## ASKS DAMAGES FROM MERCHANT

Alleging that Elijah J. Campin, a grocer of 315 Fourteenth street, maliciously assaulted her in her apartment at 1504 Alice street on June 4 and tore her clothing, Mrs. Ida Madeline McCutcheon, widow of C. L. McCutcheon, a New York merchant killed in an automobile accident two years ago, filed suit this morning for \$10,000 damages. The complaint contains no further details of the incident upon which the suit is based, according to her attorney, T. L. Christensen, the plaintiff had become acquainted with Campin as a customer in his store. She had spoken to him several times in regard to obtaining her portion of insurance under an apartment house. On Monday night, according to the attorney, Campin called her up on the telephone, informed her that he had secured her a position, and asked permission to call immediately upon his arrival, it is alleged, he seized her by the arms.

## DELEGATES TO BE NAMED BY JEWS

Elections will be held here Sunday for the purpose of selecting two delegates to the American Jewish Congress, in session September 1 at Washington. The purpose of this gathering is to concentrate in a national body the religious and sociological wishes of United States Jews. According to a proclamation, issued by the Jewish Congress Committee, the assembly will "deliberate plans and formulate rules for the preservation of the Jews in those countries where the present war has almost destroyed them."

Similar congresses will be held in all other countries at the same time. The fate of the Jewish people may rest upon the success or non-success of the international conventions to harmonize national customs. I. W. Heflin, Harry J. Kohn, Noah Mischkowsky and Rev. Dr. Jacob Nieto are the four candidates in the bay region.

Polling places have been selected as follows: Judean club rooms, Pacific building, Sixteenth and Jefferson streets, precinct No. 1. All members of Temple Sinai, Daughters of Israel, Fruit and Flower Mission, Independent Order B'nai B'rith and Judeans will cast their votes here. Precinct No. 2 is listed at Congregation Beth Jacob, Ninth and Castro streets. All members in Alameda county of Congregation Beth Jacob, Oakland Zion Society, Free Loan Association, Adassah Club, Chevra Kadusha, Chevra Shalom, Congregation B'nai Abraham, Free Sons of Israel and Order of B'nai Abraham will register their votes at this precinct.

Precinct No. 3, at 581 Seventh street, will cast for the ballots of Alameda, Berkeley, San Leandro, Hayward and unaffiliated Jews. The general election board for this district includes Otto Irving Wise, Harry K. Wolff, Kaplan, Leon Makover, A. Seelenfied, M. Jonas and Jacob Nieto.

## BREAD LOAF IS TO BE STANDARD

Bread loaves sold in Oakland will have to conform to the standard size as provided for in the newly-adopted State laws, or heavy penalties will be exacted, an ordinance regulating the sale of the commodity having been introduced in the city council today. M. P. Scott, deputy county sealer of weights and measures, stated that the department desires to have a concrete legislation work under, in view of the fact that the State act does not provide for any penalty for violation. The police department is authorized to enforce the law. The standard weight for bread are 12 ounces for a small loaf and 24 ounces for a double loaf.

## TANK EXPLODES

SAN FRANCISCO, June 8.—Exploding in detonations, heard throughout the city, a tank exploded at one of the tents of an oil tank before the mixing plant of Magner Brothers, paint dealers, at 257 Vallejo street, covered the body of Fred Aldren, an employee, who had been instantly killed by the concussion, and before aid could be given, burned it to a crisp.

Alden, an employee, had been employed but a few days by the paint firm. It is not known what he was doing near the tank, but witnesses say that he was near the receptacle when the accident occurred. The explosion could be heard all over the northern end of the city.

## SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let feline step on your foot hereafter, wear shoes a size smaller if you like, for cats will never again send electric sparks of pain through you, according to this Cincinnati authority. He says that a few drops of a drug called frezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

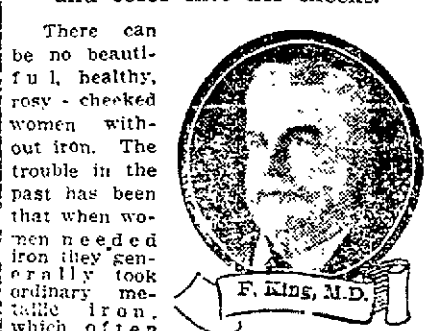

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of frezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.—Advertisement.

**Dr. Ferdinand King, New York Physician and Medical Author, Says**

**EVERY WOMAN EVERY MOTHER EVERY DAUGHTER NEEDS IRON AT TIMES**

To put strength into her nerves and color into her cheeks.

There can be no beautiful, healthy, rosy-cheeked women without iron. The trouble in the past has been that when women needed iron they generally took ordinary medicine. Now, however, which often corroded the stomach and did far more harm than good. Today doctors prescribe organic iron—Nuxated Iron. This particular form of iron is easily assimilated, does not blacken up the teeth, nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, haggard-looking women 100 per cent in two weeks' time in many instances. I have used it in my own practice with most surprising results.

**NOTE: NUXATED IRON** recommended above by Dr. Ferdinand King can be obtained from any good druggist with an absolute guarantee of satisfaction or money refunded. It is dispensed in this city by The Owl Drug Co. and all good druggists.—Advertisement.

## POLICE PROBE MYSTERY OF AUTO MISHAP

Police inspectors are today investigating the mystery of what is believed to have been an automobile accident in Grand avenue, near Lee street, shortly after midnight, when a boy was heard screaming and a voice saying: "Get in here; you are with friends."

Mrs. H. T. Bradley of 302 Grand avenue reported the circumstances to the police, stating that she had heard the screams and the man speaking apparently to the boy. No report of a missing boy has been made to the police, nor has there been any report of an accident in the neighborhood.

## WELCOMING ARCH! PLANS ARE HEARD

Plans for the erection of an arch of welcome over the Lincoln highway at the city limits were laid at a meeting of the Lincoln highway committee of the Oakland Chamber of Commerce at the Hotel Oakland at noon today. F. A. Williamson, chairman of the committee, presided.

The plan is to place the arch as a memorial to the work accomplished in building the great transcontinental highway, an appreciation to its builders and a welcome from Oakland, the western terminus of the roadway. The financing of the operation will be in the hands of the Chamber of Commerce under a plan of campaign outlined at the meeting.

## F. M. SMITH MAY GO TO GOLDFIELDS

Indication of a possible trip to Central America gold fields, where fortunes are sometimes gleaned over night, has been given by F. M. Smith, former Texas king and east bay financier, who has been making arrangements preliminary to securing passports to the South from New Orleans some time this month. Smith called at the Federal passport bureau in San Francisco yesterday accompanied by Peter J. McKenzie, a friend and business associate, and inquired regarding transportation and clearance papers. At his offices in the Syndicate building in this city it was admitted that such inquiries had been made, but it was said that no date for the trip had been fixed.

Smith has been receiving samples of ore from several Central and South American mining properties for some time. It is generally known that he has been interested in this direction. Smith was formerly one of the biggest financiers in the bay district. His original fortune was wrung from Death Valley borax fields through his borax products and the "Twenty-Mule Team." Later Smith's fortune became involved in litigation, along with the Key Route and other holdings which he financed.

## NEW WAR CENSOR

WASHINGTON, June 8.—Brigadier-General Frank McIntyre was today appointed unofficial war department censor, succeeding Major Douglas MacArthur, who has held the post since the American troops crossed the border into Mexico, March 15, 1916. Major MacArthur will be assigned a command in the American expeditionary force that will be on its way to France soon.

## Trust Me! Try Dodson's Liver Tone!

### Calomel Harms Liver and Bowels

Read my guarantee! Liven your liver and bowels and get straightened up without taking sickening calomel. Don't lose a day's work!

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless. Calomel is a dangerous drug. It is poisoning you—Advertisement.

## Listen Ladies!

WE offer you something that has solved all baking problems in millions of homes—that is economical to buy and economical to use and we do not believe the shrewd housewife of OAKLAND will refuse to test the truth of these statements.

Manufacturers of other brands of baking powder know better than anyone else how good Calumet Baking Powder really is.

They know it is pure and wholesome and that in a great majority of cases when a housewife has tried Calumet she will use nothing else. Consequently they attempt to prevent a trial wherever possible.

They are actuated by purely selfish motives—they fear you will quit buying what they have to offer and use something that may prove to be a great deal better.

Watch for the Calumet demonstrator. Learn the facts about baking powder and then decide for yourself. You can try Calumet—at our risk. If it isn't the best baking powder you ever had in your kitchen it won't cost you a penny.

The exceptional merit of Calumet is proved by the efforts of competitors to prevent a trial.

Calumet contains only such ingredients as have been approved officially by the U. S. Food & Medicine.

You save when you buy it.  
You save when you use it.

## EAT LESS, URGED BY FOOD CHIEF

WASHINGTON, June 8.—Herbert C. Hoover's report to the government on what the United States must do to sustain its allies with food, shows that the allies and a few neutrals which must be considered, require during the next year a billion bushels of cereals alone and that their needs of meat, fats and sugar also will be enormous.

Production in the allied countries can meet only a portion of these needs. America's surplus on the present scale of consumption will not meet the deficiency, Hoover says, so he points out that the enormity of the task requires reduction of home consumption in many ways.

The report closes with an appeal to the American people to assist the food administration in its efforts to increase production and to conserve supplies.

"We are at war," it says. "We must do what success in war demands. He also fights who helps a fighter fight. That is the way we can all help in the war, and if we don't help the war will not be won." The situation abroad was outlined by Hoover as follows:

**BRITAIN'S CASE.**  
"Great Britain normally raises about one-fourth of the grain she needs for her bread, France about one-half. The additions necessary to make up the total quantities needed are brought in from various other countries. But in these abnormal times the native production of the fighting allies is greatly reduced by the withdrawal of man power from the farms to the armies and munition factories, also by reason of late frosts this year's crop in the United Kingdom, France and Italy is a partial failure. Opportunity to import from certain grain raising countries, as Russia and Rumania, is entirely lacking and from certain others, as Australia, South America and India, is greatly lessened on account of the long haul.

In addition, the actual cereal and meat consumption of the allied countries is increased by the transfer of millions of men from sedentary occupations to those of great physical activity and by the wastage incident to the feeding of the great armies in the field.

America's duty is set forth by Mr. Hoover thus:

"All those conditions throw on North America the burden of the supply of our co-belligerents with the human and animal food necessary to maintain their great armies in fighting condition, as well as to keep alive and efficient the families of the fighters."

**MUST MEET NEEDS.**  
"The exports from America necessary to meet these needs, which absolutely must be met if the war is to be won, or even to be carried on at all during the next year, must be immediately greater than they have been in normal times.

"Our wheat prospects for this year are not encouraging. A reasonable forecast would indicate a crop of between 650,000,000 and 700,000,000 bushels. We have never exported more than 500,000,000 bushels of cereals in a year, yet the needs abroad are for twice that amount. Our consumption must be reduced. This can be done, first, by elimination of waste, second, by the substitution of kinds of food needed by the allies of food not so needed, but which we can just as well use as corn for wheat, poultry and eggs for red meat, and so on, third by voluntarily restricting ourselves to a sufficient and sensible ration, which, rather than being hurtful, will be of advantage to us physically and morally."

## NO IMPAIRMENT OF RAIL SERVICE

Southern Pacific headquarters in this city has received word that at the meeting of traffic officials in Chicago which began last Tuesday, the following resolution was adopted:

"The public is offering apparently from a good deal of misapprehension as to what the various railroads are likely to do in the matter of train reductions. It is our belief that no railway official has at the moment any serious idea of attempting to go further than to secure the discontinuance of trains and service features which are unnecessary, and we are sure there is no thought of so restricting the service as to deprive the public of free movement of passengers."

The further statement was made that it was desired to assure the public that only unnecessary and superfluous facilities will be withdrawn, and that the most comfortable train service will be maintained.

## PEACE PARLEY OF TONGS IS FAILURE

Efforts to hold a peace conference by members of the various warring tongs on the coast have been set at naught by the fact that even with the peace banner waving its welcome the tong leaders are afraid to venture from their hiding places in the various Chinese settlements about the bay.

None of the Oakland tong leaders ventured to go to San Francisco to attend the peace meeting called for last night and neither did the leaders from other centers of tong war activity.

The first real effort to bring about permanent peace was started in Portland, where a meeting was held yesterday at which there was signed an armistice to hold until June 18. In California, however, the sentiment is not greatly in favor of any armistice, and the peace envoys have met with little encouragement.

## TEACHERS TO AID

Arrangements will be made by the members of the City Board of Education so that every employee in the department may acquire a Liberty Bond. The board at its meeting last evening named President Annie Florence Brown and Secretary Dan W. Pratt as a committee to investigate the proposition.

The board also went on record to the effect that any employee who enlists in the military service may have his position open to him upon return from the colors.

## War Costumes for Women in Local Factories

HERE'S WAR COSTUME.

That women employed in Oakland factories will soon be wearing war costumes was word issued today by the Chamber of Commerce. It's a pair of overalls, rather of the "bloomer" type—serviceable, neat, and very safe from belts and corsets. A skirt can be worn to the factory, and the "change" made there, according to the factorymen.

And what's more—they're every bit as attractive as the conventional dresses, according to the designers of the costumes. They're practical, comfortable and crowning joy—they have pockets—great big ones that you can put a powder puff or a monkey-wrench or a package of lunch into.

## NEW LOANS WILL BE MADE ALLIES

WASHINGTON, June 8.—New loans to the allies totaling several hundred million dollars probably will be announced within a few days. The June program is understood to have reached a stage where allotments have been tentatively agreed on. An advance of \$100,000,000 already has been made this month to France.

Representatives of five entente nations—Great Britain, France, Italy, Belgium and Serbia—paid visits upon treasury officials to discuss their financial needs.

Indications are that June loans to the allies will total at least \$400,000,000, which would bring the total advanced them up to \$1,145,000,000 July 1. Expenditures by this government for military and naval needs, it is thought, will swell total expenditures of funds raised under the \$2,000,000,000 war finance law up to \$1,500,000,000 or three-fourths of the Liberty loan, by July 1.

**Whole Wheat and Milk**—the two most perfect foods given to man. Dietetic experts may quarrel about everything else, but they are agreed on this. The proper combination is **Shredded Wheat Biscuit** with milk—the greatest amount of protein (the element that builds muscular tissue) for the least money. Two or three of these Biscuits with milk make a nourishing breakfast on which to start the day's work and they cost only a few cents. A boon to the housewife because they are ready-cooked and ready-to-eat. Delicious with berries or other fruits. Made at Oakland, California.

You are invited to visit our new, sunlit, sanitary factory at Oakland.

**PALMER'S 3 TOPICS**  
"What the World Owe England," "Scotland, Mother of Spiritual Pioneers," and "Ireland's Mission in the World," are the topics of three addresses to be given by Rev. Albert W. Palmer at Plymouth church on the last three Sunday evenings of June. The musical program each Sunday evening will be made up of the folk songs of the particular country under discussion. These are the closing sermons in a series on "The Glory and Honor of the Nations." France, Germany, Russia and the United States have already been presented.

**CHARGES SISTER**  
CHICAGO, June 8.—Mrs. Josephine Trine filed a praecipe in a suit for \$5000 damages against Mrs. Mary Friedrick, her sister, in the Circuit Court yesterday, charging slander. They live in Lyons, next door to each other, and it is alleged by the attorney for Mrs. Trine that the defendant has been spreading reports against her sister's character for several years.

## Your Floor Problems Solved

If your floors are worn and shabby and you are at a loss how to re-finish them, an easy way to do it is by means of floor paint and a stencil border. By use of this stencil border over a painted surface you can finish your floor artistically so that it will resemble a parquet effect and at the same time harmonize perfectly with the general color scheme of the room. For work of this kind two coats of

## SHERWIN-WILLIAMS INSIDE FLOOR PAINT

will produce the proper finish, the stencil being applied after the second coat is thoroughly dry by means of S-W Stencil Colors. S-W Inside Floor Paint comes in a number of shades and combines durability with quick drying qualities. It can be scrubbed and cleaned without injury to the surface.

We will be glad to talk over this method of floor finishing with you if you will come to our store.

## CLUBWOMEN IN DISPUTE OVER BOOKS

The atmosphere of the Oakland Club has been disturbed, and several resignations have been threatened, since a formal request from Mrs. Lucien T. Langworthy, a member, that the books of the organization be thoroughly audited, resulted in the president appointing an auditing committee of three to go over the records. Mrs. Frederick R. Hamilton, an auditor for the past two years, has announced that she would resign, and Mrs. Alice Blythe, who shared the office with Mrs. Hamilton, has expressed a similar intention.

It is stated by the club president, Mrs. Edgar L. Ormsby, that the committee was appointed merely to look over the books in order to discover where the club might retrench in making up its budget for next season. The budget system is an innovation introduced very recently and has not yet been tried out by the organization.

**REQUEST IN LETTER.**  
The request for a "thorough auditing of the books" was presented in a letter which was read at a meeting of the board of directors this week. Mrs. H. C. Petray, Mrs. Charles S. Chamberlain and Mrs. Langworthy were then appointed on the new auditing committee and the matter was dropped. When Mrs. Hamilton and Mrs. Smythe heard of the action taken, however, they were unexpectedly indignant.

Mrs. Langworthy explained that her letter was "in no way a reflection on the auditors" but that the annual reports had not been made this season. Mrs. Hamilton, however, declared that she felt it a "slur" on her honesty, and an "insult," that she would never again enter the club.

Mrs. Frank M. Jones, the treasurer, refused to make any statement as to whether the books might be inspected or not. She, too, is said to be offended by the appointment of the committee.

**DENIES TROUBLE.**  
Mrs. Charles S. Chamberlain, for many years a former treasurer of the club, stated that there was "nothing in the disturbance at all," and no reason for either the auditors or Mrs. Jones to resent the action taken. "It was always our policy to keep the books ready for examination at any time and requests to look them over often came," she said. "Our funds are low," she asserted, "and the idea was simply to find out where we could save in making out our new budget."

### Honest Advertising

**THIS** is a topic we all hear now-a-days because so many people are inclined to exaggerate. Yet has any physician told you that we claimed unreasonable remedial properties for Fletcher's Castoria? Just ask them. We won't answer it ourselves, we know what the answer will be. That it has all the virtues to-day that was claimed for it in its early days is to be found in its increased use, the recommendation by prominent physicians, and our assurance that its standard will be maintained.

Imitations are to be found in some stores and only because of the Castoria that Mr. Fletcher created. But it is not the genuine Castoria that Mr. Fletcher honestly advertised, honestly placed before the public, and from which he honestly expects to receive his reward.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

## To The Public

The following, together with many other tenants of the New Free Market, Sixth and Washington streets, were forced to vacate on June 1st:

## Golfers to Aid Red Cross Sequoiah County Club Plan

An open invitational golf tournament is to be played over the course of the Sequoiah Country Club Sunday for the benefit of the Red Cross, and is attracting considerable attention. The affair is being staged under the direction of President W. F. Rheem of the club and the directors.

More than twenty-five professional players and numbers of amateurs will participate in the tournament. It is estimated that more than 200 persons in all will be represented in the different events. The funds derived from the affair will go as the club's contribution to the work of the local branch of the Red Cross.

Patriotic women who desire to take up a thorough course in first aid, elementary

hygiene, dietetics and bandaging will be given an opportunity through the reorganization of the committee on Red Cross instruction. This information is contained in an announcement issued from the headquarters of the Oakland Chapter of the American Red Cross today. Recruits for enrollment have been asked to report at the committee headquarters so that arrangements for the various classes may be made.

The committee in charge of the work and under whose direction the war preparedness work will be undertaken, comprises the following: Dr. John S. Engs, Grace Alexander Gray, Margaret Wythe, Miss Mary Hall, Miss Jane Wintermute, Miss Emma Shortridge, Miss Lillian L. White and Miss Paul Strasburg.

## REALTORS PLAN BIG CONFERENCE

Real estate dealers from all of the cities and towns of the central part of California will attend a district conference of the California State Realty Federation at Hotel Oakland tomorrow morning, and will participate with the members of the Oakland Real Estate Board, and others of this community, in the festivities at Neptune Beach, Saturday afternoon, which mark the close of Oakland's "Buy-a-Home-First" campaign.

The chief feature of discussion at the federation conference in the morning will be the new Real Estate Brokers' License bill, recently signed by Governor Stephens and which becomes a law of California on July 17. The Oakland Real Estate Board has issued a thousand invitations to realtors of Central California to attend this affair, and the following committee has been appointed:

Invitations and attendance—S. H. Masters (chairman), B. L. Spence, Harry P. Fisher, Games and entertainment—Lewis S. Gear (chairman), Arthur R. Mitchell, R. W. Kittrell, Reception committee—P. W. Morehouse (chairman), George W. Austin, F. F. Porter, Charles M. Wood and J. A. Pizzotti.

## HEN CAUSES FIGHT

When a hen belonging to Mrs. Regina Litton, 1037 Fifth street, wandered into the yard of Mrs. Elsie Meyers, 1041 the same street, there was started trouble that resulted in Mrs. Litton pleading guilty to battery when arraigned today in Judge Samuel's court.

Mrs. Litton agreed to pay for glasses she broke when she caused Mrs. Meyers' eye to color, and was given probation for ninety days.

## POLICEMAN FINED BY COMMISSIONER

Patrolman Milton Emigh was today fined \$250 and placed on probation for the period of one year by Commissioner F. F. Jackson, who sustained charges preferred by Chief of Police Petersen that Patrolman Emigh had "conducted himself in a manner unbecoming an officer" in a public place. Emigh has been under suspension for eleven days, which is in addition to the heavy fine. The order of Commissioner Jackson further provides that the officer shall not partake of liquor in any saloon during his year of probation, with the penalty that his case will be reopened and dismissal from the department follow.

Patrolman Emigh was accused of firing a shot from his revolver in a saloon at 420 Fifteenth street, the bullet striking a picture on a wall and going through the partition. At the hearing before Commissioner Jackson last Wednesday, the testimony was to the effect that the firing of the shot was accidental. Emigh has been in the department for nearly twelve years.

## SHIELDS FREED OF ASSAULT CHARGE

James Shields, a former soldier in the regular army and now a sergeant in the National Guard, accused of assault with a deadly weapon upon George Sherman while he was acting as special police officer in Berkeley, was acquitted shortly after midnight this morning by a jury which had deliberated for seven hours after being charged by Judge F. B. Ogden. The first ballot of the jury stood seven to five for conviction and the deliberations which followed, it is understood, that Shields' position as a potential defender of his country in war was the determining factor in changing the opinion of the jurors who voted to acquit him.

Chief August Vollmer in February of this year. On March 20 he was told to subpoena jurors for the justice court. In the performance of his duty he approached Sherman on University avenue, near Shattuck, and asked for his name and address. Sherman refused to comply and started to run away.

According to the prosecution the shot which followed and which wounded Sherman in the leg was deliberately fired. Shields testified on the witness stand that his revolver was discharged accidentally when he grasped it to prevent it from falling from the holster while he was running after Sherman.

## PRISONERS ARRIVE

Twenty commissioned officers, twelve warrant officers and 250 members of the crew of the German cruiser Cormoran, blown up in the harbor at Guam by its crew on April 7 last, left Oakland today for the Western Pacific, en route to the Federal internment camp at Fort McDowell, Utah. The interned Germans are under guard of a company of United States regulars.

The men arrived yesterday in a Pacific Coast port from Guam, where they have been held since the blowing up of the Cormoran.

**DIRECTS PLAYGROUND.**  
ALAMEDA, June 8.—A. C. Benton, the new playground superintendent, has assumed his position. He will have both a police and clerical head of the department. Miss Elizabeth Walden, who has been substitute supervisor and secretary of the department, will hereafter be substitute supervisor.

## 'TIZ' FOR ACHING, SORE, TIRED FEET

Use "Tiz" for Tender, Puffed-Up, Burning, Calloused Feet and Corns.

"Tiz" makes my feet smaller.

People who are forced to stand on their feet all day know what sore, tender, aching, burning feet mean. They use "Tiz," and "Tiz" cures their feet right up. It keeps feet in perfect condition. "Tiz" is the only remedy in the world that draws out all the poisonous excretions, which puff up the feet and cause tender, sore, tired, aching feet. It instantly stops the pain in corns, callouses and bunions. It's simply glorious. Ah! how comfortable your feet feel after using "Tiz." You'll never limp or draw up your face in pain. Your shoes won't tighten and hurt your feet.

Get a 25-cent box of "Tiz" now from any druggist. Just think! A whole year's foot comfort for only 25 cents.—Advertisement.

## PROMISES TO CURB VICE NEAR ARMY

BERKELEY, June 8.—Assurances that the United States will do all in its power to bar vice from the military camps have been received by Mrs. Frederick T. Robinson as president of the Berkeley Mobilized Women's Organization and were reported by her at a largely attended meeting of that body at the Hotel Shattuck yesterday afternoon. Mrs. Robinson presented a letter from Raymond B. Fosdick, who has been appointed chairman of the committee on training camp activities under the department of war.

Chairman Fosdick wrote, "that the training camps shall be free from vice in so far as it is humanly possible to make them so."

One of the departments of the local organization was formed to deal with the problem of vice in the military camps. The letter which evoked Chairman Fosdick's reply was a request to know how this department might assist the government.

More than 500 members of the organization attended the meeting. The Berkeley Red Cross committee reported that 5000 men and women of this city had enrolled in the Red Cross, and that the local chapter has \$1000 in its treasury. Herbert Jones, local Red Cross chairman, made the report. He announced that a campaign to raise \$500 for the Red Cross fund of the national organization will be launched in this city June 15. He urged that each member have contributed toward the fund and collect as much more from each of five friends to secure the desired total.

Miscellaneous Hereth discussed the activities of the Red Cross in Berkeley and especially urged co-operation in the effort to increase the national membership to 1,000,000 by the end of the year. Mrs. Robinson reported the receipt of requests from other cities for details of the formation of the Berkeley chapter. Ralph Palmer Merritt presented a letter from the department of war thanking the organization for its interest in the welfare of the soldiers. Other speakers were Mrs. R. O. Moody, Mrs. F. B. Lipman, Dr. Harold C. Richmond, president of Mills College, and Mrs. A. S. Cooley.

## DIVIDEND TO BE DECLARED FOR RED CROSS AID

NEW YORK, June 8.—Large American industrial corporations and banking institutions have agreed to declare a special dividend, to be known as the "Red Cross dividend." It was announced here last night by Henry P. Davison, chairman of the Red Cross. The dividend, which will be paid to the Red Cross, will be a sum of \$5,500,000.

## SECRETARIES OF COAST ORGANIZE

Formal organization of the Coast Counties Branch of the Commercial Secretaries' Association of California, was effected at a Hotel Oakland today. The membership includes secretaries of commercial and industrial organizations of counties ranging from Humboldt to San Benito, representatives of many of which were present.

The meeting was presided over by Managing Director Joseph E. Caine of the Oakland Chamber of Commerce. Proceedings opened with a noon luncheon at the hotel followed by an organization meeting, under direction of James T. Brooks of the San Jose Chamber of Commerce. Walter Nagle of the Santa Rosa Chamber of Commerce.

The outlined purpose of the organization was to provide ways and means of assisting the government and the State Council of Defense in carrying out the national protective program. The new organization will work for a co-operation of activities among the various counties affected in accordance with plans already formulated by the state organization.

## WOMAN RECOVERS MEMORY; MYSTERY

Mystery continues to surround the case of Mrs. Louise Lorenzen, 25-year-old housewife of 1145 Kirkham street, who was taken under the protection of Patrolman T. F. O'Neil in the early morning hours Thursday after strange demeanor on a Twelfth street car and who appeared to suffer from partial loss of memory due to ill-treatment.

Although placed upon the street car by two strange men at Twelfth and Poplar streets, seemingly after a struggle, Mrs. Lorenzen acted in such a manner that J. Mattos, conductor, called Patrolman O'Neil on rescuing Broadway and had her placed in the Central Emergency Hospital.

According to Steward C. Emloy, on duty at the time she entered the hospital, she was able to answer some questions normally while others elicited no response. Her appearance was partially that of a drugged woman. Emloy says that she was not intoxicated. Yesterday morning when she left the hospital her manner was normal and she gave her name and address in clear tones to Dr. H. E. Frank.

## ASKS DAMAGES FROM MERCHANT

Alleging that Elijah J. Campin, a grocer of 315 Fourteenth street, maliciously assaulted her in her apartment at 1504 Alce street on June 4 and tore her clothing, Mrs. Ida Madeline McCutcheon, widow of C. L. McCutcheon, a New York merchant killed in an automobile accident two years ago, filed suit this morning for \$10,000 damages. The complaint contains no further details of the incident upon which the suit is based, according to her attorney, T. L. Christensen, the plaintiff had become acquainted with Campin as a customer in his store. She had spoken to him several times in regard to obtaining her portion of money under an apartment house. On Monday night, according to the attorney, Campin called her up on the telephone, informed her that he had secured her a position, and asked permission to call immediately upon his arrival, it is alleged, he seized her by the arms.

## DELEGATES TO BE NAMED BY JEWS

Elections will be held here Sunday for the purpose of selecting two delegates to the American Jewish Congress, in session September 1 at Washington. The purpose of this gathering is to concentrate in a national body the religious and sociological wishes of United States Jews. According to a proclamation, issued by the Jewish Congress Committee, the assembly will "deliberate plans and formulate rules for the preservation of the Jews in those countries where the present war has almost destroyed them."

Similar congresses will be held in all other countries at the same time. The fate of the Jewish people may rest upon the success or non-success of the international conventions to harmonize national customs. I. W. Heflin, Harry J. Kohn, Noah Mischkowsky and Rev. Dr. Jacob Nieto are the four candidates in the bay region.

Polling places have been selected as follows: Judean club rooms, Pacific building, Sixteenth and Jefferson streets, precinct No. 1. All members of Temple Sinai, Daughters of Israel, Fruit and Flower Mission, Independent Order B'nai B'rith and Judeans will cast their votes here. Precinct No. 2 is listed at Congregation Beth Jacob, Ninth and Castro streets. All members in Alameda county of Congregation Beth Jacob, Oakland Zion Society, Free Loan Association, Adassah Club, Chevra Kadusha, Chevra B'nai Mitzvah, Congregation B'nai Abraham, Free Sons of Israel and Order of B'nai Abraham will register their votes at this precinct.

Precinct No. 3, at 581 Seventh street, will cast for the ballots of Alameda, Berkeley, San Leandro, Hayward and unaffiliated Jews. The general election board for this district includes Otto Irving Wise, Harry K. Wolff, Kaplan, Leon Makover, A. Seelenfied, M. Jonas and Jacob Nieto.

## BREAD LOAF IS TO BE STANDARD

Bread loaves sold in Oakland will have to conform to the standard size as provided for in the newly-adopted State laws, or heavy penalties will be exacted, an ordinance regulating the sale of the commodity having been introduced in the city council today. M. P. Scott, deputy county sealer of weights and measures, stated that the department desires to have a concrete legislation work under, in view of the fact that the State act does not provide for any penalty for violation. The police department is authorized to enforce the law. The standard weight for bread are 12 ounces for a small loaf and 24 ounces for a double loaf.

## TANK EXPLODES

SAN FRANCISCO, June 8.—Exploding in detonations, heard throughout the city, a tank exploded at one of the tents of an oil tank before the mixing plant of Magner Brothers, paint dealers, at 257 Vallejo street, covered the body of Fred Aldren, an employee, who had been instantly killed by the concussion, and before aid could be given, burned it to a crisp.

Alden, an employee, had been employed but a few days by the paint firm. It is not known what he was doing near the tank, but witnesses say that he was near the receptacle when the accident occurred. The explosion could be heard all over the northern end of the city.

## SUFFERING CATS! GIVE THIS MAN THE GOLD MEDAL

Let feline step on your foot hereafter, wear shoes a size smaller if you like, for cats will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called frezone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out. This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of frezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.—Advertisement.

Dr. Ferdinand King, New York Physician and Medical Author, Says

## EVERY WOMAN EVERY MOTHER EVERY DAUGHTER NEEDS IRON AT TIMES

To put strength into her nerves and color into her cheeks.

There can be no beautiful, healthy, rosy-checked women without iron. The trouble in the past has been that when women needed iron they generally took ordinary medicine. It is iron which often corroded the stomach and did far more harm than good. Today doctors prescribe organic iron—Nuxated Iron. This particular form of iron is easily assimilated, does not blacken up the teeth, nor upset the stomach. It will increase the strength and endurance of weak, nervous, irritable, careworn, harassed-looking women 100 per cent in two weeks' time in many instances. I have used it in my own practice with most surprising results.

**NOTE:** NUXATED IRON recommended above by Dr. Ferdinand King can be obtained from any good druggist with an absolute guarantee of satisfaction or money refunded. It is dispensed in this city by The Owl Drug Co. and all good druggists.—Advertisement.

## POLICE PROBE MYSTERY OF AUTO MISHAP

Police inspectors are today investigating the mystery of what is believed to have been an automobile accident in Grand avenue, near Lee street, shortly after midnight, when a boy was heard screaming and a voice saying: "Get in here; you are with friends."

Mrs. H. T. Bradley of 302 Grand avenue reported the circumstances to the police, stating that she had heard the screams and the man speaking apparently to the boy. No report of a missing boy has been made to the police, nor has there been any report of an accident in the neighborhood.

## WELCOMING ARCH PLANS ARE HEARD

Plans for the erection of an arch of welcome over the Lincoln highway at the city limits were laid at a meeting of the Lincoln highway committee of the Oakland Chamber of Commerce at the Hotel Oakland at noon today. F. A. Williamson, chairman of the committee, presided.

The plan is to place the arch as a memorial to the work accomplished in building the great transcontinental highway, an appreciation to its builders and a welcome from Oakland, the western terminus of the roadway. The financing of the operation will be in the hands of the Chamber of Commerce under a plan of campaign outlined at the meeting.

## F. M. SMITH MAY GO TO GOLDFIELDS

Indication of a possible trip to Central America gold fields, where fortunes are sometimes gleaned over night, has been given by F. M. Smith, former Texas king and east bay financier, who has been making arrangements preliminary to securing passports to the South from New Orleans some time this month. Smith called at the Federal passport bureau in San Francisco yesterday accompanied by Peter J. McKenzie, a friend and business associate, and inquired regarding transportation and clearance papers. At his offices in the Syndicate building in this city it was admitted that such inquiries had been made, but it was said that no date for the trip had been fixed.

Smith has been receiving samples of ore from several Central and South American mining properties for some time. It is generally known that he has been interested in this direction. Smith was formerly one of the largest financiers in the bay district. His original fortune was wrung from Death Valley borax fields through his borax products and the "Twenty-Mule Team." Later Smith's fortune became involved in litigation, along with the Key Route and other holdings which he financed.

## NEW WAR CENSOR

WASHINGTON, June 8.—Brigadier-General Frank McIntyre was today appointed unofficial war department censor, succeeding Major Douglas MacArthur, who has held the post since the American troops crossed the border into Mexico, March 15, 1916. Major MacArthur will be assigned a command in the American expeditionary force that will be on its way to France soon.

## Y. M. C. A. PLANS BIG CAMPAIGN

A movement to raise funds for the welfare work among the Armenian soldiers and sailors has been launched by a group of business men of the city meeting to discuss the war work program of the Y. M. C. A. The meeting was called last night by the local war work council of the Y. M. C. A., which is composed of Arthur W. Moore, chairman; Frederick Kahn, Senator A. H. Reed, R. A. Leet, O. D. Jacoby and R. T. Fisher.

Chairman Moore called attention to the fact that President Wilson had issued an order giving official recognition to the Young Men's Christian Association as the organization that is to contribute to the social life of Uncle Sam's fighting men. He stated that with the government delegating the welfare work of the Armenian soldiers and sailors to the Y. M. C. A., it was natural that the citizens should come out and support it and assist in maintaining the home association which would be depleted by having its secretaries and members at the front.

Secretary Frank Jackson of Berkeley, who has seen service in the Philippines and on the Mexican border, told of the great contribution the Y. M. C. A. was making to the life of the soldier.

Frederick Kahn, R. A. Leet and Ralph T. Fisher were the other speakers.

## WILL DEMONSTRATE FOOD PRESERVATION

The first of a series of five demonstrations on canning, pickling and preserving, prevention of waste, etc., under the direction of Miss Lillian D. Clark, instructor in agriculture extension, University of California, will be given in the domestic science laboratory of the Women's Christian Association, 1515 Webster street, tomorrow morning at 10 o'clock.

This first demonstration will be devoted to the canning of meats and vegetables and is expected to prove helpful to the many women of this city who are especially interested in food conservation. These five demonstrations to be given on June 9, 16, 23, 30 and July 7 from 10 to 12 o'clock, without charge, and open to all women membership in the association not being required. The domestic science laboratory of the association is ideally fitted for work of this kind.

A second course in food conservation is a series of fifteen lessons on the prevention of waste in the home, preservation of foods, marketing and economics and food values based on the normal training course given at the university.

Mrs. Jean Christie, A. B., University of California, is the instructor. The association is also offering all four of the courses authorized by the Red Cross, first aid, elementary hygiene and some care of the sick, dietetics and preparation of surgical dressings. There is still room in the course on Red Cross dietetics and class in first aid will begin next Tuesday evening. Red Cross certificates will be given on the completion of any of these courses.

## SEEK PLOTTERS AT OIL WORKS

MARTINEZ, June 8.—Guards around the Shell Oil Company's place here are doubled today as a precaution against renewal of an attempt to blow up the plant by supposed German conspirators who were foiled in their work of destruction early yesterday morning by the vigilance of William Edward Reiser, one of the guards. Officials believe that, because the company has a contract to supply the United States Government with oil, Germans or Austrians who may be working at the plant plotted to cripple operations.

With two clues upon which to work a clock attached to batteries and a hat dropped by an intruder, discovered climbing through the wire fence around the plant yesterday, the authorities continued their investigations today. No arrests have been made but a close probe is being conducted to discover whether any of the employees are implicated in a plot.

Reiser is under medical care, suffering from a bullet wound in the arm as a result of his encounter.

## VETERANS GATHER

GETTYSBURG, Pa., June 8.—On the field of Gettysburg was assembled today a remnant of the army of the Confederacy, gathered here again and probably for the last time to witness the unveiling of the memorial which the state of Virginia has erected to its sons who took part in the famous battle.

Governor Henry C. Stuart of Virginia was to deliver the address formally turning over the monument to the United States Government, and it was to be accepted on behalf of the government by Secretary of War Baker or his assistant.

The ceremonies were to be simple, being opened about 2 o'clock with prayer by the Rev. James Power Smith, one of the "Stonewall" Jackson and last survivor of the staff of that great warrior.

An unusually large gathering of Confederate veterans for the occasion was made possible by the fact that the veterans were holding their annual reunion this week in Washington, only five hours away.

**139 SIGN IN PRISON**  
ROCKFORD, Ill., June 8.—Thirty-eight of the 139 Industrial Workers of the World and Socialists who "broke into jail" soliciting punishment for not registering subscribed their names to draft cards today, but they were not released. Two companies of the Third Illinois Infantry are patrolling the streets to guard against further violence.

## "LIBERTY BOMBS"

LINCOLN, Neb., June 8.—Miss Ruth Law left here at 12:30 o'clock today, in the airplane which she abandoned the proposed flight to Omaha because of delay in arrangements for leaving here. She will drop "Liberty Bombs" during her flight in the interest of Liberty Loan bonds. From St. Joseph, Miss Law will resume her flight to St. Louis.

## THIRD MAN HELD

EL PASO, Tex., June 8.—The third arrest in the Thomas Lyons murder case was made when Millard Coggin, a younger brother of T. J. Coggin, a wealthy cattleman now under arrest in connection with the murder, was arrested by county officers. A charge of murder was filed against him, and with Felix R. Jones of Fort Worth and T. J. Coggin, young Coggin was also charged with conspiracy to commit murder.

Lyons, an aged millionaire ranchman who lived near Silver City, N. M., was murdered here on the night of May 19.

## THREE MURDERED

FLEMINGTON, N. J., June 8.—Gross evidence of a brutal triple murder were discovered today by residents living on the outskirts of this community when the charred bodies of William H. Queen, well-known farmer, his wife and grown daughter were taken from the ruins of their home, which had been destroyed by fire. No reason is known for the murder.

## LIBERALS LEAD

EDMONTON, Alta., June 7.—The Sifton government was returned to power by an ample majority, the figures indicating that the Liberals will be within one or two of the last legislature when the parties stood Liberals 23, Conservatives 13. All the cabinet ministers have been re-elected with good majorities.

Up to midnight out of the 43 seats where contests occurred the results were Liberals 26, Conservatives 10, Independents 3 and doubtful 4. Of the doubtful the Liberals are leading in two ridings and the Conservatives in two.

## JUDAEN FESTIVAL

Opening the social season of the Jews, a festival and entertainment will be held by members of the local chapter in the Judaea headquarters in the Pacific building, on the evening of June 12. "A Night in Hawaii" will be the main festival feature. Other entertainments have been provided, in addition, for the visiting guests and members. The following committee have charge of the affair: H. Summerfield, A. Buchman, J. Platin and others.

## Y. M. C. A. PLANS BIG CAMPAIGN

A movement to raise funds for the welfare work among the Armenian soldiers and sailors has been launched by the Y. M. C. A. The city meeting to discuss the war work program of the Y. M. C. A. The meeting was called last night by the local war work council of the Y. M. C. A., which is composed of Arthur W. Moore, chairman; Frederick Kahn, Senator A. H. Reed, R. A. Leet, O. D. Jacoby and R. T. Fisher.

Chairman Moore called attention to the fact that President Wilson had issued an order giving official recognition to the Young Men's Christian Association as the organization that is to contribute to the social life of Uncle Sam's fighting men. He stated that with the government delegating the welfare work of the Armenian soldiers and sailors to the Y. M. C. A., it was natural that the citizens should come out and support it and assist in maintaining the home association which would be depleted by having its secretaries and members at the front.

Secretary Frank Jackson of Berkeley, who has seen service in the Philippines and on the Mexican border, told of the great contribution the Y. M. C. A. was making to the life of the soldier.

Frederick Kahn, R. A. Leet and Ralph T. Fisher were the other speakers.

The national war work council of Young Men's Christian Associations has undertaken to raise \$3,000,000, of which California's share is \$125,000.

Another meeting of team captains and leaders will be held tonight to make further plans for the campaign, and a dinner of all workers and committees will be held next Monday night at the Rotary Club luncheon.

Judge William H. Waste presented the Y. M. C. A. work, and four representatives of the club were appointed by President Meredith to co-operate with the association in the campaign.

## THIRD MAN HELD

EL PASO, Tex., June 8.—The third arrest in the Thomas Lyons murder case was made when Millard Coggin, a younger brother of T. J. Coggin, a wealthy cattleman now under arrest in connection with the murder, was arrested by county officers. A charge of murder was filed against him, and with Felix R. Jones of Fort Worth and T. J. Coggin, young Coggin was also charged with conspiracy to commit murder.

Lyons, an aged millionaire ranchman who lived near Silver City, N. M., was murdered here on the night of May 19.

## THREE MURDERED

FLEMINGTON, N. J., June 8.—Gross evidence of a brutal triple murder were discovered today by residents living on the outskirts of this community when the charred bodies of William H. Queen, well-known farmer, his wife and grown daughter were taken from the ruins of their home, which had been destroyed by fire. No reason is known for the murder.

## LIBERALS LEAD

EDMONTON, Alta., June 7.—The Sifton government was returned to power by an ample majority, the figures indicating that the Liberals will be within one or two of the last legislature when the parties stood Liberals 23, Conservatives 13. All the cabinet ministers have been re-elected with good majorities.

Up to midnight out of the 43 seats where contests occurred the results were Liberals 26, Conservatives 10, Independents 2 and doubtful 4. Of the doubtful the Liberals are leading in two ridings and the Conservatives in two.

## JUDAEN FESTIVAL

Opening the social season of the Jews, a festival and entertainment will be held by members of the local chapter in the Judaea headquarters in the Pacific building, on the evening of June 12. "A Night in Hawaii" will be the main festival feature. Other entertainments have been provided, in addition, for the visiting guests and members. The following committee have charge of the affair: H. Summerfield, A. Buchman, J. Platin and others.

# June Clean-up Sale

of Gould, Sullivan & Co.'s Fine Spring Stock of

Suits—Coats—Dresses  
Skirts—Waists—Petticoats

The finest materials, the choicest styles, the newest, freshest merchandise in Oakland. Each and every garment in this vast assortment was selected with exacting care for our regular trade and is offered now at these reduced prices only because our policy demands immediate preparation for the coming fall season.

## Super-Values in Suits

(Sizes 16 to 46)

New models in Tailored Suits are specially featured in this sale. Suits that can be worn right through the Summer and Fall months.

Values to \$35

\$15 High Class Materials

## Fall Weight Coats

Full length Coats in extra quality Velours and Novelty Materials. In colors to please all tastes.

## STOLLWERCK'S

GOLD BRAND COCOA AND CHOCOLATE

Awarded Grand Prize, San Diego Exposition, 1916

STOLLWERCK'S PRODUCTS, "STANDARD OF THE WORLD"—New York Confectioners' Journal

The only manufacturers of Milk Cocoa. It has the milk chocolate taste.

Our Gold Brand Plain Cocoa is made of the finest beans, contains no adulterations such as cocoa shells, starches or spices.

Make your own Ground Chocolate. Why pay cocoa prices for sugar?

When sugar is added to cocoa it becomes chocolate. Make your own at sugar prices. Figure out the saving to you by using the following recipe, besides getting the satisfaction so native to our goods, which is often missed by improper preparation.

### Recipe

Mix equal amounts (a level teaspoonful to a cup) of cocoa and sugar according to the quantity desired, and enough hot water to make a thick, smooth paste. Bring to a boil half a minute, stir while boiling and add a pinch of salt, add milk and beat it. Do not boil milk. If you use evaporated milk, use 2 1/2 water and 1 1/2 milk.

### OTHER STOLLWERCK PRODUCTS

Almond Bars  
Milk Chocolate  
Gold Brand Plain Chocolate  
Premium Baking Chocolate

Our goods will be found at all leading grocers such as Sunset Grocery, New City Market, H. D. Cushing Company, Campbell's Grocery and Sturdevant Grocery, Oakland, Johnson's Cash Grocery, Sills and Sunset Grocery, Berkeley.

## SEEK PLOTTERS AT OIL WORKS

MARTINEZ, June 8.—Guards around the Shell Oil Company's place here are doubled today as a precaution against renewal of an attempt to blow up the plant by supposed German conspirators who were foiled in their work of destruction early yesterday morning by the vigilance of William Edward Reiser, one of the guards. Officials believe that, because the company has a contract to supply the United States Government with oil, Germans or Austrians who may be working at the plant plotted to cripple operations.

With two clues upon which to work a clock attached to batteries and a hat dropped by an intruder, discovered climbing through the wire fence around the plant yesterday, the authorities continued their investigations today. No arrests have been made but a close probe is being conducted to discover whether any of the employees are implicated in a plot.

Reiser is under medical care, suffering from a bullet wound in the arm as a result of his encounter.

## VETERANS GATHER

GETTYSBURG, Pa., June 8.—On the field of Gettysburg was assembled today a remnant of the army of the Confederacy, gathered here again and probably for the last time to witness the unveiling of the memorial which the state of Virginia has erected to its sons who took part in the famous battle.

Governor Henry C. Stuart of Virginia was to deliver the address formally turning over the monument to the United States Government, and it was to be accepted on behalf of the government by Secretary of War Baker or his assistant.

The ceremonies were to be simple, being opened about 2 o'clock with prayer by the Rev. James Power Smith, one of the "Stonewall" Jackson and last survivor of the staff of that great warrior.

An unusually large gathering of Confederate veterans for the occasion was made possible by the fact that the veterans were holding their annual reunion this week in Washington, only five hours away.

## 139 SIGN IN PRISON

ROCKFORD, Ill., June 8.—Thirty-eight of the 139 Industrial Workers of the World and Socialists who "broke into jail" soliciting punishment for not registering subscribed their names to draft cards today, but they were not released. Two companies of the Third Illinois Infantry are patrolling the streets to guard against further violence.

## "LIBERTY BOMBS"

LINCOLN, Neb., June 8.—Miss Ruth Law left here at 12:30 o'clock today, in the airplane which she abandoned the proposed flight to Omaha because of delay in arrangements for leaving here. She will drop "Liberty Bombs" during her flight in the interest of Liberty Loan bonds. From St. Joseph, Miss Law will resume her flight to St. Louis.

## WHEAT CROP ESTIMATED; MUCH DAMAGE

WASHINGTON, June 8.—The prospective wheat crop of the United States this year was forecasted today by the Department of Agriculture at 650,000,000 bushels, combining a revised estimate of the badly damaged winter wheat crop and the first estimate of the new spring wheat crop, based on June 1 conditions. That compares with 640,000,000 bushels harvested last year and 806,000,000 bushels, the average crop of 1911-15.

The official condition report follows: Winter wheat, 70.9; spring wheat, 91.8; acreage spring wheat, 19,039,000.

**DECREASE SHOWN.**  
The winter wheat crop shows a decrease this year over last in the bureau's estimates, but this is more than made up for by the spring wheat crop, which brings this year's probable total above that of last year.

**INCREASED AREA.**  
The increased spring wheat area, placed at 19,039,000 acres and the good start of this crop under excellent growing conditions indicate a production of 253,000,000 bushels as compared with 153,142,000 bushels last year. 251,854,000 bushels in 1915 and 235,571,000 bushels, the average for the previous five years.

Condition of the various crops for June was:  
Winter wheat, 70.9 per cent of a normal; spring wheat, 91.8; all wheat, 78.5; oats, 88.8; barley, 89.3; rye, 84.8; hay, 85.1; pastures, 55.8; apples, 73.9; peaches, 60.5.

Condition of winter wheat by important states follows:  
Ohio, 88; Indiana, 80; Illinois, 64; Missouri, 64; Nebraska, 60; Kansas, 60; Oklahoma, 69.

Condition of spring wheat by important states: Minnesota, 93; North Dakota, 85; South Dakota, 97.

First announcement of areas planted follows:  
Spring wheat, 19,039,000 acres.  
All wheat, 46,682,000 acres.  
Oats, 14,161,000 acres.  
Barley, 8,379,000 acres.

## Welfare Commission Asks Grand Jury To Aid in County Hospital Reform

Remarking that "no notice that our reports have been received has ever come from the Grand Jury," Chairman A. H. Markwart, of the Alameda County Board of Public Welfare, has filed with that body the second general quarterly report for 1917, requesting the Grand Jury to inform itself of the facts relating to the County Hospital and infirmary and to take immediate action to assist Alameda county in securing a centrally located hospital.

"No acknowledgment has ever been made by the Grand Jury," writes Markwart, "no questions have been asked, nor, so far as this board has been able to learn, has any attention been given the earnest requests of this board that the Grand Jury interest itself in some of the social questions involved, and make an effort to correct some of the abuses which were an increasing disgrace to the county."

The only subject discussed in this general quarterly report is the hospital situation, which is thus isolated apparently for the purpose of concentrating the attention of the Grand Jury. The full report with detailed account of meetings, committee work and recommendations will be presented within a month.

**SHOULD GIVE FULL TIME.**  
Pointing out that the superintendent of the county hospital receives \$250 a month and in addition a house, a servant and all living expenses for himself and family, the report recommends that that official be required to devote his entire time to the institution of which he is the responsible head. In the annual confirmations of appointments made since 1912, the clause forbidding private practice and requiring full time of the superintendent has been omitted.

In connection with its comment on hospital conditions, the committee submits figures comparing the methods used in private hospitals and in the county hospital with regard to its handling of the sick. It makes no recommendation in this case. The committee report says that in private hospitals "drivers and attendants must all have had previous satisfactory experience in the handling of the sick. Drivers are paid \$55 and attendants from \$65 to \$70 a month. The company buys white caps and white coats at \$3.50 and \$1.60 each respectively. The driver of ambulance appointed by the board of supervisors: previous experience not required; wages \$100 a month. Driver of small car, who is an inmate of the infirmary, receives \$15 a month. The county makes no requirements as to appearance."

A number of recommendations are made, including many made before, and the hospital committee remarks that it would be possible to make an almost endless number. "The committee, however, has decided not to do so," reads the report. "For two reasons—first, because it seems futile to add to the number already made until some of them have been carried out, and second, because all of the lesser abuses can easily be controlled once a modern hospital has been established in a central location and a non-political, scientific administration established."

**REPORT OF COMMITTEE.**  
The following is the report of the Committee on County Hospital, composed of Mrs. Duncan McDuffie, E. Elmer Dyer and Edward L. Parsons:

"The subject of greatest importance to the committee, the separation of the hospital from the infirmary, has been treated in the report of the chairman of the Board of Public Welfare."

"The other subjects for report are: (1) improvements, (2) repeated recommendations, (3) new recommendations."

**IMPROVEMENTS.**  
"Isolation cottage. (Recommended in quarterly report of January, 1915.)  
"Now completed and occupied. Capacity, 15 beds. Cost, \$10,000. (For description see quarterly report of March, 1917.)  
"New wing and office. (Not recommended by Board of Public Welfare.)  
"Now completed and occupied. Capacity, 24 beds. Cost, \$10,000. (For description see quarterly report of March, 1917.)  
"Leprosy cottage:  
"Old shack destroyed.  
"Small new cottage of three rooms built."

"Occupants at present: One adult, two children (Portuguese), one Chinese.  
"The appropriation of \$250,000 by Congress for a national leprosy hospital under federal control will put an end to the scandal of state and county care for these unfortunate."

"Sanitarium for tuberculosis at Livermore. (Recommended in quarterly report of January, 1916.)  
"Building progressing. Will be ready for occupancy within six months. (For description see quarterly report of March, 1917.)  
"Those on which no action has been taken:  
"From report of Grand Jury of 1914:  
"One—That the hospital should be entirely separated from the infirmary.  
"Two—That a general hospital should be built near the center of population, with ample room for expansion and action taken on these two subjects since the report was compiled.)  
"Three—That charts should be furnished and properly kept.  
"Four—That sufficient interns and nurses be furnished to give proper care to patients.  
"Five—That an inspector be provided whose duty shall be to look up the history of every indigent asking admission and determine whether the applicant has property, relatives or other means of support, so that the county will not be imposed upon.  
"From quarterly report Board of Public Welfare, June, 1916:  
"One—The hospital should be allowed, at once, an extra ambulance for the transportation of patients ill with contagious diseases.  
"Two—The supervisors should immediately consult with the superintendent as to the best way of abandoning the front room of the barracks and of providing proper housing for its inmates.  
"Three—The burial ground should in some way be screened from the view of the public.  
"An attempt was made to screen this plot by a hedge, but the shrubs died and have not been replaced.)  
"Four—Some immediate provision must be made for those mentally diseased who are not 'dangerous to life or property.'  
"Five—Every case of a drug victim, an inebriate, a feeble-minded or insane person, or of another who might be transferred to a state institution, should be at once reported to the proper agency. This agency should, after investigation, take whatever steps are necessary to effect the immediate transfer of such patient to the proper state institution, and should compile such statistics as will prove whether there is adequate provision for the care of such patients. Certainly patients should pass through some competent social agency before being admitted to the hospital and should be referred by the hospital upon discharge for after-care to some organization able to help them guard their health.  
"Six—Some system of reports from records should be evolved, by which facts would be easily attainable.  
"Seven—The Board of Public Welfare further recommends that the Board of Supervisors appoint the Board of Directors of Alameda County Society for the Study and Prevention of Tuberculosis, the advisory committee of the new sanitarium for tubercular patients at Livermore; providing always that no physician be a member of the board or be eligible to membership thereon.  
"Eight—The committee recommends that the county insist upon the same standard of experience and appointment of the private ambulance companies, especially in view of the fact that the county pays more than the private companies.  
"Nine—That the patients be given thorough dental examination and care.  
"Ten—That proper records be kept, both social and medical, and that these be assembled in accordance with modern hospital standards.  
"NEW RECOMMENDATIONS.  
"One—Following a discussion of the new sanitarium for tuberculosis at Livermore, the Board of Public Welfare unanimously moved to recommend that the sanitarium be definitely separated in management from the county infirmary, that it have its own management and a superintendent be responsible directly to the Board of Supervisors and to the Bureau of Tuberculosis of the State Department of Health.  
"Two—If autopsies are to be performed a proper room should be provided. At present they are in the small room, a sad travesty of a mortuary chapel, and which is the only place in which relatives may visit their dead.  
"Three—For months the hospital committee has been studying the question of a full-time service by the county hospital superintendent. (Copies of the present superintendent, who was appointed in February, 1912, a clause was inserted in the resolution forbidding any private practice and requiring full time.  
"In the resolution of the following year, confirming his appointment, this clause was omitted, as it has been in each of the annual confirmations since then, thus making it possible by the omission for the superintendent to maintain a private practice.  
"The superintendent of the Alameda county hospital receives \$250 per month, and in addition, a house, a servant and all living expenses for himself and his family. (The committee calls the attention of the Grand Jury to this fact, but expresses no opinion as to the reasonableness of this compensation, wishing its opinion confirmed by that of experts, and so wrote to several of the state boards and to two of the large county hospitals, asking for advice and for accepted standards. In every case the answer was that the full time must be required of county hospital officials in order that the public work may be carried on with efficiency.  
"The committee studied this subject at the request of other members of the Board of Public Welfare and, upon presentation of the above report, the board expressed itself as unanimously in favor of recommending that the superintendent of the county hospital be required to devote his entire time to the institution of which he is the responsible head.  
"Four—The hospital committee has been for many months assembling, selecting and compiling records suitable to the uses of a county hospital. The quarterly report of December, 1916, included a special report of a meeting between the hospital committee of the Board of Public Welfare, the superintendent of the county hospital and representatives of the four public clinics of the county. This meeting unanimously agreed to the following system of follow-up work:  
"The superintendent of the county hospital should furnish each patient on his discharge with a card to the free clinic best suited to care for him; that he should also send a notice to the clinic giving the patient's name, address, illness and condition on discharge. Such of the four clinics as could agree to visit the patients sent them if they did not apply to the clinic, and to send a report of progress back to the hospital. (Copies of the records and reports agreed upon were printed in the quarterly report of December, 1916.)  
"The four clinics have had the return reports printed and have been ready at any time to begin the work of co-operation. The county hospital, however, has postponed the printing of its cards until after July 1. The superintendent has promised to then carry out his part of the agreement. The committee feels that this will be the first step in co-operation between the various public health agencies of the county, and that it should have been entered upon long since.  
"EFFICIENCY REQUIRED.  
"It would be possible to make an almost endless number of recommendations regarding details of the administration of the hospital. The committee, however, has decided not to do so, for two reasons: First, because it seems futile to add to the number already made until some of them have been carried out; second, because all of the lesser abuses can easily be controlled once the two outstanding evils have been corrected—FIRST, the establishment of a modern, efficient public hospital in a central location. SECOND, the establishment of a non-political, scientific administration of high standard, which will realize that the equipment and service of public hospital care should be better than those of the best private institutions."

ence not required; wages \$100 a month. Driver of small car, who is an inmate of the infirmary, receives \$15 a month. The county makes no requirements as to appearance."

A number of recommendations are made, including many made before, and the hospital committee remarks that it would be possible to make an almost endless number. "The committee, however, has decided not to do so," reads the report. "For two reasons—first, because it seems futile to add to the number already made until some of them have been carried out, and second, because all of the lesser abuses can easily be controlled once a modern hospital has been established in a central location and a non-political, scientific administration established."

"NEW RECOMMENDATIONS.  
"One—Following a discussion of the new sanitarium for tuberculosis at Livermore, the Board of Public Welfare unanimously moved to recommend that the sanitarium be definitely separated in management from the county infirmary, that it have its own management and a superintendent be responsible directly to the Board of Supervisors and to the Bureau of Tuberculosis of the State Department of Health.  
"Two—If autopsies are to be performed a proper room should be provided. At present they are in the small room, a sad travesty of a mortuary chapel, and which is the only place in which relatives may visit their dead.  
"Three—For months the hospital committee has been studying the question of a full-time service by the county hospital superintendent. (Copies of the present superintendent, who was appointed in February, 1912, a clause was inserted in the resolution forbidding any private practice and requiring full time.  
"In the resolution of the following year, confirming his appointment, this clause was omitted, as it has been in each of the annual confirmations since then, thus making it possible by the omission for the superintendent to maintain a private practice.  
"The superintendent of the Alameda county hospital receives \$250 per month, and in addition, a house, a servant and all living expenses for himself and his family. (The committee calls the attention of the Grand Jury to this fact, but expresses no opinion as to the reasonableness of this compensation, wishing its opinion confirmed by that of experts, and so wrote to several of the state boards and to two of the large county hospitals, asking for advice and for accepted standards. In every case the answer was that the full time must be required of county hospital officials in order that the public work may be carried on with efficiency.  
"The committee studied this subject at the request of other members of the Board of Public Welfare and, upon presentation of the above report, the board expressed itself as unanimously in favor of recommending that the superintendent of the county hospital be required to devote his entire time to the institution of which he is the responsible head.  
"Four—The hospital committee has been for many months assembling, selecting and compiling records suitable to the uses of a county hospital. The quarterly report of December, 1916, included a special report of a meeting between the hospital committee of the Board of Public Welfare, the superintendent of the county hospital and representatives of the four public clinics of the county. This meeting unanimously agreed to the following system of follow-up work:  
"The superintendent of the county hospital should furnish each patient on his discharge with a card to the free clinic best suited to care for him; that he should also send a notice to the clinic giving the patient's name, address, illness and condition on discharge. Such of the four clinics as could agree to visit the patients sent them if they did not apply to the clinic, and to send a report of progress back to the hospital. (Copies of the records and reports agreed upon were printed in the quarterly report of December, 1916.)  
"The four clinics have had the return reports printed and have been ready at any time to begin the work of co-operation. The county hospital, however, has postponed the printing of its cards until after July 1. The superintendent has promised to then carry out his part of the agreement. The committee feels that this will be the first step in co-operation between the various public health agencies of the county, and that it should have been entered upon long since.  
"EFFICIENCY REQUIRED.  
"It would be possible to make an almost endless number of recommendations regarding details of the administration of the hospital. The committee, however, has decided not to do so, for two reasons: First, because it seems futile to add to the number already made until some of them have been carried out; second, because all of the lesser abuses can easily be controlled once the two outstanding evils have been corrected—FIRST, the establishment of a modern, efficient public hospital in a central location. SECOND, the establishment of a non-political, scientific administration of high standard, which will realize that the equipment and service of public hospital care should be better than those of the best private institutions."

ence not required; wages \$100 a month. Driver of small car, who is an inmate of the infirmary, receives \$15 a month. The county makes no requirements as to appearance."

A number of recommendations are made, including many made before, and the hospital committee remarks that it would be possible to make an almost endless number. "The committee, however, has decided not to do so," reads the report. "For two reasons—first, because it seems futile to add to the number already made until some of them have been carried out, and second, because all of the lesser abuses can easily be controlled once a modern hospital has been established in a central location and a non-political, scientific administration established."

**REPORT OF COMMITTEE.**  
The following is the report of the Committee on County Hospital, composed of Mrs. Duncan McDuffie, E. Elmer Dyer and Edward L. Parsons:

"The subject of greatest importance to the committee, the separation of the hospital from the infirmary, has been treated in the report of the chairman of the Board of Public Welfare."

"The other subjects for report are: (1) improvements, (2) repeated recommendations, (3) new recommendations."

**IMPROVEMENTS.**  
"Isolation cottage. (Recommended in quarterly report of January, 1915.)  
"Now completed and occupied. Capacity, 15 beds. Cost, \$10,000. (For description see quarterly report of March, 1917.)  
"New wing and office. (Not recommended by Board of Public Welfare.)  
"Now completed and occupied. Capacity, 24 beds. Cost, \$10,000. (For description see quarterly report of March, 1917.)  
"Leprosy cottage:  
"Old shack destroyed.  
"Small new cottage of three rooms built."

"Occupants at present: One adult, two children (Portuguese), one Chinese.  
"The appropriation of \$250,000 by Congress for a national leprosy hospital under federal control will put an end to the scandal of state and county care for these unfortunate."

"Sanitarium for tuberculosis at Livermore. (Recommended in quarterly report of January, 1916.)  
"Building progressing. Will be ready for occupancy within six months. (For description see quarterly report of March, 1917.)  
"Those on which no action has been taken:  
"From report of Grand Jury of 1914:  
"One—That the hospital should be entirely separated from the infirmary.  
"Two—That a general hospital should be built near the center of population, with ample room for expansion and action taken on these two subjects since the report was compiled.)  
"Three—That charts should be furnished and properly kept.  
"Four—That sufficient interns and nurses be furnished to give proper care to patients.  
"Five—That an inspector be provided whose duty shall be to look up the history of every indigent asking admission and determine whether the applicant has property, relatives or other means of support, so that the county will not be imposed upon.  
"From quarterly report Board of Public Welfare, June, 1916:  
"One—The hospital should be allowed, at once, an extra ambulance for the transportation of patients ill with contagious diseases.  
"Two—The supervisors should immediately consult with the superintendent as to the best way of abandoning the front room of the barracks and of providing proper housing for its inmates.  
"Three—The burial ground should in some way be screened from the view of the public.  
"An attempt was made to screen this plot by a hedge, but the shrubs died and have not been replaced.)  
"Four—Some immediate provision must be made for those mentally diseased who are not 'dangerous to life or property.'  
"Five—Every case of a drug victim, an inebriate, a feeble-minded or insane person, or of another who might be transferred to a state institution, should be at once reported to the proper agency. This agency should, after investigation, take whatever steps are necessary to effect the immediate transfer of such patient to the proper state institution, and should compile such statistics as will prove whether there is adequate provision for the care of such patients. Certainly patients should pass through some competent social agency before being admitted to the hospital and should be referred by the hospital upon discharge for after-care to some organization able to help them guard their health.  
"Six—Some system of reports from records should be evolved, by which facts would be easily attainable.  
"Seven—The Board of Public Welfare further recommends that the Board of Supervisors appoint the Board of Directors of Alameda County Society for the Study and Prevention of Tuberculosis, the advisory committee of the new sanitarium for tubercular patients at Livermore; providing always that no physician be a member of the board or be eligible to membership thereon.  
"Eight—The committee recommends that the county insist upon the same standard of experience and appointment of the private ambulance companies, especially in view of the fact that the county pays more than the private companies.  
"Nine—That the patients be given thorough dental examination and care.  
"Ten—That proper records be kept, both social and medical, and that these be assembled in accordance with modern hospital standards.  
"NEW RECOMMENDATIONS.  
"One—Following a discussion of the new sanitarium for tuberculosis at Livermore, the Board of Public Welfare unanimously moved to recommend that the sanitarium be definitely separated in management from the county infirmary, that it have its own management and a superintendent be responsible directly to the Board of Supervisors and to the Bureau of Tuberculosis of the State Department of Health.  
"Two—If autopsies are to be performed a proper room should be provided. At present they are in the small room, a sad travesty of a mortuary chapel, and which is the only place in which relatives may visit their dead.  
"Three—For months the hospital committee has been studying the question of a full-time service by the county hospital superintendent. (Copies of the present superintendent, who was appointed in February, 1912, a clause was inserted in the resolution forbidding any private practice and requiring full time.  
"In the resolution of the following year, confirming his appointment, this clause was omitted, as it has been in each of the annual confirmations since then, thus making it possible by the omission for the superintendent to maintain a private practice.  
"The superintendent of the Alameda county hospital receives \$250 per month, and in addition, a house, a servant and all living expenses for himself and his family. (The committee calls the attention of the Grand Jury to this fact, but expresses no opinion as to the reasonableness of this compensation, wishing its opinion confirmed by that of experts, and so wrote to several of the state boards and to two of the large county hospitals, asking for advice and for accepted standards. "Those on which no action has been taken:  
"From report of Grand Jury of 1914:  
"One—That the hospital should be entirely separated from the infirmary.  
"Two—That a general hospital should be built near the center of population, with ample room for expansion and action taken on these two subjects since the report was compiled.)  
"Three—That charts should be furnished and properly kept.  
"Four—That sufficient interns and nurses be furnished to give proper care to patients.

## WHEAT CROP ESTIMATED; MUCH DAMAGE

WASHINGTON, June 8.—The prospective wheat crop of the United States this year was forecasted today by the Department of Agriculture at 850,000,000 bushels, combining a revised estimate of the badly damaged winter wheat crop and the first estimate of the new spring wheat crop, based on June 1 conditions. That compares with 840,000,000 bushels harvested last year, and 806,000,000 bushels, the average crop of 1911-15.

The official condition report follows: Winter wheat, 70.9; spring wheat, 91.8; acreage spring wheat, 19,033,000.

**DECREASE SHOWN.**  
The winter wheat crop shows a decrease this year over last in the bureau's estimates, but this is more than made up for by the spring wheat crop, which brings this year's probable total above that of last year.

**INCREASED AREA.**  
The increased spring wheat area, placed at 19,033,000 acres, the start of this crop under excellent growing conditions indicate a production of 233,000,000 bushels as compared with 158,142,000 bushels last year; 261,854,000 bushels in 1915 and 233,571,000 bushels, the average for the previous five years.

Condition of the various crops for June was:

Winter wheat, 70.9 per cent of a normal; spring wheat, 91.8; all wheat, 78.5; oats, 85.8; barley, 89.3; rye, 84.3; hay, 85.1; pastures, 58.8; apples, 73.9; peaches, 60.5.

Condition of winter wheat by important states follows:

Ohio, 88; Indiana, 89; Illinois, 64; Missouri, 84; Nebraska, 80; Kansas, 80; Oklahoma, 69.

Condition of spring wheat by important states: Minnesota, 93; North Dakota, 85; South Dakota, 97.

First announcement of areas planted follows:

Spring wheat, 19,033,000 acres.  
All wheat, 46,692,000 acres.  
Oats, 48,161,000 acres.  
Barley, 8,379,000 acres.

## Welfare Commission Asks Grand Jury To Aid in County Hospital Reform

Remarking that "no notice that our reports have been received has ever come from the Grand Jury," Chairman A. H. Markwart, of the Alameda County Board of Public Welfare, has filed with that body the second general quarterly report for 1917, requesting the Grand Jury "to inform itself of the facts relating to the County Hospital and Infirmary and to take immediate action to assist Alameda county in securing a centrally located hospital."

"No acknowledgment has ever been made by the Grand Jury," writes Markwart, "no questions have been asked, nor so far as this board has been able to learn, has any attention been given the earnest requests of this board that the Grand Jury interest itself in some of the social questions involved, and make an effort to correct some of the abuses which were an increasing disgrace to the county."

The only subject discussed in this general quarterly report is the hospital situation, which is thus isolated apparently for the purpose of concentrating the attention of the Grand Jury. The full report with detailed accounts of meetings, committee work and recommendations will be presented within a month.

**SHOULD GIVE FULL TIME.**  
Pointing out that the superintendent of the county hospital receives \$250 a month and in addition a house, himself and family, the report recommends that that official be required to devote his entire time to the institution of which he is the responsible head. In the annual confirmations of appointments made since 1912, the clause forbidding private practice and requiring full time of the superintendent has been omitted.

In connection with its comment on hospital conditions, the committee submits figures comparing the methods used in private hospitals and in the county hospital with regard to its drivers, but makes no recommendation in this case. The committee report says that in private hospitals "drivers and attendants must all have had previous satisfactory experience in the handling of the sick. Drivers are paid \$35 and attendants from \$35 to \$70 a month. The company buys white caps and white coats at \$3.50 and \$1.50 each respectively. The driver of ambulance appointed by the board of supervisors; previous experience not required; wages \$100 a month. Driver of small car, who is an inmate of the infirmary, receives \$15 a month. The county makes no requirements as to appearance."

A number of recommendations are made, including many made before, and the hospital committee remarks that it would be possible to make an almost endless number. "The committee, however, has decided not to do so," reads the report. "For two reasons—first, because it seems futile to add to the number already made out, and second, because all of the lesser abuses can easily be controlled once a modern hospital has been established in a central location and a non-political, scientific administration establishment."

**REPORT OF COMMITTEE.**  
The following is the report of the committee on County Hospital, composed of Mrs. Duncan McDuffie, D. Elmer Dyer and Edward L. Parsons:

"The subject of greatest importance of the hospital from the administrative point of view, the infirmary, has been treated in the report of the chairman of the Board of Public Welfare."

"The other subjects for report are: (1) Improvements, (2) report of the hospital from the administrative point of view, (3) new recommendations."

**IMPROVEMENTS.**  
"Isolation cottage. (Recommended in quarterly report of January, 1916.)

"Now completed and ready for occupancy. Capacity, 13 beds. Cost, \$10,000. (For description see quarterly report of March, 1917.)

"New wing and office. (Not recommended by Board of Public Welfare.)

"Now completed and occupied. Capacity, 20 beds. Cost, \$10,000. (For description see quarterly report of March, 1917.)

"Leprosy cottage."

"Old shack destroyed."

"Small new cottage of three rooms built."

"Occupants at present: One adult, two children (Portuguese), one Chinese."

"The appropriation of \$250,000 by Congress for a national leprosy hospital under federal control will put an end to the scandal of state and county care for these unfortunate."

"Sanitarium for tuberculosis at Livermore. (Recommended in quarterly report of January, 1916.)

"Building progressing. Will be ready for occupancy within six months. (For description see quarterly report of March, 1917.)

**REPEATED RECOMMENDATIONS.**  
"(Those on which no action has been taken.)

"From report of Grand Jury of 1911:

"One—That the hospital should be entirely separated from the infirmary."

"Two—That a general hospital should be near the center of population."

"Three—That charts should be furnished and properly kept."

"Four—That sufficient interns and nurses be furnished to give proper care to patients."

"Five—That an inspector be provided whose duty shall be to look up the history of every indigent asking admission, and determine whether the applicant has property, relatives or other means of support, so that the county will not be imposed upon."

"From quarterly report Board of Public Welfare, June, 1916:

"One—The hospital should be allowed, at once, an extra ambulance for the transportation of patients ill with contagious diseases."

"Two—The supervisors should immediately consult with the superintendent as to the best way of abandoning the front room of the barracks and of providing proper housing for its inmates."

"Three—The burial ground should in some way be screened from the view of the inmates and the public. (An attempt was made to screen the plot by a hedge, but the shrubs died and have not been replaced.)

"Four—Some immediate provision must be made for those mentally diseased who are not 'dangerous to life or property.'

"Five—Every case of a drug victim, an inebriate, a feeble-minded or insane person, or of any other who might be transferred to a state institution, should be at once reported to the proper agency. This agency should, after investigation, take whatever steps are necessary to effect the immediate transfer of such patients to the proper state institution, and should compile such statistics as will prove whether there is adequate provision for the care of such patients. Certainly patients should pass through some competent social agency before being admitted to the hospital and should be referred by the hospital upon discharge for after-care to some organization able to help them guard their health."

"Six—Some system of reports from records should be evolved, by which facts would be easily obtainable."

"Seven—The Board of Public Welfare further recommends that the Board of Supervisors appoint the Board of Directors of Alameda County Society for the Study and Prevention of Tuberculosis, the advisory committee of the new sanitarium for tubercular patients at Livermore; providing always that no physician be a member of the board or be eligible to membership thereon."

"Eight—The committee recommends that the county insist upon the same standard of experience and appearance as the private ambulance companies, especially in view of the fact that the county pays more than the private companies."

"Nine—That the patients be given thorough dental examination and care."

"Ten—That proper records be kept, both social and medical, and that these be assembled in accordance with modern hospital standards."

**NEW RECOMMENDATIONS.**  
"One—Following a discussion of the new sanitarium for tuberculosis at Livermore, the Board of Public Welfare unanimously moved to recommend that the sanitarium be definitely separated in management from the county infirmary, that it have its own management and a superintendent of its own, and that its administration be responsible directly to the Board of Supervisors and to the Bureau of Tuberculosis of the State Board of Health."

"Two—If autopsies are to be performed in a proper room should be provided. At present they are in the small room, a sad travesty of a 'mortuary chapel,' and which is the only place in which relatives may visit their dead."

"For months the hospital committee has been studying the question of a full-time service by the county hospital superintendent."

"When the present superintendent was appointed, his appointment clause was inserted in the resolution forbidding any private practice and requiring full time."

**CLAUDE IS UNITED.**  
"In the resolution of the following year, confirming his appointment, this clause was omitted, as it has been in each of the annual confirmations since then, thus making it possible by the omission for the superintendent to maintain a private practice."

"The superintendent of the Alameda county hospital receives \$250 per month, and in addition, a house, a servant and all living expenses for himself and his family. (The committee calls the attention of the Grand Jury to this fact, but expresses no opinion as to the reasonableness of this compensation.)

"The committee wished its opinion confirmed by that of experts, and so wrote to several of the state boards and to two of the large county hospitals, asking for advice and for accepted standards. In every case the answer was the same—that full time must be required of county hospital officials in order that the public work may be carried on with efficiency."

"The committee studied this subject at the request of other members of the Board of Public Welfare and, upon presentation of the above report, the board expressed itself as unanimously in favor of recommending that the superintendent of the county hospital be required to devote his entire time to the institution of which he is the responsible head."

"Four—The hospital committee has been for many months assembling, selecting and compiling records suitable to the use of a county hospital. The quarterly report of December, 1916, included a special report of a meeting between the hospital committee of the Board of Public Welfare, the superintendent of the county hospital, and the four public clinics of a four public clinics of the county. This meeting unanimously agreed to the following system of follow-up work:

"The superintendent of the county hospital should furnish each patient on his discharge with a card to the free clinic best suited to care for him; that he should also send a notice to the clinic giving the patient's name, address, illness and condition on discharge. Some of the four clinics could agree to visit the patients sent them if they did not apply to the clinic, and to send a report of progress back to the hospital. (Copies of the records and reports agreed upon were printed in the quarterly report of December, 1916.)

"The four clinics have had the return reports printed and have been ready at any time to begin the work of co-operation. The county hospital, however, has postponed the printing of its cards until after July 1. The superintendent has promised to then carry out his part of the agreement. The committee feels that this will be the first step in co-operation between the various public health agencies of the county, and that it should have been entered upon long since."

**EFFICIENCY REQUIRED.**  
"It would be possible to make an almost endless number of recommendations regarding details of the administration of the hospital. The committee, however, has decided not to do so, for two reasons: First, because it seems futile to add to the number already made until some of them have been carried out; second, because all of the lesser abuses can easily be controlled once the two outstanding evils have been corrected—FIRST, the establishment of a modern, efficient public hospital in a central location. SECOND, the establishment of a non-political, scientific administration of high standard, which will realize that the equipment and service of a public hospital cap and should be the best of those of the best private institutions."

## New Houses For Rent

We have a number of brand-new homes in the beautiful Lake District which may be RENTED very reasonably. Eight and nine rooms. Southern Gum finish. Two baths, shower, maid's room, sleeping porches, etc. Near car-line. Rentals as low as \$55 monthly.

Wickham Havens Inc.

1308 BROADWAY  
Telephone Oakland 1750  
Office Open Sunday

## FRECKLES

Now is the Time to Get Rid of These Ugly Spots.

There's no longer the slightest need of feeling ashamed of your freckles, as the prescription ointment—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of ointment—double strength—from any druggist and apply a little of it at night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for double strength ointment as this is sold under guarantee of money back if it fails to remove freckles.—Advertisement.

## Society

Mr. and Mrs. Philip Smith Newton are spending their honeymoon in the Feather river country. Later they will go to "Moscow," the beautiful Newton summer place on the Russian river, where they will remain through the season. The marriage of Newton and Miss Effie May Gillett was so quietly solemnized in this city on Sunday last that few of their closer friends have yet learned of the ceremony. It was read by Rev. Albert W. Palmer at half after five o'clock and witnessed by a little company of relatives. The newlyweds and the young couple departed on their wedding journey.

The bride is the eldest daughter of J. N. Gillett, a former governor of California, who is in Washington, D. C. When the family occupied the executive residence in Sacramento Mrs. Newton and her sister, now Mrs. Gillett, were in the city. They have many friends about the bay, where they have been frequent visitors and where they have been entertained extensively. Newton is the son of the late Mrs. California Newton, who was one of the notable figures in the early history of the State. She was actively identified with the women's clubs across the bay, was a staunch philanthropic worker and won a more than local reputation for her occasional plunges into literature. Newton has important interests in the west and is associated with a large firm having branch houses on both sides the bay. Early next month Mr. and Mrs. Newton will be joined at their country place by Mr. Thorp and her two little daughters.

Mrs. Oscar Sutor is one of the matrons of the smart set who is lending her lovely Piedmont home to that new phase of social intercourse which the presence of the army set about the bay has initiated. It is really to Mrs. Dennis O'Sullivan, that unusually charming and gifted woman, the sister-in-law of Mrs. Sutor, that honors of conceiving the hospitable plan are accorded. Mrs. O'Sullivan arrived in California last winter from her home in London, where she was a prominent figure in the military life of the English capital and where she had an opportunity of witnessing many interesting phases of the world war. She realized how much the men missed their broken social intercourse when in the camps and how great a joy it was to them to put aside their military talk for a little and form new friendships or cement older acquaintances. And so under her leadership has been arranged a series

of Saturday and Sunday receptions, quite informal, for which several of the exclusive matrons are opening their handsome homes and at which the guests will be the men in the officers' training camp at the Presidio. This week Mrs. James Marvin Curtis will give the first of the charming affairs. Among the other hostesses who will follow are Mrs. Sutor, Mrs. Louis Montague, Mrs. Charles Stetson Wheeler, Mrs. Eleanor Martin, Mrs. Philip Van Horne, Mrs. Stetson Winslow and several others.

From the southland comes the interesting news that California is to have a new chapter in the Pi Beta Phi fraternity. This is the oldest of all the American national sororities and to found a chapter is to win particular honors. It is the University of Southern California which has achieved the distinction, twenty-five members to be pledged from the Entre Nous sorority. The initiation is being planned for the first week in July and will be made the occasion of a brilliant series of affairs. The California Gamma chapter will be the fifty-first in the national organization. It was founded at Monmouth College, Ill., in 1867. Stanford chapter was founded in 1893 and was preceded by the University of California chapter in 1900.

Pi Beta Phi maintains several scholarships, a loan fund for undergraduate students, a fellowship for the holder of one year in a foreign university, and a settlement school at Gallatin, Tenn., founded in 1912, and now occupying thirty-five acres of land, a splendidly equipped school building, teachers' houses, hospital and smaller buildings for industrial work.

A bridge luncheon was the pleasure which Mrs. R. W. Kline offered a congenial group of friends on Wednesday, asking them to share her hospitality at Hotel Shattuck. The picturesque tea room, which overlooks the lovely garden, was the setting for the charming function. Among those for whom covers were laid were: Mrs. W. E. Leland, Mrs. Clarence Slater, Mrs. P. C. Curry, Mrs. T. Ronneberg, Mrs. George E. Atkins, Mrs. E. J. Wallis, Miss Cone.

The wedding of Albert Hiatt Dutton and Miss Frances Merithew, which takes place tomorrow evening in San Jose, is of interest to a large number of friends about the bay. Formerly

## Stop Corn Pain in Two Minutes By the Clock—Easy and Simple

The magic of Ice-Mint does it. Soreness stops quickly and gradually the corn loosens and comes out. Try it. Your feet will feel cool and fine.

Thanks to a new discovery made from a Japanese product, your foot troubles can be quickly ended.

Ice-Mint, as this new preparation is called, is said to shrivel up hard corns, soft corns or corns between the toes so that they can be lifted out easily with the

Rub a little on any tender corn or callous. Instantly the soreness is relieved and shortly the corn or callous will loosen so that it can be lifted right out with the fingers—root and all. No foolishness.

Ice-Mint is a clean, creamy, snow-white, non-poisonous substance and does not inflame or even irritate the most tender skin. There is no pain, smarting, or even a bit of soreness while applying Ice-Mint or afterwards. It acts so gently, so magically that you will never want to run the risk of your poisoning by cutting a corn again.

Ask your druggist for a small jar of Ice-Mint, which will cost little, yet is sufficient to rid one's feet of every corn or callous. You'll like it immensely.—Advertisement.

## Curious Bliss

By Howard R. Garis

"Nurse Jane, have we any rice in the bungalow?" asked Uncle Wiggly Longears, the rabbit gentleman, of his muskrat lady housekeeper one morning.

"Rice?" repeated Miss Fuzzy Wuzzy. "Is there going to be a wedding?"

"No," said Uncle Wiggly with a laugh. "What I want of rice is for the soldiers to eat."

"The soldiers to eat?" asked Nurse Jane. "What soldiers?"

"Why, you know the I am studying to be a soldier since the mosquito war began," went on the bunny rabbit gentleman. "And Sammie Littlebit, the rabbit boy, and Billy Bushytail, the squirrel, Jackie and Peetle Bow Wow, the puppy dogs—they are all studying with me in my tent, just outside the hollow stump bungalow."

"We need things to eat that will keep well, like corn, rice and oatmeal, and I am thinking of cooking some rice cakes for a change. You know I'm the soldier cook, but I have no rice, so I thought I'd ask you."

"Not enough for you hungry soldiers to eat?" laughed Nurse Jane. "So if you want it, tell me how you had better get it."

"I will," said Uncle Wiggly. "How do you cook rice?"

"You take the dry, hard, white rice kernels," answered the muskrat lady, "and put them to soak in a cup or bowl of water. And when the water is full, you boil them in a little hot water with a pinch of salt."

"Why do you pinch the salt?" asked Uncle Wiggly, making his pink nose twinkle like a banana peeling. "Is it naughty?"

"It's just to give it a little flavor," So leaving Sammie Littlebit, the rabbit boy, and Billy Bushytail, the squirrel, to the bungalow, Uncle Wiggly went to the store for the rice. He was in such a hurry to get back to cook it that he never stopped to enjoy swimming. But just you wait and see what happened to him.

"Sammie," said the bunny as he reached the tent, "we have the rice, and we will put it to soak in cold water before we boil it with the pinch of salt, which I'll give you."

"Nurse Jane has gone over to Mrs. Whibley's house to help the duck boy, and I'll be home in a minute," said Uncle Wiggly to his rabbit nephew, "and we will practice with our bean-shooters while waiting for the rice to soak. Then when it has done enough swimming in the water I'll make the cakes for the other animal boy soldiers, so we'll all be getting ready for the summer camp."

"Good!" cried Sammie, and after the rice was left to sleep and soak in the bungalow, he went to his room to get his gun.

"Now come on outside, Sammie," said Uncle Wiggly to his rabbit nephew, "and we will practice with our bean-shooters while waiting for the rice to soak. Then when it has done enough swimming in the water I'll make the cakes for the other animal boy soldiers, so we'll all be getting ready for the summer camp."

"Good!" cried Sammie, and after the rice was left to sleep and soak in the bungalow, he went to his room to get his gun.

Dutton made his residence in Berkeley, where he was popular with the smart set. He is the son of L. B. Dutton, the well-known architect, and the late Mrs. Fannie Hiatt Dutton. Miss Merithew is one of the attractive belles in San Jose. Her uncles, F. E. Cockrell and H. G. Cockrell, are numbered with the largest fruit growers in the Santa Clara Valley. The marriage will be solemnized at an elaborate service which will be read in Trinity Episcopal Church in the presence of a large number of guests. Dutton and his bride will establish their home in San Jose following their honeymoon.

Miss Elizabeth Smilie, the promised bride of Mr. Charles Stoney, of the University of California, Miss Stoney, who is a member of the Kappa Kappa Gamma sorority, is the daughter of Mr. and Mrs. Donzel Stoney. Davis is at present employed in business in San Francisco. He is the son of Mrs. E. N. Davis, of Riverside. While in college he was identified with the Zeta Phi fraternity.

Formal announcement is made of the betrothal of Miss Florence Stoney and Charles Davis. The news was confirmed yesterday afternoon to a score of friends whom Miss Stoney entertained at her home in Clay street. Both young people have been popular in the student life of the University of California. Miss Stoney, who is a member of the Kappa Kappa Gamma sorority, is the daughter of Mr. and Mrs. Donzel Stoney. Davis is at present employed in business in San Francisco. He is the son of Mrs. E. N. Davis, of Riverside. While in college he was identified with the Zeta Phi fraternity.

## The Curious Quest of Mr. Ernest Bliss

BY E. PHILLIPS OPPENHEIM

(Continued from Yesterday.)

Bliss promptly introduced his friend from Leicestershire. Mr. Fancourt was only moderately affable.

"I can't interest Mr. Sturgess very much in bridge," Bliss remarked. "He wants a gamble."

Mr. Fancourt smiled. "I expect your friend has been reading the trash in the dailies about baccarat clubs and that sort of thing. Personally, I don't believe there is such a thing in London. I think I go about as much as most men, and I never seem to hear of them. There is one at Brighton, they say. If your friend would like a rubber at auction—half-penny points—"

"Good idea," Mr. Sturgess interrupted eagerly. "Anything to break the monotony."

They took possession of a vacant table, but cut with Mr. Fancourt and they lost a small rubber. They played one more and won.

Mr. Sturgess, who played his cards moderately well, seemed uneasy. He glanced continually around the room. "Don't any of these people play for higher stakes?" he asked Mr. Fancourt.

Mr. Fancourt shook his head. "A penny's about our limit," he replied. "We're none of us wealthy."

"A little game of poker?" Sturgess suggested. "eh?"

water the bunny boy and old gentleman shot at a mark with the bean-shooters. "Wait until I go in the tent and get some more beans," said Sammie after a while, when they had shot away all they had brought out with them.

Into the white tent went Sammie, and no sooner had the flap, or front door, closed after him than he cried:

"Oh, Uncle Wiggly, come quickly! The rice is escaping!"

"Escaping?" shouted Captain Longears, as he liked to be called. "What do you mean?"

"I mean it is running away, out of the pan, over the tent floor and everywhere," Sammie answered. "Oh, look!"

Uncle Wiggly hurried in and looked. Sure enough, the rice had at first only been partly full of rice and water, but now brimming, running over full, and the rice seemed to keep on coming, like a nopper full of corn over a hot fire.

Mr. Fancourt shook his head firmly. "Couldn't be done; dead against the rules. Besides, I hate poker."

Mr. Sturgess relaxed into silence. Half an hour later he received three and sixpence, the balance of his winnings, and prepared to depart. Bliss, at a sign from Mr. Fancourt, remained.

"See you again some time, I hope," Mr. Sturgess said. "If you're ever down our way—"

"I'll look you up," Bliss promised. The door swung to and Mr. Sturgess departed. Bliss strolled back to where Mrs. Fortescue and Fancourt were seated by the side. Mr. Fancourt motioned him to sit down on the settee.

"I am not blaming you in the least, Ben," he said—"you won't mind my calling you Ben instead of Johnson, I'm sure—and I do hope that you will not be discouraged by your first young man from the country was just a little mistake."

Bliss was puzzled. "He was a hound, of course—" "Most detectives are," Mr. Fancourt interrupted. "His real name is Richard Hines, and he is part of the Scotland Yard crusade against modern gambling halls."

Bliss was staggered. "I am so sorry," he muttered. "I don't see how I could possibly tell."

(Continued Tomorrow.)

## WOMEN OF MIDDLE AGE

Mrs. Quinn's Experience Ought to Help You Over the Critical Period.

Lowell, Mass.—"For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headaches and pain a good deal of the time so I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headache or pain. I must say that Lydia E. Pinkham's Vegetable Compound is the best remedy any sick woman can take."

—Mrs. MARGARET QUINN, Rear 259 Worthen St., Lowell, Mass.

Other warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness, inquietude, and dizziness.

If you need special advice, write to the Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass.

muskrat lady came back from Mrs. Whibley's. "I didn't buy this much dried rice at the store."

"Of course not!" laughed Nurse Jane. "I should have told you that rice swells up very much in water, and that you only need about a cupful to make a big pudding. Oh, Wiggly! What a lot of rice! Oh, my!"

But it was not wasted, for the bunny uncle man made enough rice cakes for the whole animal army, and all the Woodland folk besides. So everything came out all right—I mean all right.

Brassieres

50c to \$3.00

**Moss Glove House**

Located at 1321 Washington St., Near Fourteenth

Hosiery of Best Kinds

## Valner Front Lace Corsets

Women who prefer front lace Corsets will find infinite satisfaction in a Valner. The back ventilating feature possessed by all these Corsets and the protection from friction from the laces in front by a soft underlay make them superior. Following are two splendid numbers:

**Valner Corsets—\$4.00 Valner Corsets—\$6.50**

Of dotted broche in pink and white. A very handsome model of pink or low bust styles with handsomely embroidered white broche with wide elastic at back and handsomely trimmed top.

## Gotham Gold-Stripe Silk Hosiery—\$1.25

A silk stocking that garter clasps cannot ruin. A gold stripe at the garter top hem prevents runs from getting through. Fine quality pure silk hosiery that women will find very satisfactory not only in fine silky appearance, but in wearing quality.

## Gloves for Everybody

Large, fresh new stocks of them despite the general shortage. Kid gloves and fabric gloves of best quality, durability and shapeliness. Three notable items for Saturday's shopping list:

**Chamoisette Gloves—75c**

Satisfactory because so easy to slip on and to launder. They can be quickly washed at home with soap and water.

Durable and good looking.

**Doeskin Gloves—\$1.50**

These gloves have won their way into women's favor through sheer force of merit. They look well, wear splendidly and are easily kept clean with soap and water.

**Ladimor Kid Gloves—\$1.75**

A fine quality kid glove with single clasp at wrist and wide embroidery on back. Handsome in appearance and wonderfully durable.

## Now Mother says "You're right"

(Report No. 12) By Daughter who managed the fried chicken

Mother had always fried chicken in butter. I heard that Cottolene would fry chicken tender and sweet, and asked her to try it. After some coaxing (because Mother thinks her own cooking ways are best) she agreed to fry half a chicken in butter and half in Cottolene.

Chicken, to suit us, must be tender and nicely browned.

We cut the chicken in several pieces (noting on a slip of paper which parts were to be fried in Cottolene).

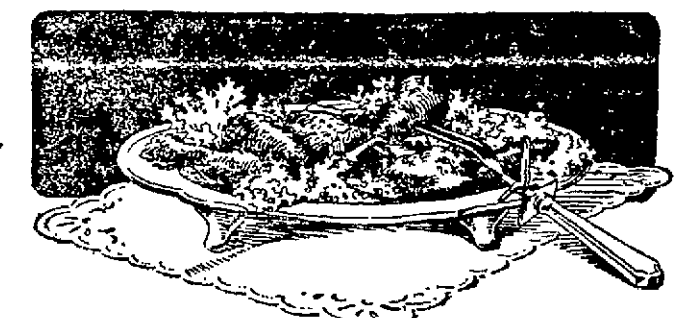

In the midst of it a girl neighbor came in to take mother to the movies. She was interested in watching our experiment.

The butter-fried and Cottolene-fried chicken were served on one platter. After tasting, Mother said the piece

she got was as tender as butter. "Tender as if fried in butter," I corrected, "because that nice, tender piece was fried in Cottolene."

And Mother was thus shown that wholesome Cottolene fries chicken deliciously tender. Have you tried it?

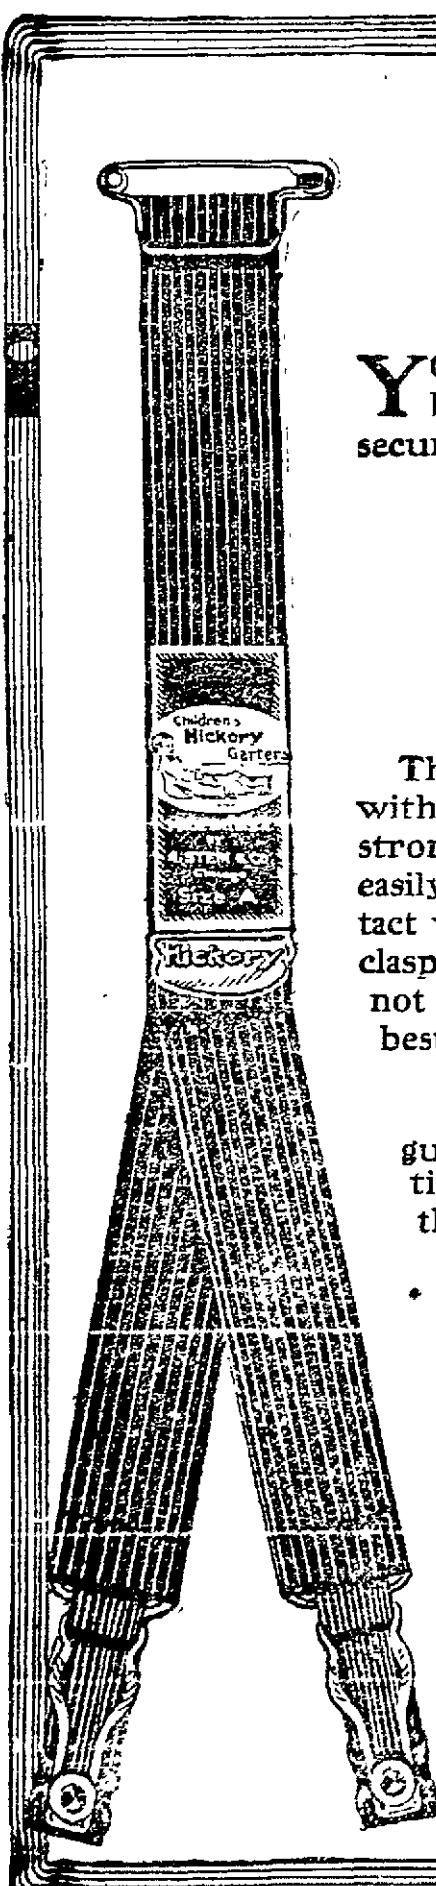

From M. H. S.

## Cottolene

Yes! Cottolene is also superior for shortening and for all cake-making

At grocers in sizes of convenient sizes

YOUR children can jump and play but their stockings will remain secure and neat when they wear

## Children's Hickory Garters

These well-made, improved garters will withstand the hardest usage. The pin is strong and will not bend. The buckle is easily adjusted and does not come in contact with the skin. The patent rubber clasp saves darning. The stockings will not slip, sag or tear at the knees. Very best grades of elastic are used.

Children's Hickory Garters are guaranteed to give absolute satisfaction. They will last much longer than the ordinary kind.

15c and up, per pair according to size

The best stores offer these popular garters in all sizes for your selection.

STOCK AND BOND QUOTATIONS NEW YORK CHICAGO SAN FRANCISCO LOCAL EASTERN FOREIGN

RECOVERIES FROM SLUMPS ON 'CHANGE U. S. TO CLAIM RICH OIL LANDS

By E. C. REEVES, International News Service Staff Correspondent.

NEW YORK, June 8.—Fractional recoveries from the slump of yesterday afternoon were the rule throughout most of the list at the opening of the Stock Exchange today.

Industrial Alcohol gained more than a cent, the leading stock of the group, and the market was up half a point while the market was full of reports of shorts who had been plied by the advance. Early trading was not on such active scale as characterized the bull opening of yesterday.

Mineral and industrial stocks were up about a point soon after the opening.

Enameling moved up to a new high record at 40 1/2. Industrial activities were most pronounced in Distillers, which rose to 12 1/2.

Sugar Refining reflected continued accumulation and advanced two points to 12 1/2, the highest price touched in a long time.

Alameda was the strongest of the copper group, advancing 1/2 to 50 1/2, and Mexican Petroleum up 1/2 to 10 1/2.

At the end of the first fifteen minutes there was an increased demand for United States Steel, which moved up to 13 1/2.

Price movements throughout the morning consisted of advances on traders buying, and covering of shorts which met profit-taking sales on a large scale, causing fluctuations.

Steel common, after advancing to 13 1/2, reacted to 13 1/4. Atlantic Gulf advanced four points to 11 1/2. Central Refining 3 1/2 to 12 1/2, and American sugar moved up 3/4 to 12 1/2, a new high price of five year.

Industrial Alcohol set another high record of 40 1/2 during the afternoon.

# BLACKHEADS AND PIMPLES ON FACE

Got Hard and Red, Itched Dreadfully, Irritated by Scratching So Burned and Smarted. Cuticura Soap and Ointment Healed. Cost \$3.00.

"My face was affected with blackheads and pimples. I did not pay any attention to them at first but it was only a day or two before they would swell up and get hard and red. They would then come to a head and fester which made them very sore. I did not like to go out in company on account of my face. The pimples itched dreadfully, and I irritated them by scratching so that they burned and smarted terribly.

"I suffered about a year before I used Cuticura Soap and Ointment. As soon as I used them they soothed my face, and I could sleep well, and after using four cakes of Cuticura Soap and four boxes of Cuticura Ointment I was healed." (Signed) Miss Ethyl Carr, Martinez, Calif., October 21, 1916.

No beauty doctor can do more for your complexion than Cuticura Soap, assisted when necessary by touches of Cuticura Ointment. Unlike strongly medicated soaps Cuticura Soap is ideal for the complexion because so mild, so delicate and so creamy.

For Free Samples by Return Mail address post-card: "Cuticura, Dept. H, Boston." Sold everywhere.

One dose convinces. Osgood's Dept. Drug Stores and other reliable druggists.

# SEE WAR WITH MARS ARTISTS DRAW SCENES

"The Crowning Hour of Uncle Sam's Emblem," title for the cover illustration of The TRIBUNE's magazine section Sunday is indicative of the patriotic contents of the number.

"Love and the War Cry" by Cora Royce is a timely article of a woman's phase of the war.

When H. G. Wells wrote of the war of the worlds—remember how we all reveled in his imaginative powers? French artists have been illustrating with weird and wonderful creations of line, their prophetic visions of a struggle with Mars. Their pictures are in The TRIBUNE Sunday.

An important and scholarly article of vital interest to the world is one contributed to the Sunday TRIBUNE by Dr. Clifton Harby Levy, "Will Jerusalem Be Returned to the Jews?" It is the story of the city of tragic history, now menaced by new changes.

These are but a few of the many features of the Magazine of Interest. There is a page of fashions in colors, a second article on landscape gardening, book reviews, art criticisms, music comment, the ever-absorbing Knave, science, etc., etc., etc.

## SITE IS OFFERED MAY DELAY LAW

LOS ANGELES, June 8.—Space for the naval reserve training station ordered established at Los Angeles harbor was offered free by the city to the commandant of the twelfth naval district at San Francisco. It is stated at the office of the municipal harbor commission here. An area 600 by 100 feet in the southerly section of pier 1 in the outer harbor will be set aside for the navy's needs, it was announced.

## PERFORMERS DIE

READING, Pa., June 8.—Harry Lukens and his wife, circus performers, were killed when a motor car in which they were riding from this city to Boston, to join their show, was struck by a railroad train. Lukens was an acrobat and he Evelyn.

## OLYMPIA, Wash., June 8.—Al

though the preliminary count of signatures on the "bone dry" referendum petitions shows a sufficient number to warrant the secretary of state to make an official canvass during the next thirty days, differences exist among county officers in various parts of the state as to whether the operation of the law is actually suspended. A ruling by Attorney General Tanner Wednesday put the matter up to the county prosecutors. Solution of the dilemma must await a court decision.

The originator of a popular vaudeville act bearing his name, Mrs. Lukens was a lion trainer known professionally as Milton Evelyn.

# GROCERS TO RALLY AT NEPTUNE BEACH

Grocery stores will be closed next Thursday to allow the men and women to supply Alameda county with provisions and necessities of life a chance for recreation and amusement. Grocers' Day will be celebrated this year at Neptune Beach and store men from Oakland, Berkeley and Alameda will leave their business routine for twenty-four hours to take advantage of the general holiday.

Features of the holiday will include dancing and athletic games of all kinds. The unusual schedule of amusement events has been planned by the committees in charge. All questions regarding the day should be directed to T. J. Prole, assistant secretary of the retail grocers' association at the organization's headquarters in Webster street.

That Alameda county housewives may take a day off next Thursday is the view of Prole. Not only will the grocers celebrate in a recreation day, but the butchers, ice men and fuel dealers intend closing their establishments or leave their wagons home so that they may themselves enjoy the day. Flag Day is also scheduled in the holiday calendar for Thursday. According to Prole, it is likely that markets in the downtown district will close during the day. Both meat and grocery departments in them probably will be closed.

## SUED OVER NAME

Suit for \$5000 damages was filed today by the Guarantee Battery Company against the Oakland Guarantee Battery Company, Clark Norwalk and others, an alleged unlawful use of a trade name. The plaintiff company, which was incorporated March 20, 1916, claims that the defendant company has willfully deceived the public by taking the same name and pretending to have the same excellence of electrical work. An injunction is asked restraining the defendants from further use of the name, and the court is requested to compel the defendants to pay over all the profits realized in their business as well as the \$5000 damages.

## FIGHTS CONTRACT

Dr. Oliver L. Jones of Oakland was made defendant in a suit filed in San Francisco yesterday by Mrs. Elizabeth Hinkle, widow of the late William Hinkle, brother, for annulment of an agreement by which she agreed to give Dr. Jones \$48,000 out of the \$100,000 estate of her husband. Hinkle died three years ago. The suit is similar to the failed several months ago, except that it names Attorney Robert L. Mann as co-defendant with Jones. In the present suit Mrs. Hinkle alleges that Mann, while pretending to act in her behalf, was actually conspiring with Jones to defraud her.

## ENGINEERS BUSY

The Stationary Engineers' Union, No. 507, last evening unanimously adopted a resolution to support the bond. The union has also gone on record to keep all members who have enlisted in good standing. Four members have joined the navy.

# News from Labor Headquarters

Preparations have been started for the holding of a mammoth Labor day celebration, in which the Building Trades Council and the Central Labor Council will combine, on September 3. The joint committees have been appointed to begin preparations, this committee being composed of P. W. Lora, W. E. Castro and W. A. Spooner, representing the Central Labor Council, and Perry Burlingame, Mike Macdonough and Sam Donohoe, representing the Building Trades Council.

The celebration will take the form of a picnic to be held at Alameda Park. This to be an all-day affair. The orator of the day will be chosen by the committee, some prominent man in union labor. The public has been invited to the exercises in the afternoon a series of games, contests and special features will also be presented.

Tonight members of various organized labor bodies will witness the first showing of Mooney case films, a collection of motion pictures compiled by the Workers' Defense League, that is to be sent throughout the United States to get labor's side of the bomb cases before the public. The public has been invited by the Building Trades and the Central Labor Councils, who are jointly presenting films to attend. The films will be shown in the Auditorium.

Fred Pratt, secretary of the Building Trades Council, is at his desk again, following a slight illness of several days.

A meeting of the special committee appointed by the Central Labor Council to consider co-operation between employers and workers in the matter of any disputes that may arise in the jurisdiction of the council will be called at Monday night's meeting of the council. This committee was named at the suggestion of the United States Chamber of Commerce to act in conjunction with a similar committee representing the employers in such issues.

Plans for a social evening are being made by the Union Label League. The date to be announced in the near future. The affair will be held in Gompers Hall, and the public has been invited. The league is actively engaged on its broad label campaign at the present time.

WASHINGTON—An unusually severe earthquake was recorded at Georgetown yesterday last night.

LONDON—Lord Northcliffe will not have diplomatic powers when he comes to the United States as head of the British mission.

PORTLAND—Two shipwrecks to build wooden vessels will be built on the Columbia river at once.

PHILADELPHIA—Ten women were injured in a street car collision and panic today.

LONDON—John Sargent has accepted a proposal from the governors of the National Gallery of France to paint a portrait of President Wilson.

LONDON—The announcement of the appointment of Colonel Viscount Spencer Churchill as chairman of the British air board appears to have been incorrect.

PARIS—The strike movement which existed in Paris during the last three weeks is practically over.

## SALOON HELD UP

SAN FRANCISCO, June 8.—The sixteenth saloon holdup in five weeks was reported to the police today. Two masked and armed bandits, at 1:45 this morning, held up Solomon Harris, bartender in a saloon on No. 2 street, took \$20 from the cash register, searched two patrons and fled.

Chamberlain's Cough Remedy. The personal recommendation of people who have benefited by Chamberlain's Cough Remedy have done much toward making this preparation one of the most popular in use. For sale by Osgood Bros. Drug Stores. Advertisement.

# CAR IS SENT TO ATTRACT SETTLERS

Standing on the railroad track at Fortieth and San Pablo ave. is a handsome Pullman car fitted up with everything necessary to instruct those interested in the manner and method of securing some rich Indian land soon to be opened for settlement in Oklahoma. The land belongs to the Choctaw Indian nation, and will be opened by the government.

The car is lighted throughout with electricity, and contains United States geological maps and folios describing every acre of land to be disposed of, making it possible to learn as much concerning these lands as if one were there in person. They are rich in timber, being known officially by act of Congress as the unallotted timber lands. They are also fine farming and grazing tracts, and the possibilities are very bright, the lands being in the center of a probable oil field, and, unlike other similar lands, these are not to be homesteaded, and do not require residence thereon. Neither does one have to go East to secure them, as this can be arranged for at the car now here.

The car is sent out by the Real Estate Exchange of McAlester, Oklahoma, near which place the land is located, and will be disposed of. The tour is under the personal directions of the vice-president of the exchange, who is ably assisted by five skilled demonstrators who are familiar with the geological formation of the lands in question, and who can, in fifteen minutes' time, by the aid of the government folios, give one a better knowledge of these lands than they could secure in a month were they on the lands without these government maps.

In addition to the maps and charts furnished by the government the McAlester exchange is standing all the work of instructing the public is free, and in addition to the maps and folios the car contains many views taken on the lands, and a number of photographs of the city of McAlester, and many other interesting exhibits of western developments, and will remain here for several days open to the public daily, including Sunday, from 9 a. m. to 9 p. m., and all are welcome. The services of instructing are free.

## ARTILLERY FILLED

CHICAGO, June 8.—Major Paul B. Malone announced that there is no more room for recruits in the coast artillery corps and no more applications can be received. The major said that applicants are being told to seek service in other branches of the army.

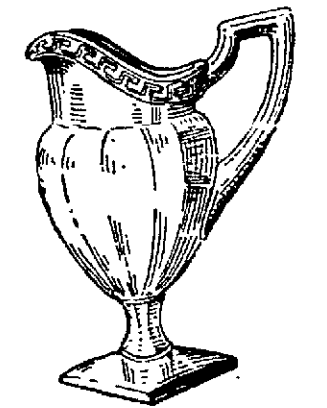

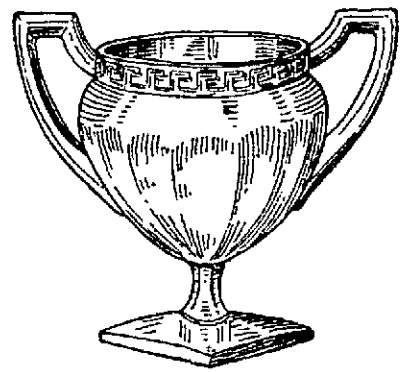

# FINDS LOST WIFE WOULD END LIFE

WOODLAND, Wash., June 8.—That truth is often stranger than fiction was exemplified here when C. S. Severance accidentally ran across his wife whom he had not seen for many years. They separated in Kansas City twelve years ago, he coming to the coast and his wife and children going to Kansas. For several years Severance had sought word of the family, but without success. The boy, Ralph, has meanwhile served an enlistment term of four years in the regular army and is now a young man, and the daughter is married and living in a northern Washington town, the wife residing here with a brother, R. L. Ritter. Severance makes his home in Portland.

KANSAS CITY, June 8.—"If I am sent to the Chillicothe (State Industrial School for Girls) I'll kill myself," a young wife told Judge Joseph F. Kierman in the South Side court. She was arrested with her husband at Fifteenth street and Montclair avenue, yesterday, charged with disturbing the peace. She said she was 14 years old and had been married eight months. Court officers corroborated her testimony as to her age. Judge Kierman placed her in the care of Dr. E. L. Mathias, probate officer of the juvenile court. Her husband was discharged on a promise to reform.

Jackson's Saturday Special

## Sugar and Creamer

15c set

A footed sugar and creamer with handles—as illustrated. A clear glass—with a conventional border design around top. Stand about 4 1/2 inches high—a convenient size for table use. Just the thing to take down to your country home.
